Liberty Mutual Insurance **Group Benefits**

MyLibertyMobile℠

Patent Pending

Group benefits on the go!

Liberty Mutual Insurance Group Benefits never stops looking for innovative ways to facilitate communication with employers and employees. Mobile technology offers a new opportunity to provide "quick hit" functionality for benefits transactions suited for on-the-go use. We're at the forefront of carrier adoption of mobile technology for group benefits, leveraging its power to expand communications options for our customers. MyLibertyMobile, the first mobile web application to be developed by a group life and disability carrier, is so unique it has a patent pending. And we constantly look to expand its capabilities.

What's the benefit of MyLibertyMobile?

Employers offering MyLibertyMobile have the flexibility to provide multiple benefits management options for their employees. MyLibertyMobile is:

- Convenient—accessible from a mobile device
- Easy—simple, intuitive navigation
- Secure—recognizes employee based on individual identifiers
- Integrated—information is integrated, updated, and reported system-wide

What benefit management options are currently available for MyLibertyMobile?

- View Status offers a convenient option for employees to view the status and details of their claims and leaves.
- Report Intermittent Absence offers a convenient option to report periodic time away from work during intermittent leaves.
- Report a Birth offers a convenient option for new mothers to activate their benefits following the birth of a child.

How do users get started?

Navigate to MyLibertyMobile.com. First-time visitors start the registration process by using a leave ID or claim number supplied by Liberty Mutual Insurance. After supplying some additional information, employees create a username and password.

They will then have access to all the benefits management options their employer offers.
