

# Climate Aspirations

## Aspiration 1:

We are committed to transitioning to a low-carbon economy and are undertaking activities that will help inform our climate strategies.

## Aspiration 2:

We are building capabilities to help us monitor and measure the progress of our climate journey.

## Aspiration 3:

We support the development of responsible investment and underwriting guidelines that will enable our climate journey while supporting businesses in traditionally high-impact sectors that are committed to transitioning to a low-carbon economy.

## Aspiration 4:

We aim to support innovation that can significantly impact the pace and design of the transition to a low-carbon economy.

## Aspiration 5:

We favor a '3-Rs' strategy to transition our operations to a low-carbon future: (1) Reducing our emissions through improved efficiency, (2) Investing in renewable/alternative technologies and businesses and (3) Utilizing RECs (renewable energy credits) and offsets.
