## NOTES TO FINANCIAL STATEMENTS

---

### **Note 1- Summary of Significant Accounting Policies**

#### A. Accounting Practices

The accompanying financial statements of Bridgefield Employers Insurance Company (the "Company") have been prepared in accordance with the NAIC Accounting Practices and Procedures Manual and on the basis of accounting practices prescribed or permitted by the State of Florida Department of Financial Services ("Florida DFS").

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves, if any, are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expense incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Investment grade short-term investments are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the Purposes and Procedures Manual of the NAIC Securities Valuation Office (SVO Manual).
2. Investment grade bonds are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the SVO Manual.
3. Common stocks are carried at market except investments in stocks of the subsidiaries which are carried at equity – (see Item 7 below).
4. Preferred stocks are carried at cost or market in accordance with the SVO Manual.
5. The Company does not own mortgage loans.
6. Mortgage-backed/asset backed securities are stated at amortized value. Prepayment assumptions for single class mortgage-backed/asset backed securities and multi-class securities were obtained from internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all single class mortgage-backed/asset-backed securities and multi-class securities. Non-investment grade mortgage-backed/asset backed securities are stated at the lower of amortized value or fair value.
7. The Company owns 100% of two subsidiaries. The subsidiaries are reported on the equity method.
8. The Company has no investments in joint ventures, partnerships and limited liability companies.
9. The Company has no derivative instruments.
10. The Company anticipates investment income as a factor in the premium deficiency calculation.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods, for making such estimates and for establishing the resulting liability, are continually reviewed and follow current standards of practice. Any adjustments to the liability are reflected in the period that they are determined.

### **Note 2- Accounting Changes and Corrections of Errors**

- A. There were no material changes in accounting principles or corrections of errors except for the implementation of the installment method of recording direct written premiums in 2003.
- B. The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the Florida DFS. Effective January 1, 2001, the Florida DFS required that insurance companies domiciled in Florida prepare their statutory-basis financial statements in accordance with the NAIC Accounting Practices and Procedures Manual - Version effective March 2005, subject to any deviations prescribed or permitted by the Florida DFS.

Accounting changes adopted to conform to the provisions of the NAIC Accounting Practices and Procedures Manual- Version effective January 1, 2001, are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. The cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at that date if the new accounting principles had been

applied retroactively for all prior periods. As a result of these changes, the Company reported a change of accounting principle, as an adjustment that increased unassigned funds (surplus) of \$1,550,588 as of January 1, 2001. Included in this
