Note 1- Summary of Significant Accounting Policies

A. Accounting Practices

Effective January 1, 2001, and subject to any deviations prescribed or permitted by the Indiana Department of Insurance, the accompanying financial statements of LM Property and Casualty Insurance Co. (the "Company") have been prepared in conformity with the National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* ("APP Manual").

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short term investments are carried at cost, adjusted where appropriate for amortization of premium or discount, or market as specified by the Purposes and Procedures Manual of the NAIC Securities Valuation Office ("SVO Manual").
- 2. Bonds are carried at cost, adjusted where appropriate for amortization of premium or discount, or market as specified by the SVO Manual.
- 3. Common stocks are carried at market value.
- 4. Preferred stocks are carried at cost or market as specified by the SVO Manual.
- 5. The Company does not own mortgage loans.
- 6. Mortgage backed/asset backed securities are stated at amortized cost or market based on guidance in the SVO Manual. Prepayment assumptions for mortgage backed/asset backed securities are updated monthly using the Bloomberg data service. The retrospective adjustment method is used to value all mortgage backed/asset backed securities.
- 7. The Company does not own any subsidiaries, controlled, or affiliated entities.
- 8. The Company does not own any joint ventures, partnerships, or limited liability companies.
- 9. Derivative securities, refer to Note 8.
- 10. Refer to Note 30.
- 11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and follow current standards of practice. Any adjustments to the liability are reflected in the period that they are determined.
- 12. The Company did not change its capitalization policy in 2006.
- 13. The Company has no pharmaceutical rebate receivables.

Note 33 - Asbestos/Environmental Reserves

The Company has exposure to asbestos and environmental claims which emanate principally from two main exposures 1) the assumption of certain liabilities and obligations of Prudential-LMI Commercial Insurance Company (Prudential-LMI), effective December 31, 1986 and 2) the assumption of reserves from Everest Reinsurance Holdings, Inc. (Everest Re), related to Prudential Financials' sale of Gibraltar Casualty Company to Everest Re.

The process of establishing reserves for asbestos and environmental claims is subject to greater uncertainty than the establishment of reserves for liabilities relating to other types of insurance claims. A number of factors contribute to this greater uncertainty surrounding the establishment of asbestos and environmental reserves, including, without limitation: (i) the lack of available and reliable historical claims data as an indicator of future loss development, (ii) the long waiting periods between exposure and manifestation of any bodily injury or property damage, (iii) the difficulty in identifying the source of asbestos or environmental contamination, (iv) the difficulty in properly allocating liability for asbestos or environmental damage, (v) the uncertainty as to the number and identity of insureds with potential exposure, (vi) the cost to resolve claims, and (vii) the collectibility of reinsurance.

The uncertainties associated with establishing reserves for asbestos and environmental claims and claim adjustment expenses are compounded by the differing, and at times inconsistent, court rulings on environmental and asbestos coverage issues involving: (i) the differing interpretations of various insurance policy provisions and whether asbestos and environmental losses are, or were ever intended to be, covered; (ii) when the loss occurred and what policies provide coverage; (iii) whether there is an insured obligation to defend; (iv) whether a compensable loss or injury has occurred; (v) how policy limits are determined; (vi) how policy exclusions are applied and interpreted; (vii) the impact of entities seeking bankruptcy protection as a result of asbestos-related liabilities; (viii) whether clean-up costs are covered as insured property damage and (ix) applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products or completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

In recent years, the Company, as well as the industry generally, has witnessed a significant increase in the number of asbestos claims being filed, due to a number of variables, including more intensive advertising by lawyers seeking asbestos claimants, and the increasing focus by plaintiffs on new and previously peripheral defendants, attempts to broaden the interpretation of compensable loss, and courts expanding the scope of the coverage.

As a result of the significant uncertainty inherent in determining a company's asbestos and environmental liabilities, the amount of reserves required to adequately fund the Company's asbestos and environmental claims cannot be accurately estimated using conventional reserving methodologies based upon historical data and trends. As a result, the use of conventional reserving methodologies frequently has to be supplemented by subjective considerations including managerial judgment.

The methods of determining estimates for reported and unreported losses and establishing resulting reserves and related reinsurance recoverables are periodically reviewed and updated, and adjustments resulting from this review are reflected in income currently.

As a direct result of the significant uncertainties associated with estimating its asbestos and environmental exposures and establishing appropriate levels of reserves, the ultimate liability of the Company for asbestos and environmental exposures may vary materially from the reserves currently recorded. The Company and other industry members have and will continue to litigate the broadening judicial interpretation of policy coverage and the liability issues. If the courts continue to expand the scope of the coverage provided, additional liabilities could emerge for amounts in excess of reserves held. This emergence, as well as the other uncertainties noted above, cannot be reasonably estimated, but could have a material impact on the Company's future operating results and financial condition.

The following tables summarize the activity for the Company's asbestos and environmental claims and claim adjustment expenses, a component of the Company's unpaid claims and claim adjustment expenses, for the years ended December 31, 2006, 2005, 2004, 2003, and 2002:

Note: Effective in 2003, as part of the series of transactions related to the sale of the company to LMGI, the Company terminated its keep well agreement under which Prudential Financial, Inc. would reimburse asbestos losses and for which the Company had a permitted practice allowing gross asbestos reserves to be reported net of the keep well agreement. In its place, the Company executed a reinsurance agreement with Vantage Casualty Insurance Company ("Vantage", a wholly owned subsidiary of the Prudential) whereby any increase in asbestos and pollution reserves are reinsured by Vantage. Vantage's obligations are fully guaranteed by Prudential Financial Inc. Accordingly, the gross and net asbestos reserves have been adjusted in 2003.
