NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Avomark Insurance Company (Avomark or the company) have been prepared on the basis of accounting practices prescribed or permitted by the Indiana Insurance Department.

The Indiana Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Indiana for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Indiana Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures manual, version effective January 1, 2001, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Indiana.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Throughout this statement, line items may not add to totals due to rounding.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The insurance industry is subject to regulation that differs by state. A change in regulation in a given state may have a material adverse impact on Avomark.

C. Accounting Policies

Property and casualty insurance premiums are earned principally on a monthly pro rata basis over the term of the policy; the premiums applicable to the unexpired terms of the policies are included in the unearned premium reserve.

Acquisition costs incurred at policy issuance, such as commissions, brokerage fees, salaries and benefits and other underwriting expenses which vary directly with the acquisition of insurance contracts are charged to operations in the year in which they are incurred.

In addition, Avomark uses the following accounting policies:

- (1) Short-term investments
Not applicable
- (2) Bonds are generally carried at amortized cost or prescribed NAIC values. Bond premium/discount is amortized/accreted using the effective interest method.
- (3) Common stocks
Not applicable.
- (4) Preferred stocks
Not applicable.
- (5) Mortgage loans
Not applicable.
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all loan-backed securities, unless the prospective method is warranted due to credit rating or impairment.
- (7) Investments in subsidiaries
Not applicable.
- (8) Investments in joint ventures, partnerships and limited liability companies
Not applicable.
- (9) Derivatives
Not applicable.
- (10) Avomark anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property - Casualty Contracts - Premiums.
- (11) Reserves for unpaid losses and loss adjustment expenses are based on undiscounted estimates of ultimate costs to investigate, defend and settle all claims, including provisions for development on known claims and unreported claims. Such estimates are derived from reasonable assumptions and the application of a variety of appropriate actuarial methodologies. Inherent uncertainty in the estimates implies the true value of the liability will not be known until all attendant claims have been settled. Estimates are reviewed quarterly and adjustments to prior estimates are reflected in current earnings.

Reserves for asbestos-related and toxic waste cleanup claims cannot be estimated with traditional loss reserving techniques. In establishing liabilities for claims for asbestos-related illnesses and for toxic waste cleanup claims, management considers facts currently known and the current state of the law and coverage litigation. Given uncertainties involving possible expansion of coverage and liability by the courts and legislatures, tort reform, future inflationary trends and jury awards, estimates are subject to significant variability. Nevertheless, we employ methods of estimating these reserves that we believe produce reasonable results given the current information available.
- (12) Avomark has not modified its capitalization policy from the prior period.

SVO unit prices were used to determine fair value, if the prices were available. For other bonds, preferred stocks and common stocks, fair values were obtained from IDC and securities dealers, when available. For securities not actively traded, estimated fair values were determined by matrix pricing and modeling techniques. These estimates are based on the values of securities with comparable trading characteristics (e.g. interest rates, credit quality, average maturity).
