Note 1- Summary of Significant Accounting Policies

A. Accounting Practices

Effective January 1, 2001, and subject to any deviations prescribed or permitted by the Pennsylvania Insurance Commissioner, the accompanying financial statements of Merchants and Business Men's Mutual Insurance Company (the "Company") have been prepared in conformity with the National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* ("APP Manual").

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Investment grade short-term investments are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the Purposes and Procedures Manual of the NAIC Securities Valuation Office (SVO Manual).
- 2. Investment grade bonds are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the SVO Manual.
- 3. The Company does not own common stocks.
- 4. The Company does not own preferred stocks.
- 5. The Company does not own mortgage loans.
- 6. Mortgage-backed/asset backed securities are stated at amortized value. Prepayment assumptions for single class mortgage-backed/asset backed securities and multi-class securities were obtained from internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all single class mortgage-backed/asset-backed securities and multi-class securities. Non-investment grade mortgage-backed/asset backed securities are stated at the lower of amortized value or fair value.
- 7. The Company has no investments in subsidiaries.
- 8. The Company has no investments in joint ventures, partnerships or limited liability companies.
- 9. The Company has no derivative instruments.
- 10. The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, *Property-Casualty Contracts Premiums*.
- 11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and follow current standards of practice. Any adjustments to the liability are reflected in the period that they are determined.
- 12. The Company did not change its capitalization policy in 2004.

Note 2- Accounting Changes and Correction of Errors
