## NOTES TO FINANCIAL STATEMENTS

### **Note 1- Summary of Significant Accounting Policies**

#### A. Accounting Practices

Effective January 1, 2001, and subject to any deviations prescribed or permitted by the New Hampshire Insurance Commissioner, the accompanying financial statements of Liberty Personal Insurance Company (the "Company") have been prepared in conformity with the National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* ("APP Manual").

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

#### C. Accounting Policies

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Short term investments are carried at cost, adjusted where appropriate for amortization of premium or discount, or fair value as specified by the Purposes and Procedures Manual of the NAIC Securities Valuation Office (SVO Manual).
2. Bonds are carried at cost, adjusted where appropriate for amortization of premium or discount, or fair value as specified by the SVO Manual.
3. The Company does not own common stocks.
4. The Company does not own preferred stocks.
5. The Company does not own mortgage loans.
6. Mortgage backed/asset backed securities are stated at amortized cost or fair value based on guidance in the SVO Manual. Prepayment assumptions for mortgage backed/asset backed securities are updated monthly using the Bloomberg data service. The retrospective adjustment method is used to value all mortgage backed/asset backed securities.
7. The Company does not own any subsidiaries, controlled or affiliated entities.
8. The Company does not own any joint ventures, partnerships, and limited liability companies.
9. Derivative Securities, refer to Note 8.
10. Refer to Note 29.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and follow current standards of practice. Any adjustments to the liability are reflected in the period that they are determined.
12. The Company did not change its capitalization policy in 2009.
13. The Company has no pharmaceutical rebate receivables.

	1	2
	Less Than 12 Months	Greater Than 12 Months
Gross Unrealized Loss	(763,971)	0

7. The Company reviews fixed income securities for impairment on a quarterly basis. Securities are reviewed for both quantitative and qualitative considerations including, but not limited to: (a) the extent of the decline in fair value below book value, (b) the duration of the decline, (c) significant adverse changes in the financial condition or near term prospects of the investment or issuer, (d) significant change in the business climate or credit ratings of the issuer, (e) general market conditions and volatility, (f) industry factors, and (g) the past impairment of the security holding or the issuer. If the Company believes a decline in the value of a particular investment is temporary, the decline is recorded as an unrealized loss in policyholders' equity. If the decline is believed to be "other-than-temporary," and the Company believes it will not be able to collect all cash flows due on its fixed income securities, then the carrying value of the investment is written down to the expected cash flow amount and a realized loss is recorded as a credit impairment.
