### **Note 1- Summary of Significant Accounting Policies**

#### **A. Accounting Practices**

The accompanying financial statements of Liberty Mutual Insurance Company (the „Company“) have been prepared in conformity with accounting practices prescribed or permitted by the State of Massachusetts. Effective January 1, 2001, the Massachusetts Division of Insurance required that insurance companies domiciled in Massachusetts prepare their statutory-basis financial statements in accordance with the NAIC Accounting Practices and Procedures Manual, effective January 1, 2001, subject to any deviations prescribed or permitted by the Massachusetts Insurance Commissioner.

#### **B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

#### **C. Accounting Policies**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro-rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expense incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Investment grade short-term investments are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the Purposes and Procedures Manual of the NAIC Securities Valuation Office (SVO Manual).
2. Investment grade bonds are carried at cost adjusted where appropriate for amortization of premium or discount, or market as specified by the SVO Manual.
3. Common stocks are carried at market value except that investments in stocks of subsidiaries and affiliates are carried on the equity basis.
4. Preferred stocks are carried at cost or market in accordance with the SVO Manual.
5. The Company does not own mortgage loans.
6. Mortgage-backed/asset backed securities are stated at amortized value. Prepayment assumptions for single class mortgage-backed/asset backed securities and multi-class securities were obtained from internal estimates. These assumptions are consistent with the current interest rate and economic environment. The retrospective adjustment method is used to value all single class mortgage-backed/asset-backed securities and multi-class securities. Non-investment grade mortgage-backed/asset backed securities are stated at the lower of amortized value or fair value.
7. The Company carries its investments in subsidiaries, controlled and affiliated (SCA) companies in accordance with SSAP No. 46 and the SVO Manual. Schedule D Part 6-Section 1 illustrates the valuation method used for each SCA company.
8. Investments in joint ventures, partnerships and limited liability companies are carried at the underlying audited GAAP equity value, when available.
9. All derivative instruments are valued consistently with the hedged items.
10. The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods, for making such estimates and for establishing the resulting liability, are continually reviewed and follow current standards of practice. Any adjustments to the liability are reflected in the period that they are determined.

## **NOTES TO FINANCIAL STATEMENTS**

### **Note 2- Accounting Changes and Correction of Errors**

- A. There were no material changes in accounting principles or corrections of errors except for the implementation of Codification.
- B. The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the State of Massachusetts. Effective January 1, 2001, the Massachusetts Division of Insurance required that insurance companies domiciled in Massachusetts prepare their statutory-basis financial statements in accordance with the NAIC Accounting Practices and Procedures Manual, effective January 1, 2001, subject to any deviations prescribed or permitted by the Massachusetts Insurance Commissioner.

Accounting changes adopted to conform to the provisions of the NAIC Accounting Practices and Procedures Manual, effective January 1, 2001, are reported as changes in accounting principles. The cumulative effect of changes in accounting principles is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. The cumulative effect is the difference between the amount of capital and surplus at the beginning of the year and the amount of capital and surplus that would have been reported at the date if the new accounting principles had been applied retroactively for all prior periods. As a result of these changes, the Company reported a change of accounting principle, as an adjustment that decreased unassigned funds (surplus) by \$168,800,413 as of January 1, 2001. Included in this total adjustment:

1. The Company had no negative yield situations requiring a change from the retrospective to prospective method.

Partnership	Impairment Loss
Asia/Pacific SP SIT Fund	\$1,351,128

- B. No amounts were excluded as of December 31, 2001.

**Note 8- Derivative Instruments**

At December 31, 2001 the Company was party to derivative contracts in the form of equity swaps. The purpose of the equity swap contracts is to exchange rates of return for a specified set of common stocks. The Company agrees with the counterparty to exchange, at specified intervals, the net performance differential of the Standard & Poor's Index of 500 common stocks and a notional portfolio of common stocks. A single net payment is made by one counterparty at each due date. The Company is exposed to potential credit loss in the event of nonperformance by the other party to the equity swap contract with respect to only the net differential payments.

The equity swap is accounted for at market value consistent with the hedged item. The change in the net performance differential is reported as a component of realized capital gains (losses).

Periodically, the Company uses forward contracts as a means of hedging exposure to price, foreign currency and/or interest rate risk. Forward contracts are contracts to make or take delivery of, or effect a cash settlement based upon actual or expected price, level, performance or value of, one or more underlying interests. Risks

## **NOTES TO FINANCIAL STATEMENTS**

arise as a result of movements in current market prices from contracted prices and the potential inability of counterparties to meet their obligation under the contracts.

### **Note 9- Income Taxes**

In accordance with the adoption of SSAP No. 10, Income Taxes, deferred federal income tax balances have been recorded for the first time at January 1, 2001.

Net operating loss benefit	0	0
Current income taxes (benefit)/incurred	<u>\$(68,438,344)</u>	<u>\$3,526,853</u>

- D. Effective tax rates differ from the current statutory rate of 35% principally due to the effects of tax-exempt interest, dividends-received deductions, discounting of reserves for unpaid losses and loss adjustment expenses, an unearned premium adjustment, nonadmitted deferred tax assets, and revisions to prior years' estimates.

- E. The amount of Federal income taxes included and available for recoupment in the event of future losses is none from the current year and none from the first preceding year.

In addition to pension benefits, the Liberty Companies provide certain health care and life insurance benefits („postretirement“) for retired employees, subject to eligibility requirements. These benefits are provided

## **NOTES TO FINANCIAL STATEMENTS**

through both the Liberty Mutual and Wausau Post-retirement Welfare Plans ("the Plans").

In 1993, the method of accounting for the cost of retiree benefits under the Plans was changed to the accrual method, with the transition obligation for retirees and fully eligible employees amortized over 20 years.

Effective January 1, 1997, the Liberty Companies amended the postretirement benefit plan to provide for a limitation of the amount of the employer's contribution reducing the transition obligation by \$27,000,000.

The unamortized transition obligation was \$112,924,904 and \$124,124,169 at December 31, 2001 and 2000, respectively.

Net postretirement benefit cost for the years ended December 31, 2001 and 2000, was \$39,617,024 and \$37,701,540, respectively, and included the expected cost of such benefits for newly eligible employees, interest cost, gains and losses arising from differences between actuarial assumptions and actual experience, and amortization of the transition obligation. The Plans disbursed payments of approximately \$25,989,568 and \$23,298,825 in 2001 and 2000, respectively, as claims were incurred.

At December 31, 2001 and 2000, the accrued unfunded postretirement benefit obligation for retirees and other fully eligible plan participants was \$155,699,924 and \$132,792,967, respectively. The accumulated benefit obligation for non-vested employees was \$107,983,717 and \$91,318,266 at December 31, 2001 and 2000, respectively. The discount rates used in determining the accumulated postretirement benefit obligations were 7.00% and 7.25% in 2001 and 2000, respectively. The average health care cost trend rate assumption was 6.75% for 2001 graded to 5.00% over three years for 2001.

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	<u>1-Percentage Point Increase</u>	<u>1-Percentage Point Decrease</u>
Effect on total of service cost and interest cost components	\$1,981,552	\$(1,856,957)
Effect on accumulated postretirement benefit obligation	\$29,642,023	\$(27,077,493)

- B. The Liberty Companies sponsor various defined contribution savings plans for all U.S. employees who meet certain eligibility requirements. **Note 20- Other Items**

**A. Exposure to Loss from World Trade Center Disaster**

The Company has material exposure to losses arising from the World Trade Center disaster of September 11, 2001. The exposure arises from the property, WC, auto, and surety policies and reinsurance contracts written by member companies of the Liberty Mutual Pool (See Note 25). The Company shares in the losses via the Inter-Company Reinsurance Agreement. Although uncertainty about the final loss amount still exists, the losses are reasonably estimable and such estimate has been recorded. The Company position is that the events of September 11, 2001 constitute a single occurrence. The Company believes that its reinsurers are financially sound and that reinsurance collectibility is not a significant issue or concern. The potential for adverse development of the net amounts recorded is believed to be less than \$50 million for the entire Liberty Mutual Pool. The loss and ALAE amounts recorded by the Company in this annual statement are as follows:

	Direct	Assumed	Gross	Ceded	Net

Reserves for incurred loss and loss adjustment expenses attributed to insured events of prior years has increased by \$ 762 million from \$9,406 million to \$10,168 million during 2001 as a result of re-estimation of unpaid losses and loss adjustment expenses, principally on workers compensation and other liability lines of insurance. This increase is generally the result of ongoing analysis of recent loss development trends. Original estimates are revised as additional information becomes known regarding individual claims.

## NOTES TO FINANCIAL STATEMENTS

Included in this increase, the Company experienced \$334 million of unfavorable prior year loss development on retrospectively rated policies. Additional premium accruals have been made that significantly offset this adverse development.

<u>Life Insurance Company and Location</u>	<u>Loss Reserves Eliminated By Annuities</u>

Nationwide Life Insurance Company	120,070,677

**Note 27- High Deductibles**

As of December 31, 2001, the amount of reserve credit recorded for high deductibles on unpaid losses was \$914,738,978 and the amount billed and recoverable was \$162,012,574.

**Note 28- Discounting of Liabilities for Unpaid Losses and Unpaid Loss Adjustment Expenses**

For Workers Compensation, the Company discounts its reserves for unpaid losses using a tabular discount on the long-term annuity portion of certain workers compensation claims. The tabular discount is based on Unit Statistical Plan tables as approved by the respective states at an annual discount rate of 4.0%. The December 31, 2001, liabilities include \$2,136,919,510 of liabilities carried at a discounted value of \$1,320,179,138, representing a discount of \$816,740,372.

For Group Accident and Health, the Company discounts its reserves for unpaid losses using a tabular discount on the long-term disability portion of some Group Accident and Health claims. The tabular discount is based on the 1987 Commissioners Group Disability Table (CGDT) at annual discount rates varying from 5.00% to 5.75%. The December 31, 2001 liabilities include \$425,157,858 of liabilities carried at a discounted value of \$294,207,369, representing a discount of \$130,950,489.

For all other lines, the Company does not discount its reserves for unpaid losses and loss adjustment expenses.

**Note 29- Asbestos/Environmental Reserves**

The Company has exposure to asbestos and environmental claims. The Company's exposure arises from the Liberty Companies' sale of general liability insurance and the Inter-Company Reinsurance Agreement. The Company tries to estimate the full impact of the asbestos and environmental exposures by establishing case basis reserves on all known losses and computing incurred but not reported losses based on previous experience.

The process of establishing reserves for environmental and asbestos claims is subject to significant uncertainties. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure and unresolved legal issues regarding policy coverage. The legal issues concerning the interpretations of various insurance policy provisions and whether asbestos and environmental losses are or were ever intended to be covered are complex. Courts have reached different and sometimes inconsistent conclusions as to when the loss occurred and what policies provide coverage; whether there is an insured obligation to defend; how policy limits are determined; how policy exclusions are applied and interpreted; and whether clean-up costs are covered as insured property damage.

The Company has historically maintained excess of loss reinsurance protection against large or unusual casualty losses. In specific instances and at its discretion based on an analysis of the claims at issue, the Company records reinsurance recoveries for those known claims which are clearly subject to reinsurance. However, the extent of future potential recoveries under reinsurance agreements cannot be fully determined at this time.

Reserve changes on individual environmental matters reflect consideration of any newly acquired relevant information that may have an impact on reserve development. Given the complexities and significant uncertainties associated with estimating asbestos and environmental exposures, no assurances can be made as to the future potential impact of such claims upon the Company. As additional information develops which

**NOTES TO FINANCIAL STATEMENTS**

would dictate a reserve change, the Company's estimates of loss and loss expense associated with asbestos and environmental claims are adjusted accordingly.

The table below summarizes reserve and loss activity for the Company's environmental and asbestos loss and loss adjustment expense for each of the five most recent calendar years:

## **SCHEDULE P INTERROGATORIES**

1. What is the extended loss and expense reserve - direct and assumed - for the following classes? An example of an extended loss and expense reserve is the actuarial reserve for the free-tail coverage arising upon death, disability or retirement in most medical malpractice policies. Such a liability is to be reported here even if it was not reported elsewhere in Schedule P, but otherwise reported as a liability item on Page 3. Show the full reserve amount, not just the change during the current year.

Years in which premiums were earned and losses were incurred		1 Medical Malpractice	2 Other Liability	3 Products Liability
1.01	Prior			
1.02	1992			
1.03	1993			
1.04	1994			
1.05	1995			
1.06	1996			
1.07	1997			
1.08	1998			
1.09	1999			
1.10	2000			
1.11	2001			
1.12	Totals			

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? Yes [ ] No [ X ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 8, below. Are they so reported in this Statement? Yes [ ] No [ X ]

4. Do any lines in Schedule P include reserves which are reported gross of any discount to present value of future payments, but are reported net of such discounts on Page 11? Yes [ ] No [ X ]

If Yes, proper reporting must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33.

Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.
