

Management's Discussion & Analysis of Financial Condition and Results of Operations

Quarter Ended June 30, 2018

Management's Discussion & Analysis of Financial Condition and Results of Operations

The following discussion highlights significant factors influencing results of operations and changes in financial position of Liberty Mutual Holding Company Inc., the parent corporation of the Liberty Mutual Insurance group of entities (the "Company" or "LMHC"), for the three and six months ended June 30, 2018 and 2017. This Management's Discussion & Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Company's December 31, 2017 Audited Consolidated Financial Statements and June 30, 2018 Unaudited Consolidated Financial Statements on the Company's Investor located www.libertymutualgroup.com/investors. The Company's discussions related to net income are presented in conformity with U.S. generally accepted accounting principles ("GAAP") on an after-tax basis. All other discussions are presented on a pre-tax GAAP basis, unless otherwise noted. Further, the Company notes that it may make material information regarding the Company available to the public, from time to time, via the Company's Investor Relations website at www.libertymutualgroup.com/investors (or any successor site).

Cautionary Statement Regarding Forward Looking Statements

This report contains forward looking statements that are intended to enhance the reader's ability to assess the Company's future financial and business performance. Forward looking statements include, but are not limited to, statements that represent the Company's beliefs concerning future operations, strategies, financial results or other developments, and contain words and phrases such as "may," "expects," "should," "believes," "anticipates," "estimates," "intends" or similar expressions. Because these forward looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond the Company's control or are subject to change, actual results could be materially different.

Some of the factors that could cause actual results to differ include, but are not limited to the following: the occurrence of catastrophic events (including terrorist acts, hurricanes, hail, tornados, tsunamis, earthquakes, floods, snowfall and winter conditions); inadequacy of loss reserves; adverse developments involving asbestos, environmental or toxic tort claims and litigation; adverse developments in the cost, availability or ability to collect reinsurance; disruptions to the Company's relationships with its independent agents and brokers; financial disruption or a prolonged economic downturn; the performance of the Company's investment portfolios; a rise in interest rates; risks inherent in the Company's alternative investments in private limited partnerships ("LP"), limited liability companies ("LLC"), commercial mortgages and natural resource working interests; difficulty in valuing certain of the Company's investments; subjectivity in the determination of the amount of impairments taken on the Company's investments; unfavorable outcomes from litigation and other legal proceedings, including the effects of emerging claim and coverage issues and investigations by state and federal authorities; the Company's exposure to credit risk in certain of its business operations; the Company's inability to obtain price increases or maintain market share due to competition or otherwise; inadequacy of the Company's pricing models; changes to insurance laws and regulations; changes in the amount of statutory capital that the Company must hold to maintain its financial strength and credit ratings; regulatory restrictions on the Company's ability to change its methods of marketing and underwriting in certain areas; assessments for guaranty funds and mandatory pooling arrangements; a downgrade in the Company's claims-paying and financial strength ratings; the ability of the Company's subsidiaries to pay dividends to the Company; inflation, including inflation in medical costs and automobile and home repair costs; the cyclicality of the property and casualty insurance industry; political, legal, operational and other risks faced by the Company's international business; potentially high severity losses involving the Company's surety products; loss or significant restriction on the Company's ability to use credit scoring in the pricing and underwriting of personal lines policies; inadequacy of the Company's controls to ensure compliance with legal and regulatory standards; changes in federal or state tax laws; risks arising out of the Company's securities lending program; the Company's utilization of information technology systems and its implementation of technology innovations; difficulties with technology or data security; insufficiency of the Company's business continuity plan in the event of a disaster; the Company's ability to successfully integrate operations, personnel and technology from its acquisitions; insufficiency of the Company's enterprise risk management models and modeling techniques; and changing climate conditions. The Company's forward looking statements speak only as of the date of this report or as of the date they are made and should be regarded solely as the Company's current plans, estimates and beliefs. For a detailed discussion of these and other cautionary statements, visit the Company's Investor Relations website at www.libertymutualgroup.com/investors. The Company undertakes no obligation to update these forward looking statements.

EXECUTIVE SUMMARY

The following highlights do not address all of the matters covered in the other sections of Management's Discussion & Analysis of Financial Condition and Results of Operations or contain all of the information that may be important to the investing public. This summary should be read in conjunction with the other sections of Management's Discussion & Analysis of Financial Condition and Results of Operations and the Company's 2018 Unaudited Consolidated Financial Statements.

	Three Months Ended June 30,			Six Months Ended June 30,		
	2018 Change (Points)			2018	2017	Change (Points)
Combined ratio before catastrophes ¹ , net incurred losses attributable to prior years ² , and current accident year re-						
estimation ³	92.3%	93.6%	(1.3)	93.7%	94.1%	(0.4)
Combined ratio ⁴	97.9%	102.8%	(4.9)	98.5%	102.4%	(3.9)

- Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.
- 2 Net incurred losses attributable to prior years is defined as incurred losses attributable to prior years (including prior year losses related to catastrophes and prior year catastrophe reinstatement premium) including earned premium attributable to prior years.
- Re-estimation of the current accident year loss reserves for the three months ended March 31, 2017.
- The combined ratio, expressed as a percentage, is a measure of underwriting profitability. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company's competitors. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company's involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and Ironshore acquisition and integration costs are not included in the combined ratio

Subsequent Events

Management has assessed material subsequent events through August 9, 2018, the date the financial statements were available to be issued.

CONSOLIDATED RESULTS OF OPERATIONS

The Company has identified consolidated PTOI, and PTOI before partnerships, LLC and other equity method income as non-GAAP financial measures. PTOI is defined by the Company as pre-tax income excluding net realized gains, loss on extinguishment of debt, extraordinary items, discontinued operations, integration, other acquisition and restructuring related costs and cumulative effects of changes in accounting principles. PTOI before partnerships, LLC and other equity method income is defined as PTOI excluding LP and LLC results recognized on the equity method and revenue and expenses from the production and sale of oil and gas. PTOI before partnerships, LLC and other equity method income and PTOI are considered by the Company to be appropriate indicators of underwriting and operating results and are consistent with the way the Company internally evaluates performance. Net realized gains and partnerships, LLC and other equity method investment results are significantly impacted by both discretionary and economic factors and are not necessarily indicative of operating results, and the timing and amount of integration, other acquisition and restructuring related costs and the extinguishment of debt are not connected to the management of the insurance and underwriting aspects of the Company's business. Income taxes are significantly impacted by permanent differences. References to NWP represent the amount of premium recorded for policies issued during a fiscal period including audits, retrospectively rated premium related to loss sensitive policies, and assumed premium, less ceded premium. Assumed and ceded reinsurance premiums include premium adjustments for reinstatement of coverage when a loss has used some portion of the reinsurance provided, generally under catastrophe treaties ("reinstatement premium"), and changes in estimated premium. In addition, the majority of workers compensation premium is adjusted to the "booked as billed" method through the Corporate and Other segment. The Company believes that NWP is a performance measure useful to investors as it generally reflects current trends in the Company's sale of its insurance products.

The Company's discussions related to net income are presented on an after-tax GAAP basis. All other discussions are presented on a pre-tax GAAP basis, unless otherwise noted.

Property and casualty operations' investment income is allocated to the businesses based on planned ordinary investment income returns by investment category. Effective in 2017, the amount allocated to the businesses was updated to better reflect the current yield environment. The difference between allocated net investment income and actual net investment income is included in Corporate and Other.

On May 3, 2018, the Company's Spanish subsidiary, Liberty Seguros Compania de Seguros y Reaseguros S.A., completed the sale of its entire 99.44% interest in its Turkish insurance affiliate, Liberty Sigorta A.S., to Talanx International.

On May 1, 2018, the Company completed the sale of Liberty Life Assurance Company ("LLAC"), which provides group disability, group life, individual life and annuity products, to Lincoln Financial Group. The results of LLAC are presented as discontinued operations in the accompanying Consolidated Statements of Income and are no longer included within Liberty Mutual Benefits (formerly in Commercial Insurance) or within Corporate and Other. The prior periods have been restated to reflect this change.

On January 19, 2018, the Company announced the realignment of its businesses to enhance its ability to meet the changing needs of consumer and business customers. The Company's realignment featured the following changes:

- Global Risk Solutions brings together Liberty's Global Specialty, Ironshore (formerly in Global Specialty), National Insurance (formerly in Commercial Insurance) and the Global Reinsurance Strategy Group (formerly in Corporate and Other) into a single business. Dennis J. Langwell, formerly the Company's Chief Financial Officer, has been appointed to lead Global Risk Solutions.
- Global Retail Markets combines Global Consumer Markets with Business Insurance and Accident and Health
 organizations (both formerly in Commercial Insurance). Timothy Sweeney, formerly the President of Global
 Consumer Markets, has been appointed to lead Global Retail Markets.
- Christopher L. Peirce, formerly the President of Global Specialty, has been appointed Liberty's Chief Financial Officer.

On December 22, 2017, the U.S. enacted the Tax Cuts and Jobs Act of 2017 (the "Act"). The Act reduces the U.S. Federal corporate income tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings

of certain foreign subsidiaries that were previously tax deferred and creates new taxes on certain foreign-sourced earnings. More details can be found in "Critical Accounting Estimates" under "Deferred Income Taxes".

On May 1, 2017, the Company acquired Ironshore for approximately \$2.9 billion. Transaction related costs primarily consist of non-recurring banking, legal, tax, and accounting expenses. These expenses and integration related costs are reflected on the Consolidated Statements of Income separately. Concurrent with the acquisition, the Company combined its existing Liberty International Underwriters' U.S. business and Ironshore's U.S. specialty lines business under the Ironshore brand. Effective May 1, 2017, the Company also entered into a reinsurance transaction with National Indemnity Company ("NICO"), a subsidiary of Berkshire Hathaway Inc., on a combined aggregate excess of loss agreement providing coverage for substantially all of Ironshore's reserves ("Ironshore Reinsurance"). On May 2, 2017, Ironshore exercised its option to redeem in full its outstanding \$250 million Ironshore Holdings (US) Inc. 8.5% Senior Notes maturing in 2020 in accordance with the contractual make whole provisions.

On April 17, 2017, the Company completed the acquisition of TRU Services, LLC, specializing in providing medical stop loss products to mid and large-size medical plan sponsors. The transaction is not material to the Company.

On March 27, 2017, Liberty Mutual Finance Europe DAC ("LMFE") issued €00 million par value of Senior Notes due 2024 (the "2024 Notes"). Interest is payable annually at a fixed rate of 1.75%. The 2024 Notes mature on March 27, 2024.

On February 27, 2017, the United Kingdom's Ministry of Justice announced a reduction in the discount rate utilized for certain lump sum personal injury compensation claims from 2.5% to (.75%) effective March 20, 2017. The Company's reserve estimation process provided for the impact of a range of events such as this.

On January 5, 2017, the Company completed the sale of its 10 St. James and 75 Arlington properties. The Company has entered into a sale lease back agreement for such properties with a term of 15 years and resulting in a net lease obligation of \$258 million. The sale resulted in a gain of \$297 million, of which \$188 million was deferred over the terms of the lease and \$109 million was recognized in the Consolidated Statements of Income.

The Company's two businesses are as follows:

- Global Retail Markets combines the Company's local expertise in growth markets outside the U.S. with strong and scalable U.S. capabilities in order to take advantage of opportunities to grow its business globally. Global Retail Markets is organized into the following three market segments: U.S., West, and East.
- Global Risk Solutions offers a wide array of property, casualty, specialty and reinsurance coverage
 distributed through brokers and independent agents globally. Global Risk Solutions is organized into the
 following four market segments: Liberty Specialty Markets, National Insurance, North America Specialty,
 and Global Surety.

Overview - Consolidated

Consolidated NWP by significant line of business was as follows:

	Three Months Ended June 30,			Six	Months End June 30,		
\$ in Millions	2018	2017	Change	2018	2017	Change	
Private passenger automobile	\$3,517	\$3,386	3.9%	\$7,008	\$6,702	4.6%	
Homeowners	1,793	1,697	5.7	3,165	3,070	3.1	
Global Risk Solutions specialty							
insurance ¹	1,195	960	24.5	2,176	1,495	45.6

Global Risk Solutions inland marine	127	137	(7.3)	269	268	0.4	
Corporate reinsurance ²	(32)	(52)	(38.5)	(168)	(75)	124.0	
Other ³	408	378	7.9	792	730	8.5	
Total NWP	\$10,071	\$9,386	7.3%	\$19,505	\$18,074	7.9%	

Specialty insurance is reported within Global Risk Solutions and includes marine, energy, construction, aviation, property, casualty, warranty and indemnity, excess casualty, directors and officers, errors and omissions, environmental impairment liability, railroad, trade credit, excess and surplus property, crisis management, contingent lines and other.

NWP for the three months ended June 30, 2018 was \$10.071 billion, an increase of \$685 million over the same period in 2017.

Significant changes by major line of business for the three months ended June 30, 2018 include:

- Private passenger automobile NWP increased \$131 million. The increase reflects increased rate to keep pace
 with U.S. industry loss cost trends, organic growth and higher retention in Global Retail Markets' East and
 West market segments, and favorable foreign exchange due to the U.S. dollar fluctuating versus multiple
 currencies as compared to average rates in 2017.
- Homeowners' NWP increased \$96 million. The increase reflects rate increases within Global Retail Markets' U.S. market segment.
- Global Risk Solutions specialty insurance increased \$235 million. The increase reflects the Ironshore
 acquisition (completed in May 2017), new business growth and favorable rate increases, and favorable
 foreign exchange due to the U.S. dollar weakening versus the euro and British pound as compared to the
 average rates in 2017. These increases are partially offset by additional reinsurance purchased.
- Global Risk Solutions reinsurance NWP increased \$168 million. The increase reflects new business growth, favorable rate increases and favorable foreign exchange due to the U.S. dollar weakening versus the euro and British pound as compared to the average rates in 2017.

NWP for the six months ended June 30, 2018 was \$19.505 billion, an increase of \$1.431 billion over the same period in 2017.

Significant changes by major line of business for the six months ended June 30, 2018 include:

 Private passenger automobile NWP increased \$306 million. The increase reflects increased rate to keep pace with U.S. industry loss cost trends, organic growth and higher retention in Global Retail Markets' East and

² NWP associated with internal reinsurance assumed into Corporate, net of corporate external placements.

³ Primarily includes NWP from allied lines, domestic inland marine, and life and health reported within Global Retail Markets.

West market segments, and favorable foreign exchange primarily due to the U.S. dollar weakening versus the euro partially offset by the U.S. dollar strengthening versus the Brazilian real as compared to the average rates in 2017.

- Homeowners' NWP increased \$95 million. The increase reflects rate increases and favorable retention within Global Retail Markets' U.S. market segment.
- Global Risk Solutions specialty insurance increased \$681 million. The increase reflects the Ironshore acquisition, new business growth and favorable rate increases, and favorable foreign exchange due to the U.S. dollar weakening versus the euro and British pound as compared to the average rates in 2017. These increases are partially offset by additional reinsurance purchased.
- Global Risk Solutions reinsurance NWP increased \$266 million. The increase reflects new business growth, favorable rate increases and favorable foreign exchange due to the U.S. dollar weakening versus the euro and British pound as compared to the average rates in 2017.
- Corporate reinsurance NWP decreased \$93 million. The decrease reflects the net impact of increased property catastrophe reinsurance costs and an accounting change to book ceded written premium for excess of loss contracts at inception of the contract.

More detailed explanations of the changes in NWP by line of business are included in the related discussion of financial results for each segment.

Consolidated NWP by business was as follows:

¹ Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.

Asbestos and environmental is gross of the related adverse development reinsurance (the "NICO Reinsurance Transaction"), and All other includes all cessions related to the NICO Reinsurance Transaction, which is described further in "Reinsurance".

³ Net of earned premium and reinstatement premium attributable to prior years of \$3 million and \$5 million for the three and six months ended June 30, 2018, and (\$13) million and (\$10) million for the same periods in 2017.

⁴ Re-estimation of the current accident year loss reserves for the three months ended March 31, 2017.

Partnerships, LLC and other equity method income includes LP, LLC and other equity method income within net investment income in the accompanying Consolidated Statements of Income and revenue and expenses from the production and sale of oil and gas.

Second Quarter Results:

PTOI before partnerships, LLC and other equity method income for the three months ended June 30, 2018 was \$471 million, an increase of \$452 million over the same period in 2017. The increase reflects lower catastrophe losses, the profit margin on growth in earned premium, current accident year re-estimation which did not recur in 2018 across Global Retail Markets and Global Risk Solutions, and favorable current year non-catastrophe loss activity in Global Risk Solutions. These increases were partially offset by the impact of higher current accident year commercial lines liability losses in Global Retail Markets and Global Risk Solutions, the impact of increased property catastrophe reinsurance costs and higher employee benefits expenses in Corporate, and unfavorable personal property losses in Global Retail Markets.

Partnerships, LLC and other equity method income, including operating income from direct working interests, for the three months ended June 30, 2018 was \$291 million, an increase of \$185 million over the same period in 2017. The increase reflects more favorable valuations in energy, metals and mining and other private equity LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects more favorable net operating income from direct investments in oil and gas in 2018 as compared to the same period in 2017.

Revenues for the three months ended June 30, 2018 were \$10.314 billion, an increase of \$761 million over the same period in 2017. The major components of revenues are net premium earned, net investment income, net realized (losses) gains, and fee and other revenues.

Net premium earned for the three months ended June 30, 2018 was \$9.398 billion, an increase of \$611 million over the same period in 2017. The increase primarily reflects the premium earned associated with the changes in NWP previously discussed and growth during the last six months of 2017.

Net investment income for the three months ended June 30, 2018 was \$724 million, an increase of \$187 million over the same period in 2017. The increase reflects more favorable valuations in energy, metals and mining and other private equity LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects a higher invested asset base primarily driven by the extraordinary dividend related to the sale of LLAC.

Net realized (losses) gains for the three months ended June 30, 2018 were (\$59) million versus \$18 million for the same period in 2017. The net realized losses in the current quarter were driven by net losses on fixed maturity sales and impairments on corporate real estate and direct investments in oil and gas wells. The prior period reflects net equity gains realized from sales due to portfolio repositioning in 2017 that did not recur in 2018 and impairments on natural resource investments.

Fee and other revenues for the three months ended June 30, 2018 were \$251 million, an increase of \$40 million over the same period in 2017. The increase reflects higher oil and gas revenues as a result of increased prices and production.

Claims, benefits and expenses for the three months ended June 30, 2018 were \$9.611 billion, an increase of \$201 million over the same period in 2017. The increase reflects attritional losses due to business growth, the Ironshore acquisition, the impact of higher current accident year commercial lines liability losses in Global Retail Markets and Global Risk Solutions, higher employee benefits expenses in Corporate, and unfavorable personal property losses in Global Retail Markets. These increases were partially offset by lower catastrophe losses across Global Retail Markets and Global Risk Solutions and favorable current year non-catastrophe loss activity in Global Risk Solutions.

Income tax expense on continuing operations for the three months ended June 30, 2018 was \$153 million, an increase of \$111 million over the same period in 2017. The Company's effective tax rate on continuing operations for the three months ended June 30, 2018 was 23%, compared to 36% for the same period in 2017. The decrease in the effective tax rate on continuing operations from 2017 to 2018 was primarily driven by the reduction of the U.S. Federal corporate income tax rate. The Company's effective tax rate on continuing operations differs from the U.S. Federal statutory rate of 21% primarily due to the impact of non-U.S. operations partially offset by tax-exempt investment income.

Discontinued operations, net of tax, for the three months ended June 30, 2018 were \$471 million, an increase of \$419 million over the same period in 2017. This was driven by the net gain recognized on the sale of LLAC.

Net income attributable to LMHC for the three months ended June 30, 2018 was \$981 million, an increase of \$855 million over the same period in 2017.

Cash flow provided by continuing operations for the three months ended June 30, 2018 was \$1.120 billion, an increase of \$136 million over the same period in 2017. The increase reflects higher premium collections and favorable catastrophe payments in Global Retail Markets, partially offset by lower premium collections and unfavorable catastrophe payments in Global Risk Solution, and increased property catastrophe reinsurance costs.

Year-to-date Results:

PTOI before partnerships, LLC and other equity method income for the six months ended June 30, 2018 was \$864 million, an increase of \$744 million over the same period in 2017. The increase reflects lower catastrophe losses and the profit margin on growth in earned premium in Global Retail Markets and Global Risk Solutions, auto strengthening that did not recur in 2018 and favorable losses in U.S. auto physical damage in Global Retail Markets, and favorable current year non-catastrophe loss activity and the Ironshore acquisition in Global Risk Solutions. These increases were partially offset by the impact of higher current accident year commercial lines liability losses in Global Retail Markets and Global Risk Solutions, the impact of increased property catastrophe reinsurance costs and higher employee benefits expenses in Corporate, and unfavorable personal property losses in Global Retail Markets.

Partnerships, LLC and other equity method income, including operating income from direct working interests, for the six months ended June 30, 2018 was \$507 million, an increase of \$241 million over the same period in 2017. The increase reflects more favorable valuations and distributions in energy, metals and mining and other private equity,

LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects more favorable net operating income from direct investments in oil and gas in 2018 as compared to the same period in 2017.

Revenues for the six months ended June 30, 2018 were \$20.604 billion, an increase of \$1.790 billion over the same period in 2017. The major components of revenues are net premium earned, net investment income, net realized gains, and fee and other revenues.

Net premium earned for the six months ended June 30, 2018 was \$18.648 billion, an increase of \$1.514 billion over the same period in 2017. The increase primarily reflects the premium earned associated with the changes in NWP previously discussed and growth during the last six months of 2017.

Net investment income for the six months ended June 30, 2018 was \$1.343 billion, an increase of \$230 million over the same period in 2017. The increase reflects more favorable valuations and distributions in energy, metals and mining and other private equity, LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects a higher invested asset base primarily driven by the extraordinary dividend related to the sale of LLAC.

Net realized gains for the six months ended June 30, 2018 were \$96 million, a decrease of \$73 million from the same period in 2017. The net realized gains in the current year were primarily driven by a \$162 million gain as a result of the acquisition of a previously held equity method investment, partially offset by net losses in fixed maturity sales and impairments on corporate real estate and direct investments in oil and gas wells. The gains in the prior period included a \$109 million gain on the sale of company-owned real estate and gains realized from fixed maturity and equity security sales due to portfolio repositioning in 2017, partially offset by impairments on natural resource investments.

Fee and other revenues for the six months ended June 30, 2018 were \$517 million, an increase of \$119 million over the same period in 2017. The increase reflects higher oil and gas revenues as a result of increased prices and production.

Claims, benefits and expenses for the six months ended June 30, 2018 were \$19.137 billion, an increase of \$878 million over the same period in 2017. The increase reflects the Ironshore acquisition, attritional losses due to business growth, the impact of higher current accident year commercial lines liability losses in Global Retail Markets and Global Risk Solutions, unfavorable personal property losses in Global Retail Markets, and higher employee benefits expenses in Corporate. These increases were partially offset by lower catastrophe losses across Global Retail Markets and Global Risk Solutions, auto strengthening that did not recur in 2018 and favorable losses in U.S. auto physical damage in Global Retail Markets, and favorable current year non-catastrophe loss activity in Global Risk Solutions.

Income tax expense on continuing operations for the six months ended June 30, 2018 was \$310 million, an increase of \$161 million over the same period in 2017. The Company's effective tax rate on continuing operations for the six months ended June 30, 2018 was 22%, compared to 29% for the same period in 2017. The decrease in the effective tax rate on continuing operations from 2017 to 2018 was primarily driven by the reduction of the U.S. Federal corporate income tax rate. The Company's effective tax rate on continuing operations differs from the U.S. Federal statutory rate of 21% primarily due to the impact of non-U.S. operations partially offset by tax-exempt investment income.

Discontinued operations, net of tax, for the six months ended June 30, 2018 were \$530 million, an increase of \$421 million over the same period in 2017. This was driven by the net gain recognized on the sale of LLAC.

Net income attributable to LMHC for the six months ended June 30, 2018 was \$1.629 billion, an increase of \$1.152 billion over the same period in 2017.

Cash flow provided by continuing operations for the six months ended June 30, 2018 was \$1.156 billion, an increase of \$425 million over the same period in 2017. The increase reflects higher premium collections and favorable catastrophe payments in Global Retail Markets, as well as pension funding in 2017 that did not recur. These increases were partially offset by loss payments related to the Ironshore acquisition, and increased property catastrophe reinsurance costs.

	Thr	ee Months En June 30,	ıded	Six Months Ended June 30,		
CONSOLIDATED	2018	2017	Change (Points)	2018	2017	Change (Points)
Combined ratio before catastrophes, net incurred losses attributable to prior years and current accident year re-estimation						
Claims and claim adjustment expense ratio	62.8%	63.6%	(0.8)	63.8%	64.0%	(0.2)
Underwriting expense ratio	29.5	30.0	(0.5)	29.9	30.1	(0.2)
Subtotal	92.3	93.6	(1.3)	93.7	94.1	(0.4)

- Asbestos and environmental	-	0.2	(0.2)	0.1	0.1	-
- All other ²	0.1	0.4	(0.3)	0.1	0.3	(0.2)
Current accident year re-estimation ³	-	0.5	(0.5)	-	-	-
Total combined ratio ⁴	97.9%	102.8%	(4.9)	98.5%	102.4%	(3.9)

- Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.
- 2 Net of earned premium and reinstatement premium attributable to prior years.
- 3 Re-estimation of the current accident year loss reserves for the three months ended March 31, 2017.
- The combined ratio, expressed as a percentage, is a measure of underwriting profitability. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company's competitors. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company's involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and Ironshore acquisition and integration costs are not included in the combined ratio.

Second Quarter Results:

The consolidated combined ratio before catastrophes, net incurred losses attributable to prior years and current accident year re-estimation for the three months ended June 30, 2018 was 92.3%, a decrease of 1.3 points from the same period in 2017. The decrease in the claims and claim adjustment expense ratio reflects the impact of lower current year non-catastrophe loss activity in Global Risk Solutions, partially offset by the impact of higher current accident year commercial lines liability losses in National Insurance. The decrease in the underwriting expense ratio reflects the growth in earned premium in Global Retail Markets and Global Risk Solutions, partially offset by higher employee benefits expenses in Corporate.

Including the impact of catastrophes, net incurred losses attributable to prior years and current accident year reestimation, the total combined ratio for the three months ended June 30, 2018 was 97.9%, a decrease of 4.9 points from the same period in 2017. The decrease primarily reflects lower catastrophe losses, current accident year reestimation which did not recur in 2018, lower net incurred losses attributable to prior years in Global Risk Solutions and the decreases in the combined ratio previously discussed.

Year-to-date Results:

The consolidated combined ratio before catastrophes and net incurred losses attributable to prior years for the six months ended June 30, 2018 was 93.7%, a decrease of 0.4 points from the same period in 2017. The decrease in the claims and claim adjustment expense ratio reflects growth in earned premium, auto strengthening that did not recur in 2018, favorable losses in U.S. auto physical damage and the impact of lower current year non-catastrophe loss activity

in Global Risk Solutions, partially offset by unfavorable personal property losses in Global Retail Markets, and the impact of higher current accident year commercial lines liability losses in National Insurance. The decrease in the underwriting expense ratio reflects growth in earned premium in Global Retail Markets and Global Risk Solutions, partially offset by higher employee benefits expenses in Corporate.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the six months ended June 30, 2018 was 98.5%, a decrease of 3.9 points from the same period in 2017. The decrease reflects lower catastrophe losses, lower net incurred losses attributable to prior years in Global Risk Solutions and decreases in the combined ratio previously discussed.

GLOBAL RETAIL MARKETS

Overview - Global Retail Markets

In January 2018, the Company announced the realignment of its businesses to enhance its ability to meet the changing needs of consumer and business customers. Global Consumer Markets, comprises U.S. Consumer Markets and East | West Consumer Markets, combined with the Business Insurance and Accident and Health organizations (both formerly in Commercial Insurance) to form Global Retail Markets. Global Retail Markets combines the Company's local expertise in growth markets outside the U.S. with strong and scalable U.S. capabilities in order to take advantage of opportunities to grow its business globally. Global Retail Markets comprises three market segments: U.S., West, and East.

U.S. consists of Personal Lines (formerly U.S. Consumer Markets) and Business Lines (formerly Business Insurance). U.S. Personal Lines sells automobile, homeowners and other types of property and casualty insurance coverage to individuals in the United States. These products are distributed through approximately 2,000 licensed employee sales representatives, approximately 800 licensed telesales counselors, independent agents, third-party producers, the Internet, and sponsored affinity groups, which are a significant source of new business. U.S. Business Lines serves small commercial customers through an operating model that combines local underwriting, market knowledge and service with the scale advantages of a national company.

West sells property and casualty, health and life insurance products and services to individuals and businesses in Brazil, Colombia, Chile, Ecuador, Spain, Portugal, and Ireland. Private passenger automobile insurance is the single largest line of business.

East sells property and casualty, health and life insurance products and services to individuals and businesses in Thailand, Singapore, Hong Kong, Vietnam, Malaysia, India, China, and Russia. Private passenger automobile insurance is the single largest line of business.

On May 3, 2018, the Company's Spanish subsidiary, Liberty Seguros Compania de Seguros y Reaseguros S.A., completed the sale of its entire 99.44% interest in its Turkish insurance affiliate, Liberty Sigorta A.S., to Talanx International.

Premium related to other personal and commercial lines including personal accident, bonds, small and medium enterprise, and marine and cargo lines of business.

Second Quarter Results:

NWP for the three months ended June 30, 2018 was \$7.161 billion, an increase of \$313 million over the same period in 2017. The growth was primarily driven by an increase in private passenger automobile in all segments. The growth in U.S. private passenger automobile reflects growth in average written premiums due to increased rate to keep pace with industry loss cost trends. The growth in East and West private passenger automobile was driven by several countries, most notably Brazil due to increased new business and higher retention. The increase was further driven by U.S. homeowners due to an increase in average written premiums from increased rate, commercial property in Chile, and favorable foreign exchange due to the U.S. dollar fluctuating versus multiple currencies as compared to average rates in 2017.

Year-to-date Results:

NWP for the six months ended June 30, 2018 was \$13.783 billion, an increase of \$636 million over the same period in 2017. The growth was primarily driven by an increase in private passenger automobile in all segments. The growth in U.S. private passenger automobile reflects growth in average written premiums due to increased rate to keep pace with industry loss cost trends. The growth in East and West private passenger automobile was driven by several countries, most notably Brazil due to increased new business and higher retention. The increase was further driven by U.S. homeowners due to an increase in average written premiums from increased rate and favorable retention, commercial property in Chile, and favorable foreign exchange primarily due to the U.S. dollar weakening versus the euro partially offset by the U.S. dollar strengthening versus the Brazilian real as compared to the average rates in 2017.

Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.

Second Quarter Results:

PTOI for the three months ended June 30, 2018 was \$326 million, an increase of \$290 million over the same period in 2017. The increase was driven by a decrease in catastrophe losses due to lower severity and fewer events compared to the same period in 2017, profit margin on growth in earned premium due to strong topline results, and current accident year re-estimation and auto strengthening that did not recur in 2018. This was partially offset by personal property losses and the impact of higher current accident year commercial lines liability losses in the U.S.

Revenues for the three months ended June 30, 2018 were \$7.053 billion, an increase of \$335 million over the same period in 2017. The increase reflects the premium earned associated with the changes in NWP previously discussed and growth during the last six months of 2017.

Claims, benefits and expenses for the three months ended June 30, 2018 were \$6.726 billion, an increase of \$43 million over the same period in 2017. The increase was driven primarily by higher current accident year non-catastrophe losses in all segments driven by attritional losses from growth, partially offset by decreased catastrophe losses due to lower severity and fewer events.

Year-to-date Results:

PTOI for the six months ended June 30, 2018 was \$721 million, an increase of \$635 million over the same period in 2017. The increase was driven by a decrease in catastrophe losses due to lower severity and fewer events compared to the same period in 2017, profit margin on growth in earned premium due to strong topline results, auto strengthening that did not recur in 2018, and favorable losses in U.S. auto physical damage due to moderating frequency trends. These increases were partially offset by personal property losses from higher fire and water losses due to freezing temperatures and the impact of higher current accident year commercial lines liability losses in the U.S.

Revenues for the six months ended June 30, 2018 were \$14.001 billion, an increase of \$732 million over the same period in 2017. The increase reflects the premium earned associated with the changes in NWP previously discussed and growth during the last six months of 2017.

Claims, benefits and expenses for the six months ended June 30, 2018 were \$13.283 billion, an increase of \$99 million over the same period in 2017. The increase was driven primarily by higher current accident year non-catastrophe losses in all segments driven by attritional losses from growth, partially offset by decreased catastrophe losses due to lower severity and fewer events.

Re-estimation of the current accident year loss reserves for the three months ended March 31, 2017.

¹ Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.

Second Quarter Results:

The Global Retail Markets combined ratio before catastrophes, net incurred losses attributable to prior years and current accident year re-estimation for the three months ended June 30, 2018 was 90.3%, a decrease of 1.2 points from the same period in 2017. The decrease was primarily driven by a decrease in the underwriting expense ratio due to growth in earned premium.

Including the impact of catastrophes, net incurred losses attributable to prior years and current accident year reestimation, the total combined ratio for the three months ended June 30, 2018 was 97.7%, a decrease of 4.6 points from the same period in 2017. The decrease was driven by lower catastrophe losses due to lower severity and fewer events compared to the prior year, current accident year re-estimation which did not recur in 2018, and the changes in the underwriting expense ratio previously discussed.

Year-to-date Results:

The Global Retail Markets combined ratio before catastrophes and net incurred losses attributable to prior years for the six months ended June 30, 2018 was 91.2%, a decrease of 1.1 points from the same period in 2017. The decrease was driven by a decrease in the underwriting expense ratio, primarily due to earned premium growth, and the claims and claim adjustment expense ratio due to growth in earned premium, auto strengthening that did not recur in 2018, and favorable losses in U.S. auto physical damage due to moderating frequency trends, which was partially offset by unfavorable personal property losses.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the six months ended June 30, 2018 was 97.3%, a decrease of 4.9 points from the same period in 2017. The decrease was driven by lower catastrophe losses due to lower severity and fewer events as compared to the prior year and the changes in the underwriting and claims and claim adjustment expense ratios previously discussed.

² Re-estimation of the current accident year loss reserves for the three months ended March 31, 2017.

GLOBAL RISK SOLUTIONS

Overview - Global Risk Solutions

In January 2018, the Company announced the realignment of its businesses to enhance its ability to meet the changing needs of consumer and business customers. Global Risk Solutions brings together Global Specialty including Ironshore and National Insurance into a single business. Global Risk Solutions offers a wide array of property, casualty, specialty and reinsurance coverage distributed through brokers and independent agents globally. Admitted market commercial property and casualty annual premiums in excess of \$150K are included in Global Risk Solutions. The new segments for Global Risk Solutions are as follows:

- Liberty Specialty Markets Includes all business outside of North America.
- National Insurance Includes U.S. admitted property and casualty in excess of \$150K annual premium.
- North America Specialty Primarily includes specialty lines and non-admitted property and casualty.
- Global Surety Leading global provider of contract and commercial surety bonds to businesses of all sizes.
- Other Global Risk Solutions primarily consists of internal reinsurance programs across the Liberty Mutual enterprise.

Global Risk Solutions NWP by market segment was as follows:

	Three Months Ended June 30,			Six Months Ended June 30,		
\$ in Millions	2018	2017	Change	2018	2017	Change
Liberty Specialty Markets	\$1,138	\$899	26.6%	\$2,219	\$1,737	27.7%
National Insurance	859	925	(7.1)	1,757	1,856	(5.3)
North America Specialty	439	340	29.1	879	483	82.0
Global Surety	231	216	6.9	440	409	7.6
Other Global Risk Solutions	244	185	31.9	571	524	9.0
Total NWP	\$2,911	\$2,565	13.5%	\$5,866	\$5,009	17.1%
Foreign exchange effect on growth			1.1			1.7
NWP growth excluding foreign exchange ¹			12.4%			15.4%

Determined by assuming constant foreign exchange rates between periods.

Global Risk Solutions' major lines of business are as follows:

- (1) Specialty insurance: includes marine, energy, construction, aviation, property, casualty, warranty and indemnity, excess casualty, directors and officers, errors and omissions, environmental impairment liability, railroad, trade credit, excess and surplus property, crisis management, contingent lines and other;
- (2) Reinsurance: includes worldwide multi-line marine, property, casualty, specialty and internal reinsurance:
- (3) Surety: includes contract and commercial surety bonds;
- (4) Inland marine: handset protection coverage for lost or damaged wireless devices;
- (5) Workers compensation, general liability, commercial automobile, commercial property and commercial multiple-peril which encompasses the domestic National Insurance business.

Global Risk Solutions NWP by line of business was as follows:

	Thr	ree Months Ei June 30,	nded	Six Months Ended June 30,			
\$ in Millions	2018	2017	Change	2018	2017	Change	
Specialty insurance	\$1,195	\$960	24.5%	\$2,176	\$1,495	45.6%	
Reinsurance	578	410	41.0	1,402	1,136	23.4	
Workers compensation	306	317	(3.5)	670	689	(2.8)	
Surety	237	222	6.8	451	419	7.6

Commercial property	75	95	(21.1)	127	172	(26.2)	
Commercial multiple-peril	32	41	(22.0)	80	103	(22.3)	
Total NWP	\$2,911	\$2,565	13.5%	\$5,866	\$5,009	17.1%	

Second Quarter Results:

NWP for the three months ended June 30, 2018 was \$2.911 billion, an increase of \$346 million over the same period in 2017. The increase was driven by specialty insurance and reinsurance primarily due to the Ironshore acquisition (completed in May 2017), as well as growth primarily due to new business and favorable rate increases. National Insurance was favorably impacted by an increase in rate across most lines. These increases were partially offset by additional reinsurance purchased and lost business outpacing new business across most National Insurance liability lines due to underwriting actions in the middle market and an extremely competitive market, particularly for large accounts. Additionally, foreign exchange was favorable due to the weakening of the U.S. dollar versus the euro and British pound as compared to the average rates in 2017.

Year-to-date Results:

NWP for the six months ended June 30, 2018 was \$5.866 billion, an increase of \$857 million over the same period in 2017. The increase was driven by specialty insurance and reinsurance primarily due to the Ironshore acquisition as well as growth primarily due to new business and favorable rate increases. National Insurance was favorably impacted by an increase in rate across most lines. These increases were partially offset by additional reinsurance purchased, as well as in National Insurance with lost business outpacing new business across most lines due to underwriting actions in the middle market and an extremely competitive market, particularly for large accounts, and higher ceded premium within commercial property lines due to an increase in externally placed reinsurance. Additionally, foreign exchange was favorable due to the weakening of the U.S. dollar versus the euro and British pound as compared to the average rates in 2017.

Results of Operations - Global Risk Solutions

	Thr	ee Months Er June 30,	nded	Six Months Ended June 30,		
\$ in Millions	2018	2017	Change	2018	2017	Change
Revenues	\$3,016	\$2,677	12.7%	\$5,989	\$5,060	18.4%
PTOI before catastrophes, net incurred losses attributable to prior years and						
current accident year re-estimation	\$354	\$228	55.3%	\$602	\$463	30.0%
Catastrophes ¹	(30)	(64)	(53.1)	(58)	(110)	(47.3)

Current accident year re-estimation ³	-	(10)	(100.0)	-	-	-
PTOI	\$302	\$112	169.6%	\$525	\$314	67.2%

- 1 Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.
- 2 Net of earned premium and reinstatement premium attributable to priors years of \$3 million and \$5 million for the three and six months ended June 30, 2018, and (\$13) million and (\$10) million for the same periods in 2017.
- 3 Re-estimation of the current accident year commercial automobile loss reserves for the three months ended March 31, 2017.

Second Quarter Results:

PTOI for the three months ended June 30, 2018 was \$302 million, an increase of \$190 million over the same period in 2017. The increase reflects profit margin on growth in earned premium and lower current year catastrophe and non-catastrophe loss activity, partially offset by higher current accident year commercial lines liability losses in National Insurance. Additionally, PTOI was positively impacted by lower net incurred losses attributable to prior years as well as current accident year re-estimation within National Insurance in 2017 that did not recur.

Revenues for the three months ended June 30, 2018 were \$3.016 billion, an increase of \$339 million over the same period in 2017. The increase reflects premium earned associated with the changes in NWP previously discussed, as well as higher writings in prior years.

Claims, benefits and expenses for the three months ended June 30, 2018 were \$2.714 billion, an increase of \$149 million over the same period in 2017. The increase reflects the impact of the Ironshore acquisition, attritional losses from growth and higher current accident year commercial lines liability losses in National Insurance. This was partially offset by favorable current year catastrophe and non-catastrophe loss activity and lower incurred losses attributable to prior years. Additionally, claims, benefits and expenses were positively impacted by current accident year re-estimation within National Insurance in 2017 that did not recur.

Year-to-date Results:

PTOI for the six months ended June 30, 2018 was \$525 million, an increase of \$211 million over the same period in 2017. The increase reflects the impact of the Ironshore acquisition, profit margin on growth in earned premium and lower current year catastrophe and non-catastrophe loss activity, partially offset by higher current accident year commercial lines liability losses in National Insurance. Additionally, PTOI was positively impacted by lower net incurred losses attributable to prior years.

Revenues for the six months ended June 30, 2018 were \$5.989 billion, an increase of \$929 million over the same period in 2017. The increase reflects premium earned associated with the changes in NWP previously discussed, as well as higher writings in prior years.

Claims, benefits and expenses for the six months ended June 30, 2018 were \$5.464 billion, an increase of \$718 million over the same period in 2017. The increase reflects the impact of the Ironshore acquisition, attritional losses from growth and higher current accident year commercial lines liability losses in National Insurance. This was partially

offset by favorable current year catastrophe and non-catastrophe loss activity and lower incurred losses attributable to prior years.

¹ Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.

- 2 Net of earned premium and reinstatement premium attributable to prior years.
- 3 Re-estimation of the current accident year commercial automobile loss reserves for the three months ended March 31, 2017.

Second Quarter Results:

The Global Risk Solutions combined ratio before catastrophes, net incurred losses attributable to prior years and current accident year re-estimation for the three months ended June 30, 2018 was 95.0%, a decrease of 3.5 points from the same period in 2017. The decrease in the claims and claim adjustment expense ratio reflects favorable current year non-catastrophe loss activity, partially offset by higher current accident year commercial lines liability losses in National Insurance. The decrease in the underwriting expense ratio was primarily driven by higher earned premium.

Including the impact of catastrophes, net incurred losses attributable to prior years and current accident year reestimation, the total combined ratio for the three months ended June 30, 2018 was 96.7%, a decrease of 6.7 points from the same period in 2017. The decrease reflects the changes to the combined ratio mentioned above, lower catastrophe losses, lower net incurred losses attributable to prior years and current accident year re-estimation within National Insurance in 2017 that did not recur.

Year-to-date Results:

The Global Risk Solutions combined ratio before catastrophes and net incurred losses attributable to prior years for the six months ended June 30, 2018 was 96.9%, a decrease of 0.8 points from the same period in 2017. The decrease in the claims and claim adjustment expense ratio reflects favorable current year non-catastrophe loss activity, partially offset by higher current accident year commercial lines liability losses in National Insurance. The decrease in the underwriting expense ratio was driven by higher earned premium.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the six months ended June 30, 2018 was 98.2%, a decrease of 2.9 points from the same period in 2017. The decrease reflects the changes to the combined ratio mentioned above, lower catastrophe losses, and lower net incurred losses attributable to prior years.

CORPORATE AND OTHER

Overview - Corporate and Other

Corporate and Other includes the following significant items:

- Certain internal discontinued operations, which comprises: the run-off of certain commercial lines business, the run-off of the California workers compensation business of Golden Eagle Insurance Corporation and certain distribution channels related to Prudential Property and Casualty Insurance Company, Prudential General Insurance Company and Prudential Commercial Insurance Company (together, "PruPac") and Liberty Re annuity business.
- Cessions related to certain retroactive reinsurance agreements, including the NICO Reinsurance Transaction, which is described further in "Reinsurance".
- Effective January 1, 2015, Corporate began assuming certain pre-2014 voluntary and involuntary workers compensation claims from the businesses. The covered business materially aligns with the workers compensation business covered by the retroactive reinsurance agreement defined as the NICO Reinsurance Transaction, which is described further in "Reinsurance".
- Interest expense on the Company's outstanding debt.
- Certain risks of its businesses that the Company reinsures as part of its risk management program and risks on U.S. Consumer Markets homeowners business covered by externally ceded homeowners quota share reinsurance treaties.
- The Company reports its written premium on workers compensation contracts on the "booked as billed" method. The businesses report workers compensation written premium on the "booked at inception" method. Corporate and Other results reflect the difference between these two methods.
- The Company discounts the long-term indemnity portion of its settled unpaid workers compensation claims at risk-free discount rates. The businesses report their discount based on statutory discount rates. Corporate and Other results reflect the difference between the statutory and risk-free rate.
- Costs associated with certain long-term compensation plans and other corporate costs not fully allocated to the businesses.
- Property and casualty operations' investment income is allocated to the businesses based on planned ordinary
 investment income returns by investment category. The difference between allocated net investment income and
 actual net investment income is included in Corporate and Other.
- Investment-related realized gains (losses) and real estate impairments.
- Income related to LP, LLC and other equity method investments.
- Fee and other revenues include revenues from certain wholly owned non-insurance subsidiaries, primarily Liberty Energy. Liberty Energy generates revenue from the production and sale of oil and gas and related LP, LLC and other equity method investments.
- The results of LLAC presented as discontinued operations, including the net gain on the sale of LLAC.

Corporate and Other NWP by line of business was as follows:

	Thr	ee Months E June 30,	nded	Six Months Ended June 30,		
\$ in Millions	2018	2017	Change	2018	2017	Change
Reinsurance, net	(\$32)	(\$52)	(38.5%)	(\$168)	(\$75)	124.0%
Workers compensation ¹	30	27	11.1	30	(4)	NM
Other	1	(2)	NM	(6)	(3)	100.0
Total NWP	(\$1)	(\$27)	(96.3%)	(\$144)	(\$82)	75.6%

Booked as billed adjustment. NM = Not Meaningful

Second Quarter Results:

NWP for the three months ended June 30, 2018 was (\$1) million, an increase of \$26 million over the same period in 2017. The increase reflects an accounting change to book ceded written premium for excess of loss contracts at inception of the contract and higher assumed premium in the reinsurance line of business.

Year-to-date Results:

NWP for the six months ended June 30, 2018 was (\$144) million, a decrease of \$62 million from the same period in 2017. The decrease reflects the net impact of increased property catastrophe reinsurance costs and an accounting change to book ceded written premium for excess of loss contracts at inception of the contract, partially offset by the booked as billed adjustment (a decrease in direct NWP in the business results in a lower adjustment needed in Corporate when compared to prior year).

Catastrophes are defined as a natural catastrophe or terror event exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums.

² Asbestos and environmental is gross of the NICO Reinsurance Transaction, and All other includes all cessions related to the NICO Reinsurance Transaction, which is described further in "Reinsurance".

Net of earned premium attributable to prior years of zero for the three and six months ended June 30, 2018 and 2017.

⁴ Partnerships, LLC and other equity method income includes LP, LLC and other equity method income within net investment income in the accompanying Consolidated Statements of Income and revenue and expenses from the production and sale of oil and gas.

NM = Not Meaningful

Second Quarter Results:

Pre-tax operating income (loss) for the three months ended June 30, 2018 was \$134 million versus (\$23) million for the same period in 2017. The change reflects higher partnerships, LLC and other equity method income and higher net investment income excluding partnerships, LLC and other equity method investments, partially offset by lower profit margin within the reinsurance segment due to lower earned premium and higher employee benefits expenses.

Revenues for the three months ended June 30, 2018 were \$245 million, an increase of \$87 million over the same period in 2017. The major components of revenues are net premium earned, net investment income (including LP, LLC and other equity method investments), net realized (losses) gains, and fee and other revenues.

Net premium earned for the three months ended June 30, 2018 was (\$75) million, a decrease of \$33 million from the same period in 2017. The decrease reflects the net impact of increased property catastrophe reinsurance costs.

Net investment income for the three months ended June 30, 2018 was \$294 million, an increase of \$173 million over the same period in 2017. The increase reflects more favorable valuations in energy, metals and mining and other private equity LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects a higher invested asset base primarily driven by the extraordinary dividend related to the sale of LLAC.

Net realized (losses) gains for the three months ended June 30, 2018 were (\$60) million versus \$19 million for the same period in 2017. The net realized losses in the current quarter were driven by net losses on fixed maturity sales and impairments on corporate real estate and direct investments in oil and gas wells. The prior period reflects net equity gains realized from sales due to portfolio repositioning in 2017 that did not recur in 2018 and impairments on natural resource investments.

Fee and other revenues for the three months ended June 30, 2018 were \$86 million, an increase of \$26 million over the same period in 2017. The increase was primarily driven by higher oil and gas revenues as a result of increased prices and production.

Claims, benefits and expenses for the three months ended June 30, 2018 were \$171 million, an increase of \$9 million over the same period in 2017. The increase reflects higher depreciation, depletion and amortization expenses related to Liberty Energy and higher employee benefits expenses.

Year-to-date Results:

Pre-tax operating income (loss) for the six months ended June 30, 2018 was \$125 million versus (\$14) million for the same period in 2017. The change reflects higher partnerships, LLC and other equity method income, partially offset by lower profit margin within the reinsurance segment due to lower earned premium, and higher employee benefits expenses.

Revenues for the six months ended June 30, 2018 were \$614 million, an increase of \$129 million over the same period in 2017. The major components of revenues are net premium earned, net investment income (including LP, LLC and other equity method investments), net realized gains, and fee and other revenues.

Net premium earned for the six months ended June 30, 2018 was (\$161) million, a decrease of \$63 million from the same period in 2017. The decrease reflects the net impact of increased property catastrophe reinsurance costs.

Net investment income for the six months ended June 30, 2018 was \$485 million, an increase of \$183 million over the same period in 2017. The increase reflects more favorable valuations and distributions in energy, metals and mining and other private equity, LP, LLC and other equity method investments in 2018 as compared to the same period in 2017. The increase also reflects a higher invested asset base primarily driven by the extraordinary dividend related to the sale of LLAC.

Net realized gains for the six months ended June 30, 2018 were \$99 million, a decrease of \$71 million from the same period in 2017. The net realized gains in the current year were primarily driven by a \$162 million gain as a result of

the acquisition of a previously held equity method investment, partially offset by net losses in fixed maturity sales and impairments on corporate real estate and direct investments in oil and gas wells. The gains in the prior period included a \$109 million gain on the sale of company-owned real estate and gains realized from fixed maturity and equity security sales due to portfolio repositioning in 2017, partially offset by impairments on natural resource investments.

Fee and other revenues for the six months ended June 30, 2018 were \$191 million, an increase of \$80 million over the same period in 2017. The increase was primarily driven by higher oil and gas revenues as a result of increased prices and production.

Claims, benefits and expenses for the six months ended June 30, 2018 were \$390 million, an increase of \$61 million over the same period in 2017. The increase reflects higher depreciation, depletion and amortization expenses related to Liberty Energy and higher employee benefits expenses.

INVESTMENTS

General

The Company's investment strategy seeks long-term returns through disciplined security selection, portfolio diversity and an integrated approach to risk management. The Company selects and monitors investments to balance the goals of safety, stability, liquidity, growth and after-tax total return with its need to comply with regulatory investment requirements. A relatively safe and stable income stream is achieved by maintaining a broadly based portfolio of investment grade bonds. These holdings are supplemented by investments in additional asset types with the objective of further enhancing the portfolio's diversification and expected returns. These additional asset types include commercial mortgages and other real estate financing investments, non-investment grade bonds, including leveraged loans, common and preferred stock, private equity and direct investments in natural resource ventures. Risk management is accomplished through asset liability management (including both interest rate risk and foreign currency risk), diversification, credit limits and a careful analytical review of each investment decision.

The Company's investment policy and strategy are reviewed and approved by the Investment Committee of its Board of Directors, which meets on a regular basis to review and consider investment activities, tactics and new investment classes. In addition, the Company predominantly uses a subsidiary investment advisor for managing and administering the investment portfolios of its domestic and foreign insurance operations.

Invested Assets (including cash and cash equivalents)

The following table summarizes the Company's invested assets by asset category as of June 30, 2018 and December 31, 2017:

Invested Assets by Type	As of Jun	As of June 30, 2018		ber 31, 2017
	Carrying	% of	Carrying	% of
\$ in Millions	Value	Total	Value	Total
Fixed maturities, available for sale, at fair value	\$55,546	75.4%	\$54,040	76.4%
Equity securities, available for sale, at fair value ¹	3,245	4.4	2,608	3.7
LP, LLC and other equity method investments	5,567	7.6	6,223	8.8
Commercial mortgage loans	1,548	2.1	1,623	2.3
Short-term investments	437	0.6	494	0.7
Other investments	737	1.0	905	1.3
Cash and cash equivalents	6,557	8.9	4,827	6.8
Total invested assets	\$73,637	100.0%	\$70,720	100.0%

Included in Equity securities, available for sale, at fair value as of June 30, 2018 and December 31, 2017 were \$1.430 billion and \$1.217 billion of investments in bond ETFs, respectively.

Total invested assets as of June 30, 2018 were \$73.637 billion, an increase of \$2.917 billion or 4.1% over December 31, 2017. The increase was primarily related to an increase in fixed maturities and cash and cash equivalents, partially offset by a decrease in LP, LLC, and other equity method investments driven by the sale of certain LP investments in the secondary market.

Fixed maturities as of June 30, 2018 were \$55.546 billion, an increase of \$1.506 billion or 2.8% over December 31, 2017. The increase is primarily related to a portion of the proceeds from the sale of LLAC and assets transferred as part of a related extraordinary dividend, partially offset by the unfavorable impact of the increase in treasury rates and widening credit spreads. As of June 30, 2018, included in fixed maturities are commitments to purchase various residential mortgage-backed securities at a cost and fair value of \$206 million and \$207 million, respectively.

Equity securities as of June 30, 2018 were \$3.245 billion (\$3.188 billion common stock and \$57 million preferred stock) versus \$2.608 billion as of December 31, 2017 (\$2.556 billion common stock and \$52 million preferred stock), an increase of \$637 million or 24.4% over December 31, 2017. Of the \$3.188 billion of common stock at June 30,

2018, \$672 million relates to securities associated with non-guaranteed unit linked products where the policyholder bears the investment risk. The increase in total equity securities is primarily due to purchases of ETFs.

The following table summarizes the Company's LP, LLC and other equity method investments as of June 30, 2018 and December 31, 2017:

LP, LLC and other equity method investments	As of June 30, 2018		As of December 31, 2017	
	Carrying	% of	Carrying	% of
\$ in Millions	Value	Total	Value	Total
Traditional private equity	\$2,838	51.0%	\$3,422	55.0%
Natural resources – Energy	509	9.1	605	9.7
Natural resources – Other ¹	299	5.4	338	5.4
Real estate	904	16.2	915	14.7
Other	1,017	18.3	943	15.2
Total LP, LLC and other equity method investments	\$5,567	100.0%	\$6,223	100.0%

Included in Natural Resources – Other is \$190 million of investments in metals & mining and \$109 million of investments in agriculture and timber.

Commercial mortgage loans as of June 30, 2018 were \$1.548 billion (net of \$2 million of loan loss reserves or 0.13% of the outstanding loan portfolio), a decrease of \$75 million or 4.6% from December 31, 2017. The decrease is primarily driven by \$86 million in principal reductions, partially offset by \$10 million in funding and a decrease of \$1 million to the loan loss reserve. The entire commercial loan portfolio is U.S.-based. The number of loans in the portfolio decreased from 4,827 at December 31, 2017 to 4,610 at June 30, 2018.

Cash and cash equivalents as of June 30, 2018 were \$6.557 billion, an increase of \$1.730 billion or 35.8% over December 31, 2017. The increase in cash includes proceeds from the sales of LLAC and LP investments and cash from operations and financing.

The following tables summarize the Company's available for sale portfolio by security type as of June 30, 2018 and December 31, 2017:

	As of June 30, 2018

% of Total	87.7%	5.0%	1.3%	4.4%	0.4%	1.2%	100%	

For purposes of this disclosure, credit quality is primarily based upon average credit ratings.

Approximately 63% of the Company's mortgage and asset-backed fixed maturity portfolio is explicitly backed by the U.S. government (SBA and GNMA) or by government-sponsored entities (FNMA and FHLMC). Approximately 88% of the holdings are rated AAA. Included in the commercial mortgage-backed securities at June 30, 2018, were \$932 million in Agency CMBS and \$1.412 billion Non-agency CMBS. Included in the Other MBS and ABS at June 30, 2018 were \$1.387 billion AAA rated SBA Loans. The commercial mortgage-backed securities portfolio is well diversified and of high quality with approximately 93% rated AAA.

The following table summarizes the Company's U.S. state and municipal fixed maturity portfolio of securities which are obligations of states, municipalities and political subdivisions (collectively referred to as U.S. state and municipal bonds) by credit quality as of June 30, 2018 and December 31, 2017:

U.S. State and Municipal by Credit Ouality ¹	As of June 30, 2018			As of December 31, 2017			
\$ in Millions	Fair Value	% of Total	Average Credit Rating	Fair Value	% of Total	Average Credit Rating

Local general obligation	941	11.4	AA	1,113	11.9	AA	
Revenue	6,066	73.2	AA	6,498	69.7	AA	
Pre-refunded	156	1.9	AAA	397	4.3	AAA	
Total U.S. state and municipal	\$8,283	100%	AA	\$9,324	100.0%	AA	

¹ For purposes of this disclosure, credit quality is primarily based upon average credit ratings.

The municipal bond portfolio (taxable and tax-exempt) includes general obligation and revenue bonds issued by states, cities, counties, school districts, hospitals, educational institutions, and similar issuers. Included in the municipal bond portfolio at June 30, 2018 and December 31, 2017 were \$156 million and \$397 million, respectively, of pre-refunded bonds, which are bonds for which states or municipalities have established irrevocable trusts, which were created to satisfy their responsibility for payments of principal and interest.

The following table summarizes the Company's allocation of fixed maturities by credit quality as of June 30, 2018 and December 31, 2017:

Fixed Maturities by Credit Quality ¹	As of Jun	e 30, 2018	As of Decem	ber 31, 2017
\$ in Millions	Fair Value	% of Total	Fair Value	% of Total
AAA	\$18,628	33.5%	\$17,178	31.8%

A+, A, A-	11,491	20.7	11,354	21.0
BBB+, BBB, BBB-	13,107	23.6	12,956	24.0
Total investment grade	51,715	93.1	50,347	93.2
BB+, BB, BB-	1,929	3.5	1,851	3.4
B+, B, B-	1,541	2.8	1,486	2.8
CCC or lower	238	0.4	237	0.4
Unrated ²	123	0.2	119	0.2
Total below-investment grade	3,831	6.9	3,693	6.8
Total fixed maturities	\$55,546	100.0%	\$54,040	100.0%

For purposes of this disclosure, credit quality is primarily based upon average credit ratings.

The Company's holdings of below investment grade securities primarily consist of an actively managed diversified portfolio of high yield securities and leveraged loans within the domestic insurance portfolios and investments in emerging market sovereign and corporate debt primarily in support of the Company's international insurance operations. Overall, the average credit quality rating stands at A+ as of June 30, 2018.

² Bank loans acquired as part of Ironshore acquisition.

The following table summarizes available for sale fixed maturity securities by contractual maturity at June 30, 2018 and December 31, 2017. Actual maturities may differ from contractual maturities because certain securities may be called or prepaid with or without call or prepayment penalties. Due to the potential for prepayment on MBS and ABS, they are not categorized by contractual maturity.

Fixed Maturity by Maturity Date	As of Jun	e 30, 2018	As of December 31, 2017

MBS and ABS	12,419	22.4	11,809	21.9
Total fixed maturities	\$55,546	100.0%	\$54,040	100.0%

During 2018, after taking into consideration changes in investment opportunities and its view of the current and prospective business and economic environment, the Company has made only minor adjustments to the average duration of its investment portfolio. The average duration of the investment portfolio as of June 30, 2018 was 3.8.

The following tables summarize the Company's gross unrealized losses and fair value of fixed income and equity securities by the length of time that individual securities have been in a continuous unrealized loss position as of June 30, 2018 and December 31, 2017 that are not deemed to be other-than-temporarily impaired:

Unrealized losses increased from \$270 million as of December 31, 2017 to \$933 million as of June 30, 2018. Of the \$9 million of unrealized losses 12 months or longer on common stock, \$3 million relates to securities associated with non-guaranteed unit linked products where the policyholder bears the investment risk. The Company monitors the difference between the amortized cost and estimated fair value of fixed maturity securities to ascertain whether declines in value are temporary in nature. The Company currently does not have the intent to sell these securities and has determined it is not more likely than not that it would be required to sell these fixed maturity securities before they

recover their fair value. The Company has concluded that the gross unrealized losses of fixed maturity securities as of June 30, 2018 are temporary.

For equity securities, if the decline is believed to be other-than-temporary, the carrying value of the investment is written down to fair value and a realized loss is recorded. The Company has concluded that the gross unrealized losses of equity securities as of June 30, 2018 are temporary, and the Company has the intent and ability to hold these securities until recovery.

The following tables summarize the Company's issuer and sector exposure 1 as of June 30, 2018:

Tables exclude U.S. Treasury and agency securities, mortgage-backed securities, and municipal obligations that are pre-funded or escrowed to maturity.

As of June 30, 2018, investments in the energy sector accounted for \$2.767 billion or 3.8% of total invested assets. The energy sector is comprised of investments in the following sub-sectors: independent energy, integrated energy, midstream, oil field services, and refining (classification per Bloomberg Barclays Industry Groups). These individual energy sub-sectors are not material enough at an individual level to appear within the top 10 rankings in the sector table above. Energy investments consist of investment grade bonds of \$1.989 billion, bonds that were rated below investment grade of \$258 million, publicly traded equity securities of \$8 million, and natural resources partnerships and other equity method investments of \$512 million. In addition, the Company has direct investments in oil and gas wells of \$1.266 billion which are included in other assets on the Consolidated Balance Sheets.

The following table summarizes the Company's unfunded commitments as of June 30, 2018 and December 31, 2017:

Unfunded Commitments ¹	As of Jur	As of June 30, 2018		As of December 31, 2017		
\$ in Millions	Total	% of Total	Total	% of Total		
Traditional private equity	\$1,247	42.9%	\$1,554	45.3%		
Natural resources – Energy	337	11.6	715	20.8		
Natural resources – Other ²	17	0.6	20	0.6		
Real estate	600	20.6	607	17.7		
Other	706	24.3	537	15.6		
Total unfunded commitments	\$2,907	100.0%	\$3,433	100.0%		

¹ Represents Liberty Mutual Holding Company Inc. view.

Unfunded commitments as of June 30, 2018 were \$2.907 billion, a decrease of \$526 million from December 31, 2017. The decrease is primarily driven by contributions net of new commitments related to traditional private equity partnerships and real estate investments as well as the removal of unfunded commitments related to the sale of private equity partnerships. The \$337 million unfunded energy investment commitments as of June 30, 2018 included \$201 million related to energy partnerships and \$136 million related to direct investments in oil and gas wells. The \$715 million unfunded energy investment commitments as of December 31, 2017 included \$355 million related to natural resource partnerships and \$360 million related to direct investments in oil and gas wells.

² Includes both agriculture and timber commitments.

LIQUIDITY AND CAPITAL RESOURCES

The liquidity requirements of the insurance subsidiaries are met primarily by funds generated from operations, asset maturities and income received on investments. Cash provided from these sources is used primarily for claims, claim adjustment expenses and operating expenses (underwriting and corporate benefit costs). There are certain cash outflows such as catastrophes and continued settlements of asbestos reserves that are unpredictable in nature and could create increased liquidity needs. The Company believes that the insurance subsidiaries' future business liquidity needs will be met from all the above sources. However, the Company maintains back up borrowing facilities as an additional contingent source of funds. These include:

- On December 1, 2017, Liberty Mutual Insurance Company ("LMIC") replaced its \$1 billion repurchase agreement with a \$250 million repurchase agreement for a three-year period, which terminates December 1, 2020. At June 30, 2018, no funds were borrowed under the facility.
- On November 24, 2017, LMIC entered into a \$250 million repurchase agreement with an expiration date of November 24, 2020. At June 30, 2018, no funds were borrowed under the facility.
- LMIC, Peerless Insurance Company ("PIC"), Liberty Mutual Fire Insurance Company ("LMFIC"), Employers Insurance Company of Wausau ("EICOW"), Ironshore Specialty Insurance Company ("ISIC") and Ironshore Indemnity Insurance ("III") are members of the Federal Home Loan Bank. The Company has \$300 million of Federal Home Loan Bank borrowings with maturity dates in 2032. As of June 30, 2018, all of the outstanding Federal Home Loan Bank borrowings are fully collateralized.

Net cash flows are generally invested in marketable securities while keeping a certain amount in cash and short-term investments to meet unpredictable cash obligations. The Company monitors the duration of these investments, and purchases and sales are executed with the objective of having adequate cash available to satisfy its maturing liabilities. As the Company's investment strategy focuses on overall asset and liability durations, and not specific cash flows, asset sales may be required to satisfy obligations or rebalance asset portfolios. The Company's invested assets as of June 30, 2018 (including cash and cash equivalents) totaled \$73.637 billion.

Debt outstanding as of June 30, 2018 and December 31, 2017 was as follows:

- 7.00% fixed rate became 6.324% starting March 15, 2017 through a swap. Bondholders are paid 3-month LIBOR + 2.905%.
- 2 The par value call date and final fixed rate interest payment date is March 15, 2037, subject to certain requirements.
- 3 The par value call date and final fixed rate interest payment date is June 15, 2038, subject to certain requirements.

As part of its overall capital strategy, the Company previously announced that it may issue, repurchase or exchange debt depending on market conditions. Debt repurchases may be executed through open market or other appropriate transactions. The Company continues to evaluate market conditions and may periodically effect transactions in its debt, subject to applicable limitations.

Debt Transactions

During the three and six months ended June 30, 2018, the Company repurchased \$4 million of the 10.75% Junior Subordinated notes due 2088 compared to zero and \$2 million for the same periods in 2017. Pre-tax losses of \$3 million were recorded on these transactions for the three and six months ended June 30, 2018 compared to zero and \$1 million for the same periods in 2017 and are included in loss on extinguishment of debt in the accompanying Consolidated Statements of Income.

On November 29, 2017, LMIC terminated its \$1 billion repurchase agreement that was due to expire July 3, 2018.

On October 9, 2017, Liberty Mutual Group Inc. ("LMGI") terminated its \$1 billion commercial paper program.

On June 1, 2017, in connection with the Ironshore acquisition, the Company repurchased \$250 million of Ironshore's 8.5% senior note maturing in 2020 for \$298 million, which reflects the fair value of the long term debt on the opening balance sheet.

On March 27, 2017, LMFE issued €500 million par value of the 2024 Notes. Interest is payable annually at a fixed rate of 1.75%. The 2024 Notes mature on March 27, 2024. The Company has designated non-derivative foreign-

currency denominated long-term debt and the related accrued interest as hedges of its net investment in certain foreign operations.

On January 20, 2012, LMGI entered into two interest rate swap transactions having a notional amount of \$300 million with respect to LMGI's \$300 million Junior Subordinated Notes due 2067. Pursuant to the terms of the swap agreements, commencing on March 15, 2017 and effective through March 15, 2037, LMGI has agreed with the counterparties to pay a fixed rate of interest on the notional amount and the counterparties have agreed to pay a floating rate of interest on the notional amount.

Interest Expense

Consolidated interest expense for the three and six months ended June 30, 2018 was \$110 million and \$221 million, respectively, a decrease of \$2 million and an increase of \$1 million versus the same periods in 2017.

Holding Company Liquidity and Capital Resources

The Company conducts substantially all of its operations through its wholly owned insurance and service company subsidiaries, and therefore is primarily dependent on dividends, distributions, loans or other payments of funds from these entities to meet its current and future obligations. However, the subsidiaries are separate and distinct legal entities and have no obligation to make funds available to the Company, whether in the form of loans, dividends or other distributions. As of June 30, 2018, the Company, through its downstream subsidiaries LMGI and LMFE, had \$6.808 billion and \$584 million, respectively, of debt outstanding, excluding discount and issuance costs.

The insurance subsidiaries' ability to pay dividends on preferred or common stock is restricted under applicable insurance laws and regulations and may be paid only from unassigned surplus. Under the insurance laws of the domiciliary states of the insurance subsidiaries, an insurer may make an ordinary dividend payment if its surplus as regards policyholders, following such dividend, is reasonable in relation to its outstanding liabilities, is adequate to meet its financial needs, and does not exceed the insurer's unassigned surplus. However, no insurer may pay an extraordinary dividend without the approval or non-disapproval of the domiciliary insurance regulatory authority. Insurance subsidiaries owned directly by LMGI are LMIC, Liberty Mutual Personal Insurance Company ("LMPICO"), LMFIC and EICOW. Under the insurance laws of Massachusetts, the domiciliary state of LMIC and LMPICO, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer's surplus as regards policyholders as of the preceding December 31, or the insurer's net income for the 12-month period ending on the preceding December 31. Under the insurance laws of Wisconsin, the domiciliary state of LMFIC and EICOW, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends paid within the preceding 12 months. exceeds the lesser of (a) 10% of the insurer's surplus as regards policyholders as of the preceding December 31, or (b) the greater of (1) the insurer's net income for the preceding calendar year, minus realized capital gains for that calendar year, or (2) the aggregate of the insurer's net income for the three preceding calendar years minus realized capital gains for those calendar years and minus dividends paid within the first two of the preceding three calendar years. Changes in the extraordinary dividend regulation of the domiciliary states of LMIC, LMFIC and EICOW could negatively affect LMGI's ability to pay principal and interest on its debt, as could a redomestication or merger of LMIC, LMPICO, LMFIC or EICOW to a different domiciliary state.

The authorized control level risk-based capital (as of December 31, 2017) and 2018 available dividend capacity prior to needing regulatory approval for LMIC, LMFIC and EICOW were as follows:

\$ in Millions	RBC Ratio ¹		Dividend Capacity ²	Dividends Paid ³
RBC Ratios and Dividend Capacity	2017	2016	2018	2018
LMIC	354%	487%	\$1,423	\$32
LMFIC	452%	502%	\$112	\$8
EICOW	422%	507%	\$143	\$-

- 1 Authorized control level risk-based capital as defined by the NAIC.
- 2 Represents the estimated maximum allowable dividend without prior regulatory approval in the state of domicile.
- Dividends paid represent amounts paid during the six months ended June 30, 2018. Available dividend capacity as of June 30, 2018 is calculated as 2018 dividend capacity less dividends paid for the preceding 12 months. Dividends paid July 1, 2017 through June 30, 2018 for LMIC, LMFIC and EICOW were \$70 million, \$15 million and zero, respectively.

LMGI also has access to the following sources of funding:

- An unsecured revolving credit facility of \$1 billion with an expiration date of March 5, 2020. To date, no funds have been borrowed under the facility.
- A management services agreement with LMIC pursuant to which LMGI is entitled to collect certain costs plus a management fee for services rendered by LMGI employees.
- Investment management agreements with affiliated entities pursuant to which an LMGI subsidiary investment advisor is entitled to recover annual expenses for investment management services performed by its employees.
- Liberty Corporate Services LLC ("LCS"), which through its subsidiaries collects fees and other revenues, primarily for claims administration, agency and IT services rendered for affiliated and non-affiliated entities. For the three and six months ended June 30, 2018, LCS recorded \$102 million and \$189 million, respectively, in pre-tax income.
- Approximately \$80 million of annual dividends related to non-redeemable perpetual preferred stock issuances by LMIC and LMFIC.

\$ in Millions	As of June 30, 2018	As of December 31, 2017
Total debt	\$8,271	\$8,325
Adjusted debt ¹	\$7,271	\$7,325
Total equity	\$20,880	\$20,688
Less: Accumulated other comprehensive loss	(2,731)	(1,026)
Total equity excluding accumulated other comprehensive loss	\$23,611	\$21,714
Total capital excluding accumulated other comprehensive loss	\$31,882	\$30,039
Adjusted debt-to-capital capitalization excluding accumulated other comprehensive loss	22.8%	24.4%
Statutory surplus	\$19,837	\$17,493

Assumes that the Series A and B Junior Subordinated Notes receive 100% equity credit.

The adjusted debt-to-capital capitalization ratio excluding accumulated other comprehensive loss is calculated by dividing (a) adjusted debt by (b) total capital excluding accumulated other comprehensive loss. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company's management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company's financial leverage position. The Company's ratio of debt-to-capital (excluding accumulated other comprehensive loss) of 22.8% at June 30, 2018 was within the Company's target range.

REINSURANCE

Reinsurance Recoverables

The Company reported reinsurance recoverables of \$16.585 billion and \$16.899 billion at June 30, 2018 and December 31, 2017, respectively, net of allowance for doubtful accounts of \$207 million and \$218 million, respectively. Included in these balances are \$888 million and \$725 million of paid recoverables and \$15.904 billion and \$16.392 billion of unpaid recoverables (including retroactive reinsurance), respectively.

¹ Standard & Poor's ratings are as of December 31, 2017.

² Gross recoverables are defined as paid and unpaid claims and claim adjustment expense including IBNR and before both bad debt reserve set aside for potential uncollectible reinsurance and consideration of collateral.

³ Collateral refers to letters of credit, trust accounts, and funds held against outstanding and potential future claims and claim adjustment expenses related to reinsurance recoverable balances.

⁴ Net recoverables are defined as the difference between the amount of gross recoverables and collateral held for each reinsurer. If the collateral held for a reinsurer is greater than the gross recoverable, net recoverables are reported as \$0.

⁵ Reinsurers not rated by Standard & Poor's.

Total Reinsurance Recoverables	\$17,117	\$7,559	\$11,161

- 1 Reinsurance Groups are defined as all reinsurance subsidiaries owned by a common parent.
- 2 Gross recoverables are defined as paid and unpaid claims and claim adjustment expense including IBNR and before both bad debt reserve set aside for potential uncollectible reinsurance and consideration of collateral.
- 3 Collateral refers to letters of credit, trust accounts, and funds held against outstanding and potential future claims and claim adjustment expenses related to reinsurance recoverable balances.
- 4 Net recoverables are defined as the difference between the amount of gross recoverables and collateral held for each reinsurer. If the collateral held for a reinsurer is greater than the gross recoverable, net recoverables are reported as \$0.

Approximately 95% of the Company's reinsurance recoverable balance, net of collateral held and including voluntary and involuntary pools and associations, was from reinsurers rated A- or better from A.M. Best and Standard & Poor's at December 31, 2017. Collateral held against outstanding gross reinsurance recoverable balances was \$7.559 billion at December 31, 2017.

The remaining 5% of the Company's net reinsurance recoverable balance is well diversified. No single reinsurer rated B++ or below by A.M. Best or below A- by Standard & Poor's accounts for more than 1% of GAAP equity. In addition, the average net reinsurance recoverable balance from individual reinsurers rated below A- or not rated by A.M. Best and Standard & Poor's was approximately \$1 million as of December 31, 2017.

The reinsurance recoverables from state mandated involuntary pools and associations primarily represent the Company's servicing carrier business. As a servicing carrier, the Company retains no direct underwriting risk but instead cedes 100% of the involuntary market premium and losses back to the pool. Payment of losses is shared by the pool participants in proportion to their pool participation. Reinsurer credit risk with respect to any such involuntary pool or association is a function of the creditworthiness of all the pool participants.

The Company's reinsurance recoverables from Nationwide Indemnity Company have been fully guaranteed by its parent, Nationwide Mutual Insurance Company, which has a financial strength rating of A+ from Standard & Poor's and A+ from A.M. Best.

Property Catastrophe Reinsurance

The Company has reinsurance coverage for its domestic business and certain specialty operations including: 1) hurricanes and earthquake reinsurance covering a substantial portion of \$3.1 billion of loss in excess of \$500 million of retained loss in the United States, Canada and the Caribbean, excluding certain reinsurance exposures; 2) aggregate excess of loss programs; 3) quota share reinsurance programs; and 4) regional or country specific catastrophe reinsurance programs. These programs are structured to meet the Company's established tolerances under its Enterprise Risk Management Program.

Adverse Development Reinsurance

In conjunction with the Ironshore acquisition and effective May 1, 2017, the Company entered into a reinsurance transaction with NICO, a subsidiary of Berkshire Hathaway Inc., on a combined aggregate excess of loss agreement providing coverage for substantially all of Ironshore's reserves related to losses occurring prior to January 1, 2017. The first layer of the contract transfers \$400 million of held reserves at inception, for which the Company established reinsurance recoverables on the Consolidated Balance Sheet. The second layer of the contract provides adverse development coverage for 95% of \$500 million above a retention equal to \$2.991 billion, minus paid losses between January 1, 2017 and May 1, 2017, which retention approximates the total held reserves on the covered business on Ironshore's opening balance sheet. The Company paid NICO consideration of \$550 million, including interest accrued at the time of the settlement. The contract is accounted for on a prospective basis.

On July 17, 2014, LMIC entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement for substantially all of the Company's U.S. workers compensation, asbestos and environmental liabilities, attaching at \$12.522 billion of combined aggregate reserves, with an aggregate limit of \$6.500 billion and sublimits of \$3.100 billion for asbestos and environmental liabilities and \$4.507 billion for certain workers compensation liabilities. At the closing of the NICO Reinsurance Transaction, but effective as of January 1, 2014, the Company ceded \$3.320 billion of existing undiscounted liabilities under this reinsurance agreement. NICO will provide \$3.180 billion of additional aggregate adverse development reinsurance. The Company paid NICO total consideration of \$3.046 billion and recorded a pre-tax loss of \$128 million. With respect to the ceded asbestos and environmental business, NICO has been given authority to handle claims, subject to the Company's oversight and control. With respect to the ceded workers compensation business, the Company will continue to handle claims. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2013 development on: (1) asbestos and environmental liabilities arising under policies of insurance and reinsurance with effective dates prior to January 1, 2005; and (2) workers compensation liabilities arising out of policies on the books of the Company's former Commercial Insurance SBU as of December 31, 2013, as respects injuries or accidents occurring prior to January 1, 2014.

As the aggregate of workers compensation and asbestos and environmental development has exceeded the original pre-tax loss of \$128 million, deferred gains are now being recorded. Deferred gains are amortized into earnings over the period when underlying claims are settled. The Company reported deferred gain amortization of \$6 million and (\$3) million at June 30, 2018 and 2017, respectively. As of June 30, 2018 and December 31, 2017, deferred gains were \$210 million and \$205 million, respectively, and are included in other liabilities within the accompanying Consolidated Balance Sheets.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company's principal estimates include (1) unpaid claims and claim adjustment expense reserves, including asbestos and environmental liability reserves and loss sensitive premium attributable to prior years, (2) reinsurance recoverables and associated uncollectible allowance, (3) fair value determination and other-than-temporary impairments of the investment portfolio and direct working interests in oil and gas properties, (4) valuation of goodwill and intangible assets, (5) deferred income tax valuation allowance, and (6) pension and postretirement benefit obligations.

While the amounts included in the Consolidated Financial Statements reflect management's best estimates and assumptions, these amounts ultimately could vary.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2017 Audited Consolidated Financial Statements.

Unpaid Claims and Claim Adjustment Expenses

Property and casualty insurance unpaid claims and claim adjustment expenses represent the Company's best estimate of amounts necessary to settle all outstanding claims, including claims that are incurred but not reported as of the reporting date. The Company's reserve projections are based primarily on detailed analysis of the facts in each case, experience with similar cases and various historical development patterns. Consideration is given to such historical patterns as field reserving trends and claims settlement practices, loss payments, pending levels of unpaid claims and product mix, as well as court decisions, economic conditions and public attitudes. All of these factors can affect the estimation of reserves.

Establishing loss reserves, including loss reserves for catastrophic events that have occurred, is an estimation process. Many factors can ultimately affect the final settlement of a claim and, therefore, the necessary reserve.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 6 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

Asbestos and Environmental

As a result of the significant uncertainty inherent in determining a company's asbestos and environmental liabilities and establishing related reserves, the amount of reserves required to adequately fund the Company's asbestos and environmental claims cannot be accurately estimated using conventional reserving methodologies based on historical data and trends. As a result, the use of conventional reserving methodologies frequently has to be supplemented by subjective considerations including managerial judgment. In that regard, the estimation of asbestos claims and associated liabilities and the analysis of environmental claims considered prevailing applicable law and certain inconsistencies of court decisions as to coverage, plaintiffs' expanded theories of liability, and the risks inherent in major litigation and other uncertainties, the Company believes that in future periods it is possible that the outcome of the continued uncertainties regarding asbestos and environmental related claims could result in an aggregate liability that differs from current reserves and would be covered under the NICO Reinsurance Transaction.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2017 Audited Consolidated Financial Statements.

Reinsurance Recoverables

Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured business. The Company evaluates and monitors the financial condition of its reinsurers under voluntary reinsurance arrangements to minimize its exposure to significant losses from reinsurer insolvencies. The Company reports its reinsurance recoverables net of an allowance for estimated uncollectible reinsurance recoverables. The

allowance is based upon the Company's ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors. Accordingly, the establishment of reinsurance recoverables and the related allowance for uncollectible reinsurance recoverables is also an inherently uncertain process involving estimates. Changes in these estimates could result in additional charges to the accompanying Consolidated Statements of Income.

Ceded transactions that transfer risk but are retroactive are included in reinsurance recoverables. The excess of estimated liabilities for claims and claim costs over the consideration paid net of experience adjustments is established as a deferred credit at inception. The deferred amounts are subsequently amortized using the effective interest method over the expected settlement period. The periodic amortization is reflected in the accompanying Consolidated Statements of Income through benefits, claims and claim adjustment expenses. In transactions where the consideration paid exceeds the estimated liabilities for claims and claim costs a loss is recognized. If the adverse development net of experience adjustments exceeds the original loss, deferred gains are recorded. The deferred gains are subsequently recognized into earnings over the expected settlement period of the reserves.

For additional discussion, please refer to footnote 5 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 4 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

Fair Value Determination

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach, which generally utilizes market transaction data for identical or similar instruments.

The hierarchy level assigned to each security in the Company's available for sale portfolio is based on the Company's assessment of the transparency and reliability of the inputs used in the valuation of each instrument at the measurement date. Securities are classified into three hierarchy levels: Level 1, Level 2 or Level 3.

Regarding fair value measurements, as of June 30, 2018, excluding other assets, the Company reflected \$8.233 billion (13.7%) as level 1 (quoted prices in active markets) primarily consisting of U.S. Treasuries and common equity securities. The majority of the Company's invested assets are reported as level 2 (quoted prices from other observable inputs). As of June 30, 2018, the Company reported \$50.553 billion (84.4%) as level 2, consisting primarily of fixed maturity securities. Finally, the Company reported \$1.125 billion (1.9%) as level 3 (unobservable inputs), primarily consisting of international and privately held securities for which a market price is not readily observable.

For additional discussion, please refer to footnote 10 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 9 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

Impairment Losses on Investments

The Company reviews fixed maturity securities, equity securities and other investments which include limited partnership and other equity method investments (primarily traditional private equity, natural resource and real estate) for impairment on a quarterly basis. These investments are reviewed for both quantitative and qualitative considerations including, but not limited to: (a) the extent of the decline in fair value below book value, (b) the duration of the decline, (c) significant adverse changes in the financial condition or near term prospects of the investment or issuer, (d) significant change in the business climate or credit ratings of the issuer, (e) general market conditions and volatility, (f) industry factors, (g) the past impairment of the security holding or the issuer, and (h) impact of foreign exchange rates on foreign currency denominated securities.

The Company is required to review its natural resource and other equity method investments when facts and circumstances indicate that carrying values may not be recoverable. In performing a quarterly review, the fair value of the Company's investment is estimated using indicators including, but not limited to, market comparables and analyses, commodity prices, and discounted cash flows and a realized loss is recognized for the excess, if any, of the investment's carrying value over its estimated fair value.

The Company is required to review its oil and gas properties when facts and circumstances indicate the possible existence of impairment. When a property's carrying value is greater than the expected future cash flows, impairment expense is recognized to the extent that the carrying value of the property exceeds its estimated fair market value. In employing the discounted cash flow method described, key inputs include commodity prices, locational basis difference, production, project development costs and the discount rate which are based on management's expectations about outcomes with respect to these variables. Unproved properties are assessed at least annually to determine whether impairment has occurred.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 3 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

Goodwill and Intangible Assets

Goodwill is tested for impairment at least annually using either a qualitative or a quantitative process. Election of the approach can be made at the reporting unit level. The reporting unit has the option to skip the qualitative test and move directly to completion of the quantitative process.

Indefinite-lived intangible assets held by the Company are reviewed for impairment on at least an annual basis using a qualitative process. The classification of the asset as indefinite-lived is reassessed, and an impairment is recognized if the carrying amount of the asset exceeds its fair value.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2017 Audited Consolidated Financial Statements.

Deferred Income Taxes

The income tax provision is calculated under the liability method. Deferred income tax assets and liabilities are recorded based upon the difference between the financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences are unearned premiums, employee benefits, credits, net operating losses, insurance loss reserves, deferred policy acquisition costs, net unrealized gains and losses on investments, fixed assets, and intangibles.

On December 22, 2017, the U.S. enacted the Act which reduced the U.S. Federal corporate income tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred and creates new taxes on certain foreign-sourced earnings. At December 31, 2017, the Company made a reasonable estimate of the effects of the reduction in the U.S. Federal corporate income tax rate and the one-time transition tax, resulting in a tax expense of \$252 million, of which \$240 million was considered provisional and \$12 million was due to the impact of proportional amortization on investments in qualified affordable housing projects.

During the quarter ended June 30, 2018, the Company recognized a provisional measurement period expense of \$3 million in addition to the \$3 million recognized in the first quarter of 2018 related to the reduction of the U.S. Federal corporate income tax rate. The impact of this provisional adjustment on the 2018 effective tax rate was immaterial. The Company is still analyzing certain aspects of the Act and refining its calculations, which could potentially affect the measurement of these balances or potentially give rise to new deferred tax amounts. The Company has not yet made any measurement period adjustments related to the one-time transition tax as the Company has not yet completed its calculation of the total post-1986 foreign E&P, therefore it is subject to change. Calculations for these provisional amounts will be completed within one year of the date of enactment of the Act.

The Company's effective tax rate on continuing operations differs from the U.S. Federal statutory rate of 21% primarily due to the impact of non-U.S. operations partially offset by tax-exempt investment income.

For additional discussion, please refer to footnote 8 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 7 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

Pension and Postretirement Benefit Obligations

On an annual basis, the Company reviews the discount rate assumption used to determine the benefit obligations and the composition of various yield curves to ensure that the assumed discount rate reflects the Company's best estimate of the rate of return inherent in a portfolio of high-quality debt instruments that would provide the cash flows necessary to settle the Company's projected benefit payments.

The discount rate assumption used to determine the benefit obligations was based on a yield curve approach where the cash flows related to the benefit plans' liability stream were discounted at an interest rate specifically applicable to the timing of the cash flows. The discount rate assumption used to determine the benefit obligations is based on the yield curve where the cash flows related to each of the benefit plans' liability stream is discounted using spot rates specifically applicable to the timing of the cash flows of each plan. Effective January 1, 2016, service cost is calculated by discounting the future cash flows attributable to the current year of service using spot rates specifically applicable to the timing of the cash flows. Interest cost is determined by multiplying each benefit obligation cash flow by the spot rate applicable to that timing of the cash flow.

In choosing the expected long-term rate of return on plan assets, the Company's Retirement Committee considered the historical returns of equity and fixed income markets in conjunction with current economic and financial market conditions.

As a result of the LLAC sale a curtailment benefit of \$21 million was recognized and is reflected in discontinued operations on the Consolidated Statements of Income. In conjunction with the LLAC sale a plan remeasurement was completed which had an increase on the interest rate of approximately 50 basis points. As a result a benefit of \$14 million was recognized on the Consolidated Statements of Income and a \$373 million reduction to the pension obligation was recorded on the Consolidated Balance Sheet.

For additional discussion, please refer to footnote 9 in the Company's December 31, 2017 Audited Consolidated Financial Statements and footnote 8 in the Company's June 30, 2018 Unaudited Consolidated Financial Statements.

ABOUT THE COMPANY

Boston-based LMHC, the parent corporation of the Liberty Mutual Insurance group of entities, is a diversified global insurer and third largest property and casualty insurer in the U.S. based on 2017 direct written premium. The Company also ranks 68th on the Fortune 100 list of largest corporations in the U.S. based on 2017 revenue. As of December 31, 2017, LMHC had \$142.502 billion in consolidated assets, \$121.814 billion in consolidated liabilities, and \$39.409 billion in annual consolidated revenue.

LMHC, through its subsidiaries and affiliated companies, offers a wide range of property and casualty insurance products and services to individuals and businesses alike. In 2001 and 2002, the Company formed a mutual holding company structure, whereby the three principal mutual insurance companies, LMIC, LMFIC and EICOW, each became separate stock insurance companies under the ownership of LMHC.

Functionally, the Company conducts substantially all of its business through two business units, with each operating independently of the other in certain areas such as sales, underwriting, and claims, but, as appropriate, collaborating in other areas such as actuarial and financial. Management believes this structure provides increased synergy to the Company and permits each business unit to execute its business strategy and/or to make acquisitions without impacting or disrupting the operations of the other business unit.

LMHC employs nearly 50,000 people in over 800 offices throughout the world. For a full description of the Company's business operations, products and distribution channels, please visit Liberty Mutual's Investor Relations web site at www.libertymutualgroup.com/investors.
