Cautionary Statement Regarding Forward-Looking Statements

This report contains forward-looking statements that are intended to enhance the reader's ability to assess the Company's future financial and business performance. Forward-looking statements include, but are not limited to, statements that represent the Company's beliefs concerning future operations, strategies, financial results or other developments, and contain words and phrases such as "may," "expects," "should," "believes," "anticipates," "estimates," "intends" or similar expressions. Because these forward-looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond the Company's control or are subject to change, actual results could be materially different.

Some of the factors that could cause actual results to differ include, but are not limited to the following: the occurrence of catastrophic events (including terrorist acts, war or conflicts, civil unrest, hurricanes, hail, tornadoes, tsunamis, earthquakes, floods, snowfall and winter conditions, cyber attacks, epidemics, and pandemics); the current Russia-Ukraine conflict; inadequacy of loss reserves; adverse developments involving asbestos, environmental or toxic tort claims and litigation; emerging risks and liability theories; adverse developments in the cost, availability or ability to collect reinsurance; disruptions to the Company's relationships with its independent agents and brokers; financial disruption or a prolonged economic downturn; the performance of the Company's investment portfolios; changes in interest rates; risks inherent in the Company's alternative investments in private limited partnerships ("LP"), limited liability companies ("LLC"), commercial mortgages and direct investments in natural resources; difficulty in valuing certain of the Company's investments; subjectivity in the determination of the amount of impairments taken on the Company's investments; unfavorable outcomes from litigation and other legal proceedings, including the effects of emerging claim and coverage issues and investigations by state and federal authorities; the Company's exposure to credit risk in certain of its business operations; the Company's inability to obtain price increases or maintain market share due to competition or otherwise; inadequacy of the Company's pricing models; changes to insurance laws and regulations; changes in the amount of statutory capital that the Company must hold to maintain its financial strength and credit ratings; regulatory restrictions on the Company's ability to change its methods of marketing and underwriting in certain areas; assessments for guaranty funds and mandatory pooling arrangements; a downgrade in the Company's claims-paying and financial strength ratings; the ability of LMHC's direct and indirect subsidiaries to pay dividends to the Company; inflation, including inflation in medical costs and automobile and home repair costs; the cyclical nature of the property and casualty insurance industry; political, legal, operational and other risks faced by the Company's international business; potentially high severity losses involving the Company's surety products; loss or significant restriction on the Company's ability to use credit scoring in the pricing and underwriting of personal lines policies; inadequacy of the Company's controls to ensure compliance with legal and regulatory standards; changes in US federal, foreign or state tax laws; risks arising out of the Company's securities lending program; the Company's utilization of information technology systems and its implementation of technology innovations; difficulties with technology or data security; insufficiency of the Company's business continuity plan in the event of a disaster; the Company's ability to successfully integrate operations, personnel and technology from its acquisitions; insufficiency of the Company's enterprise risk management models and modeling techniques; the Company's ability to identify and accurately assess complex and emerging risks, and changing climate conditions; compliance with Environmental, Social, and Governance laws and related reactions from the Company's stakeholders; and disruptions to the banking system.

The Company may also describe estimated impacts as a result of dispositions and acquisitions on the Company's financial results and condition, including to GAAP equity, which are deemed forward-looking statements and represent the Company's best estimates based on information available to us at this time. However, because these estimates involve making assumptions, including about future events, they are subject to business, economic and competitive uncertainties, many of which are beyond the Company's control, and are subject to change based on closing adjustments. Consequently, the actual impact on the Company's results could be materially different from those described herein. Some of the important factors that could cause actual results and outcomes to differ materially from those indicated in the forward-looking statements include, among others, the following: (i) the occurrence of any event, change, or other circumstances that could give rise to the termination of the signed transaction agreements; (ii) the inability of the parties to complete the proposed transaction, including due to failure to obtain certain regulatory approvals, or satisfy other conditions to closing the agreements; (iii) the possibility that the expected benefits of the sales are not realized when expected or at all; and (iv) any of the aforementioned risk factors listed in the above paragraphs that may also result in variability in possible outcomes.

The Company's forward-looking statements speak only as of the date of this report or as of the date they are made and should be regarded solely as the Company's current plans, estimates and beliefs. For a detailed discussion of these and other cautionary statements, visit the Company's Investor Relations website at www.libertymutualgroup.com/investors. The Company undertakes no obligation to update these forward-looking statements.

EXECUTIVE SUMMARY

The following highlights do not address all of the matters covered in the other sections of Management's Discussion & Analysis of Financial Condition and Results of Operations or contain all of the information that may be important to the investing public. This summary should be read in conjunction with the other sections of Management's Discussion & Analysis of Financial Condition and Results of Operations and the Company's 2025 Audited Consolidated Financial Statements.

1 The underlying combined ratio is computed as the combined ratio excluding the impact of catastrophes, prior accident year development and current accident year re-estimation. Catastrophes are defined as a natural catastrophe, civil unrest, terror event, war or conflict exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums. Net incurred losses attributable to prior years is defined as incurred losses attributable to prior years (including prior year losses related to catastrophes, prior year catastrophe reinstatement premium, and prior year commission expense) including earned premium attributable to prior years.

2 The combined ratio, expressed as a percentage, is a measure of underwriting profitability. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company's competitors. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company's involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and acquisition and integration costs are not included in the combined ratio.

Subsequent Events

On February 2, 2026 the Vietnam transaction (as defined below) closed.

Management has assessed material subsequent events through March 4, 2026, the date the financial statements were available to be issued.

CONSOLIDATED RESULTS OF OPERATIONS

The Company has identified consolidated pre-tax operating income (“PTOI”), and PTOI before limited partnerships income as non-GAAP financial measures. PTOI is defined by the Company as pre-tax income excluding net realized gains (losses), loss on extinguishment of debt, discontinued operations, integration, other acquisition and restructuring related costs and cumulative effects of changes in accounting principles. Underlying PTOI is defined as PTOI excluding the impact of catastrophes and prior accident year development. Catastrophes are defined as a natural catastrophe, civil unrest, terror event, war or conflict exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums. Net incurred losses attributable to prior years is defined as incurred losses attributable to prior years (including prior year losses related to catastrophes, prior year catastrophe reinstatement premium, and prior year commission expense) including earned premium attributable to prior years. PTOI before limited partnerships income is defined as PTOI excluding LP and LLC results recognized on the equity method and revenue and expenses from direct investments in natural resources. PTOI before limited partnerships income and PTOI are considered by the Company to be appropriate indicators of underwriting and operating results and are consistent with the way the Company internally evaluates performance. Net realized gains/(losses) and limited partnerships income results are significantly impacted by both discretionary and economic factors and are not necessarily indicative of operating results, and the timing and amount of integration, other acquisition and restructuring related costs and the extinguishment of debt are not connected to the management of the insurance and underwriting aspects of the Company’s business. Income taxes are impacted by permanent differences. References to Net Written Premium (“NWP”) represent the amount of premium recorded for policies issued during a fiscal period including audits, retrospectively rated premium related to loss sensitive policies, and assumed premium, less ceded premium. Assumed and ceded reinsurance premiums include premium adjustments for reinstatement of coverage when a loss has used some portion of the reinsurance provided, generally under catastrophe treaties (“reinstatement premium”), and changes in estimated premium. In addition, the majority of workers compensation premium is adjusted to the “booked as billed” method through the Corporate and Other segment. The Company believes that NWP is a performance measure useful to investors as it generally reflects current trends in the Company’s sale of its insurance products. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company’s involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and acquisition and integration costs are not included in the combined ratio. The combined ratio, expressed as a percentage, is a measure of underwriting profitability. The underlying combined ratio is computed as the combined ratio excluding the impact of catastrophes and prior accident year development. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company’s competitors.

The Company’s discussions related to net income are presented on an after-tax GAAP basis. All other discussions are presented on a pre-tax GAAP basis, unless otherwise noted.

On October 30, 2025, Liberty Mutual Group Inc. (“LMGI”) redeemed its €750 million 2.75% Senior Notes, due 2026 in full.

On September 26, 2025, LMGI issued €750 million of Senior Notes, due 2035 (“the 2035 Notes”). Interest is payable annually at a fixed rate of 3.875%. The 2035 Notes mature on September 26, 2035.

On April 11, 2025 the Company completed the acquisition of JMalucelli Travelers Seguros in Colombia. Effective August 11, 2025, JMalucelli Travelers Seguros assumed the new name Liberty Colombia Compañía de Seguros S.A.

On March 2, 2025, the Company announced the agreement to sell its operations in Thailand (the “Thailand transaction”) and Vietnam (the “Vietnam transaction”) to Chubb Limited. The Thailand transaction closed on March 31, 2025, resulting in a gain of \$150 million. The Vietnam transaction is subject to certain closing conditions and regulatory approval, which is expected by the first half of 2026. The Company met the criteria for held-for-sale accounting in Q1 2025 for the Vietnam transaction, and as a result, a loss of (\$29) million was recorded.

There were a series of severe wildfires that impacted areas of Southern California in January 2025. The Company's pre-tax estimate of catastrophe losses relating to these California wildfires is \$1.2 billion. The current amount includes estimated assessments from the California FAIR Plan and reinsurance recoveries net of reinstatement premium. These values do not consider any subrogation.

On November 5, 2024, the Company entered into a 30-year facility agreement with Beacon Funding Trust, a Delaware trust, in connection with the sale by the trust of \$1.250 billion of pre-capitalized trust securities in a Rule 144A private placement. The trust invested the proceeds from the sale of the trust securities in a portfolio of principal and/or interest strips of US Treasury securities. The facility agreement provides the Company the right to issue and sell to the trust from time to time, up to \$1.250 billion of the Company's 6.266% Senior Notes due August 15, 2054 in exchange for a corresponding amount of US Treasury securities held by the trust. In return, the Company agreed to pay a semi-annual facility fee to the trust at a rate of 1.7787% per annum applied to the maximum amount of senior notes that the Company could issue and sell to the trust. The Company will not issue the senior notes unless and until it exercises its issuance right under such facility agreement.

On July 29, 2024, the Company announced it had signed an agreement with Markerstudy Group to sell Hughes Insurance in Northern Ireland. The transaction closed November 4, 2024.

On May 23, 2024, €500 million of LMGI's 3.625% Jr. Subordinated Notes due 2059 were redeemed at the initial call date.

In April 2024, Global Risk Solutions ("GRS") announced a single unified strategy in Asia Pacific, critical to seize the significant opportunity in the region. This includes the introduction of Liberty International Insurance ("LII"), a single demand pillar incorporating Liberty Specialty Markets ("LSM") and Asia Retail Markets ("ARM") businesses to drive our strategy. The prior periods have been restated to reflect this change.

On March 27, 2024, €500 million of Liberty Mutual Finance Europe DAC ("LMFE DAC") 1.75% Notes were paid at maturity.

On January 31, 2024, the Company sold its Liberty Seguros' personal and small commercial business operations in Ireland, Northern Ireland, Portugal, and Spain (collectively, the "WEM transaction") to Generali Group.

The Company's two businesses are as follows:

- US Retail Markets ("USRM") consists of Personal Lines and Small Commercial. US Personal Lines sells automobile, homeowners and other types of property and casualty insurance coverage to individuals in the United States. US Small Commercial Lines serves customers through an operating model that combines local underwriting, market knowledge and service with the scale advantages of a national company.
- GRS offers a wide array of property, casualty, automobile, specialty, life and health and reinsurance products distributed through multiple channels globally. GRS is organized into the following market segments: North America, LII, Liberty Mutual Reinsurance, Global Surety, and Other GRS.

Refer back to the additional risk factors that may impact the Company's financial results and condition are discussed in the section entitled "Cautionary Statement Regarding Forward-Looking Statements". We undertake no obligation to update the estimated impact of these transactions after the date hereof. The Company does not obligate itself generally to make any other forward-looking statements in the future.

NWP for the three months ended December 31 2025 was \$10.552 billion, an increase of \$1 million over the same period in 2024.

Significant changes by major line of business for the three months ended December 31, 2025 include:

- Private passenger automobile decreased by \$233 million. The decrease reflects lower average written premium per policy.
- Homeowners increased by \$22 million. The increase reflects increased lead line retention and increased new business production.
- GRS specialty insurance increased by \$153 million. The increase reflects re-estimation of premium assessments in Q4 2024 that did not recur and higher new business.
- GRS casualty increased by \$104 million. The increase reflects internal reinsurance changes creating offsetting differences amongst segments and lines.
- Commercial automobile decreased by \$59 million. The decrease reflects prior underwriting actions executed to address book mix and profitability.
- GRS other reinsurance increased by \$123 million. The increase reflects lower ceded premium primarily driven by reinsurance structure changes.

NWP for the twelve months ended December 31 2025 was \$43.566 billion, a decrease of \$1.397 billion from the same period in 2024.

Significant changes by major line of business for the twelve months ended December 31, 2025 include:

- Private passenger automobile decreased by \$1.457 billion. The decrease reflects lower average written premium per policy, partially offset by new business production.
- Homeowners decreased by \$80 million. The decrease reflects prior underwriting actions executed to address book mix and profitability, partially offset by increased new business production.
- GRS specialty insurance increased by \$245 million. The increase reflects growth.
- Workers compensation decreased by \$156 million. The decrease reflects the impact of prior year de-risking and exposure decreases.
- Surety increased by \$204 million. The increase reflects growth.
- GRS other reinsurance increased by \$147 million. The increase reflects lower ceded premium primarily driven by reinsurance structure changes.

Fourth Quarter Results:

Pre-tax operating income before limited partnerships income for the three months ended December 31, 2025 was \$1.821 billion, an increase of \$61 million over the same period in 2024. Underlying pre-tax operating income before limited partnerships income was \$1.118 billion, a decrease of \$1.811 billion from the same period in 2024. The decrease in underlying pre-tax operating income primarily reflects:

- Liberty Mutual Foundation contributions.
- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth in USRM and employee-related costs, as well as a shift in external partnership agreements in GRS.
- Unfavorable current year loss activity in GRS.

Partially offset by:

- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix in USRM.
- Higher net investment income.
- The impact of favorable earned premium in GRS.

Including the impact of catastrophes, and net incurred losses attributable to prior years, the increase in pre-tax operating income before limited partnerships income primarily reflects:

- The changes to underlying PTOI mentioned above.

Partially offset by:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current year catastrophe losses primarily due to both event frequency and severity compared to the same period in 2024.

Revenues for the three months ended December 31, 2025 were \$12.758 billion, an increase of \$540 million over the same period in 2024. The major components of revenues are net premium earned, net investment income, net realized gains (losses), and fee and other revenues.

Net premium earned for the three months ended December 31, 2025 was \$11.094 billion, a decrease of \$205 million from the same period in 2024. The decrease primarily reflects the premium earned associated with the changes in NWP previously discussed.

Net investment income for the three months ended December 31, 2025 was \$1.794 billion, an increase of \$502 million over the same period in 2024. The increase, excluding the impact of limited partnerships, primarily reflects:

- Taxable fixed maturity investments as a result of improving market conditions.
- Favorable other investment income.

Limited partnership income, including operating income from direct investments in natural resources, for the three months ended December 31, 2025 was \$790 million, an increase of \$410 million over the same period in 2024. The change primarily reflects:

- Increased favorable valuations driven by private equity within private capital.

Net realized losses for the three months ended December 31, 2025 were (\$395) million, a decrease of \$228 million from the same period in 2024. The net realized losses in the current period were primarily impacted by:

- \$217 million impairment losses on natural resources, property and software.
- \$207 million of net losses on fixed maturity sales.
- \$25 million net change in equity unrealized loss.

Partially offsetting losses was:

- \$42 million of net gains on equities sales.
- \$18 million net change in unrealized gains on energy holdings.
- \$8 million of net gains on derivatives.

The prior period was impacted by:

- \$580 million of net losses on fixed maturity sales.
- \$127 million impairments from the Safeco trade name intangible assets.
- \$61 million of net losses on derivatives.
- \$12 million net change in equity unrealized losses.

Partially offsetting losses was:

- \$142 million net change in unrealized gains on energy holdings.
- \$14 million of net gains on equities sales.
- \$8 million net change in unrealized gains on derivatives.

Claims and expenses for the three months ended December 31, 2025 were \$10.542 billion, a decrease of \$159 million from the same period in 2024. The decrease primarily reflects the previously noted drivers of underlying losses, catastrophes, net incurred losses attributed to prior years, expenses and foreign exchange.

Income tax expense on continuing operations for the three months ended December 31, 2025 was \$379 million, an increase of \$99 million over the same period in 2024. The Company's effective tax rate for the three months ended December 31, 2025 was 18.2% compared to 18.8% for the same period in 2024. The decrease in the effective tax rate primarily reflects:

- The tax impact of general business credits as compared to the pre-tax income in the relevant period.

Discontinued operations, net of tax, for the three months ended December 31, 2025 were zero, a decrease of \$34 million from the same period in 2024.

Net income attributable to LMHC for the three months ended December 31, 2025 was \$1.699 billion, an increase of \$460 million over the same period in 2024.

Cash flow provided by continuing operations for the three months ended December 31, 2025 was \$2.366 billion, an increase of \$799 million over the same period in 2024. The increase reflects improved underwriting profitability and decreased catastrophes for the same period in 2024.

Year-to-date Results:

Pre-tax operating income before limited partnerships income for the twelve months ended December 31, 2025 was \$7.508 billion, an increase of \$2.850 billion over the same period in 2024. Underlying pre-tax operating income before limited partnerships income was \$8.695 billion, a decrease of \$711 million from the same period in 2024. The decrease in underlying pre-tax operating income primarily reflects:

- Liberty Mutual Foundation contributions.
- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth in USRM and employee-related costs as well as a shift in external partnership agreements in GRS.
- The impact of foreign exchange in GRS.

Partially offset by:

- Higher net investment income.
- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix in USRM.
- The impact of favorable earned premium in GRS.
- Lower commissions primarily due to a shift in external partner agreements in GRS.

Including the impact of catastrophes, and net incurred losses attributable to prior years, the increase in pre-tax operating income before limited partnerships income primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophes primarily due to favorable event frequency compared to the same period in 2024, partially offset by the impact of the California Wildfires in 2025.

Partially offset by:

- The changes to underlying PTOI mentioned above.

Revenues for the twelve months ended December 31, 2025 were \$50.465 billion, an increase of \$247 million over the same period in 2024. The major components of revenues are net premium earned, net investment income, net realized gains (losses), and fee and other revenues.

Net premium earned for the twelve months ended December 31, 2025 was \$44.213 billion, a decrease of \$1.302 billion from the same period in 2024. The decrease primarily reflects the premium earned associated with the changes in NWP previously discussed.

Net investment income for the twelve months ended December 31, 2025 was \$6.075 billion, an increase of \$1.333 billion over the same period in 2024. The increase, excluding the impact of limited partnerships, primarily reflects:

- Taxable fixed maturity investments as a result of improving market conditions.
- Favorable other investment income.

Limited partnerships income, including operating income from direct investments in natural resources, for the twelve months ended December 31, 2025 was \$2.161 billion, an increase of \$895 million over the same period in 2024. The change primarily reflects:

- Increased favorable valuations driven by private equity within private capital.

Net realized losses for the twelve months ended December 31, 2025 were \$856 million, a decrease of \$185 million from the same period in 2024. The net realized losses in the current period were primarily impacted by:

- \$648 million of net losses on fixed maturity sales.
- \$229 million of impairment losses on natural resources, property and software.
- \$173 million net change in unrealized losses on energy holdings.

Partially offsetting losses was:

- \$54 million net gains on other investments.
- \$35 million of net gains on derivatives.
- \$32 million net change in equity unrealized gain.

The prior period was impacted by:

- \$971 million net losses on fixed maturity sales.
- \$176 million impairments on the Safeco trade name intangible asset, software, and real estate.
- \$125 million net losses on other investments.

Partially offsetting losses were:

- \$81 million net change in unrealized gains on energy holdings.
- \$80 million net gains on derivatives.
- \$45 million net change in equity unrealized gains.

Claims and expenses for the twelve months ended December 31, 2025 were \$41.652 billion, a decrease of \$3.683 billion from the same period in 2024. The decrease primarily reflects the previously noted drivers of underlying losses, catastrophes, net incurred losses attributed to prior years, expenses and foreign exchange.

Income tax expense on continuing operations for the twelve months ended December 31, 2025, was \$1.750 billion, an increase of \$690 million over the same period in 2024. The Company's effective tax rate for the twelve months ended December 31, 2025, was 20.4% compared to 22.4% for the same period in 2024. The decrease in the effective tax rate primarily reflects:

- The tax impact of non-US operations and general business credits as compared to the pre-tax income in the relevant period.

Discontinued operations, net of tax, for the twelve months ended December 31, 2025 were zero, a decrease of \$725 million from the same period in 2024. The balance in 2024 primarily reflects the WEM transaction.

Net income attributable to LMHC for the twelve months ended December 31, 2025 was \$6.792 billion, an increase of \$2.409 billion over the same period in 2024.

Cash flow provided by continuing operations for the twelve months ended December 31, 2025 was \$7.876 billion, an increase of \$1.407 billion over the same period in 2024. The increase reflects improved underwriting profitability and decreased catastrophes for the same period in 2024.

Fourth Quarter Results:

The consolidated underlying combined ratio for the three months ended December 31, 2025 was 91.4%, an increase of 10.2 points over the same period in 2024. The increase primarily reflects:

- Increase in claims and claim adjustment expense ratio primarily driven by unfavorable current year loss activity primarily in GRS.
- Increase in the underwriting expense ratio driven by increased advertising expenditures to stimulate growth in USRM and employee-related costs as well as a shift in external partnership agreements in GRS.

Partially offset by:

- The impact of higher earned premium in GRS.
- Lower commissions due to a shift in external partner agreements in GRS.

Including the impact of catastrophes, and net incurred losses attributable to prior years, the total combined ratio for the three months ended December 31, 2025 was 85.0%, a decrease of 6.5 points from the same period in 2024. The decrease primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophe losses primarily due to both event frequency and severity compared to the same period in 2024.

Year-to-date Results:

The consolidated underlying combined ratio for the twelve months ended December 31, 2025 was 85.7%, an increase of 0.2 points over the same period in 2024. The increase primarily reflects:

- Increase in the underwriting expense ratio driven by increased advertising expenditures to stimulate growth in USRM and employee-related costs as well as a shift in external partnership agreements in GRS.

Partially offset by:

- Decrease in claims and claim adjustment expense ratio primarily driven by favorable non-catastrophe frequency trends in USRM.
- Lower commissions due to a shift in external partner agreements in GRS.

- The impact of higher earned premium in GRS.

Including the impact of catastrophes, and net incurred losses attributable to prior years, the total combined ratio for the twelve months ended December 31, 2025 was 88.4%, a decrease of 7.5 points from the same period in 2024. The decrease primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophes primarily due to favorable event frequency compared to the same period in 2024, partially offset by the impact of the California Wildfires in 2025.

Partially offset by:

- The changes to the underlying combined ratio mentioned above.

US RETAIL MARKETS

Overview – USRM

USRM consists of Personal Lines and Small Commercial Lines. US Personal Lines sells automobile, homeowners and other types of property and casualty insurance coverage to individuals in the United States. These products are distributed through approximately 1,165 licensed employee Comparison agents, 1,063 licensed telesales counselors, independent agents, third-party producers, online, and sponsored affinity groups. US Small Commercial Lines serves customers through an operating model that combines local underwriting, market knowledge and service with the scale advantages of a national company.

Fourth Quarter Results:

NWP for the three months ended December 31, 2025 was \$6.375 billion, a decrease of \$325 million from the same period in 2024. The decrease primarily reflects:

- Personal lines auto results driven by lower average written premium per policy.
- Prior underwriting actions executed to address book mix and profitability.

Partially offset by:

- Increased lead line retention and increased new business production.

Year-to-Date Results:

NWP for the twelve months ended December 31, 2025 was \$26.468 billion, a decrease of \$1.811 billion from the same period in 2024. The decrease primarily reflects:

- Personal lines auto results driven by lower average written premium per policy.

- Prior underwriting actions executed to address book mix and profitability.
- Partially offset by:
- Increased new business production and increased lead line retention.
 - Increased assumed written premiums in small commercial lines from updated treaty terms.
 - Decreased ceded written premiums in both personal and small commercial lines as a result of pricing, exposure reduction and structure changes.

Fourth Quarter Results:

Pre-tax operating income for the three months ended December 31, 2025 was \$2.350 billion, an increase of \$407 million over the same period in 2024. Underlying pre-tax operating income was \$1.419 billion, a decrease of \$695 million from the same period in 2024. The change in underlying pre-tax operating income primarily reflects:

- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth.

Partially offset by:

- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix.

Including the impact of catastrophes and net incurred losses attributable to prior years, the increase in pre-tax operating income primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophe losses primarily due to both event frequency and severity compared to the same period in 2024.

Partially offset by:

- The changes to underlying PTOI mentioned above.

Revenues for the three months ended December 31, 2025 were \$7.293 billion, a decrease of \$243 million from the same period in 2024. The decrease primarily reflects:

- Lower premiums earned as previously mentioned NWP actions earn in.

Partially offset by:

- Higher net investment income.

Claims and expenses for the three months ended December 31, 2025 were \$4.997 billion, a decrease of \$724 million from the same period in 2024. The decrease primarily reflects:

- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix.

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophe losses primarily due to both event frequency and severity compared to the same period in 2024.

Partially offset by:

- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth.

Year-to-Date Results:

Pre-tax operating income for the twelve months ended December 31, 2025 was \$6.211 billion, an increase of \$2.854 billion over the same period in 2024. Underlying pre-tax operating income was \$6.877 billion, an increase of \$157 million over the same period in 2024. The change in underlying pre-tax operating income primarily reflects:

- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix.

Partially offset by:

- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth.

Including the impact of catastrophes and net incurred losses attributable to prior years, the increase in pre-tax operating income primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophe losses primarily due to favorable event frequency compared to the same period in 2024, partially offset by the impact of the California Wildfires in 2025.
- The changes to underlying PTOI mentioned above.

Revenues for the twelve months ended December 31, 2025 were \$29.413 billion, a decrease of \$1.492 billion from the same period in 2024. The decrease primarily reflects:

- Lower premiums earned as previously mentioned NWP actions earn in as well as impacts from reinstatement premium related to the California wildfires.

Partially offset by:

- Higher net investment income.

Claims and expenses for the twelve months ended December 31, 2025 were \$23.259 billion, a decrease of \$4.417 billion from the same period in 2024. The decrease primarily reflects:

- Favorable non-catastrophe losses driven by improved personal lines frequency and underwriting actions executed to address loss trends and book mix.
- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.
- Lower current-year catastrophes losses primarily due to favorable event frequency compared to the same period in 2024, partially offset by the impact of the California Wildfires in 2025.

Partially offset by:

- Unfavorable expenses compared to prior year driven by increased commissions and advertising expenditures to stimulate growth.

Fourth Quarter Results:

The USRM underlying combined ratio for the three months ended December 31, 2025 was 83.9%, an increase of 8.6 points over the same period in 2024. The increase primarily reflects:

- Increase in the underwriting expense ratio driven by increased advertising expenditures to stimulate growth.
- Increase in claims and claim adjustment expense ratio primarily driven by unfavorable current year losses.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the three months ended December 31, 2025 was 70.3%, a decrease of 6.8 points from the same period in 2024. The decrease primarily reflects:

- Favorable net incurred losses attributed to prior years, primarily on personal lines auto liability, that did not occur in the same period in 2024.

GRS offers a wide array of property, casualty, automobile, specialty, life and health and reinsurance products and services distributed through multiple channels globally. The segments for GRS are as follows:

- North America (“NA”) – North America includes admitted and non-admitted property and casualty.
- Liberty International Insurance (“LI”) – includes retail, commercial and specialty insurance businesses outside of North America.
- Liberty Mutual Reinsurance (“LM Re”) - Sells insurance for (Re)/insurers to transfer risk away from (Re)/insurance companies.
- Global Surety – A global leader providing surety guarantees to businesses ranging from multinational to local in most industry segments.
- Other GRS primarily consists of internal reinsurance programs, certain run-off business activity, and a large global inland marine program.

On March 2, 2025, GRS announced the agreement to sell its operations in Thailand and Vietnam to Chubb Limited. The Thailand transaction closed on March 31, 2025, and the Vietnam transaction is subject to certain closing conditions and regulatory approval, which is expected by the first half of 2026.

Fourth Quarter Results:

NWP for the three months ended December 31, 2025, was \$4.196 billion, an increase of \$352 million over the same period in 2024.

The increase primarily reflects:

- Lower ceded premium primarily driven by reinsurance structure changes.
- Re-estimation of premium assessments in Q4 2024 that did not recur, primarily impacting Specialty.
- Higher new business, primarily in Specialty.
- Growth in Surety.

Partially offset by:

- Lower premium driven by the Thailand transaction, primarily impacting Private Passenger Auto.
- The impact of foreign exchange.
- Property driven by rate decreases.

Additionally, internal reinsurance changes created offsetting differences amongst segments and lines, including favorable impacts in Casualty and Specialty, offset in Other Reinsurance.

Year-to-date Results:

NWP for the twelve months ended December 31, 2025, was \$17.186 billion, an increase of \$770 million over the same period in 2024.

The increase primarily reflects:

- Growth across various lines including Surety, Specialty, and Other.
- Casualty driven by higher loss portfolio transfer premium, rate increases and growth in certain markets, partially offset by continued risk reduction strategies.
- Commercial Automobile driven by rate and exposure increases.

- Lower ceded premium primarily driven by reinsurance structure changes.

Partially offset by:

- Worker's Compensation driven by the impact of prior year de-risking and exposure decreases.
- Lower premium driven by the Thailand transaction, primarily impacting Private Passenger Auto.

Additionally, internal reinsurance changes in 2025 created offsetting differences amongst segments and lines, including favorable impacts in Property, Casualty and Specialty offset in Other Reinsurance.

Fourth Quarter Results:

Pre-tax operating income for the three months ended December 31, 2025 was \$628 million, a decrease of \$216 million from the same period in 2024. Underlying pre-tax operating income for the three months ended December 31, 2025 was \$569 million, a decrease of \$346 million from the same period in 2024. The decrease in underlying pre-tax operating income primarily reflects:

- Unfavorable current year loss activity.
- Higher operating expenses driven by an increase in employee-related costs, as well as a shift in external partnership agreements.
- Bad debt provision.
- The impact of foreign exchange.

Partially offset by:

- The impact of favorable earned premium.
- Higher net investment income.
- Lower commissions due to a shift in external partner agreements.

Including the impact of catastrophes and net incurred losses attributable to prior years, the change in pre-tax operating income primarily reflects:

- The changes to underlying PTOI mentioned above.

Partially offset by:

- Favorable prior accident year activity driven by releases in Q4 2025 vs strengthening in Q4 2024.
- Lower current year catastrophes.

Revenues for the three months ended December 31, 2025 were \$4.860 billion, an increase of \$273 million over the same period in 2024. The increase primarily reflects:

- Favorable earned premium driven by the NWP drivers mentioned above.
- Higher net investment income.

Claims and expenses for the three months ended December 31, 2025 were \$4.242 billion, an increase of \$498 million over the same period in 2024. The increase primarily reflects:

- Unfavorable current year loss activity.

- Higher operating expenses driven by an increase in employee-related costs, as well as a shift in external partnership agreements.
- Bad debt provision.
- The impact of foreign exchange.

Partially offset by:

- Favorable prior accident year activity driven by releases in Q4 2025 vs strengthening in Q4 2024.
- Lower current year catastrophes.
- Lower commissions due to a shift in external partner agreements.

Year-to-date Results:

Pre-tax operating income for the twelve months ended December 31, 2025 was \$3.086 billion, an increase of \$394 million over the same period in 2024. Underlying pre-tax operating income for the twelve months ended December 31, 2025 was \$3.228 billion, an increase of \$60 million over the same period in 2024. The increase in underlying pre-tax operating income primarily reflects:

- Higher net investment income.
- The impact of favorable earned premium.
- Lower commissions primarily due to a shift in external partner agreements.

Partially offset by:

- Higher operating expenses driven by an increase in employee-related costs, and a shift in external partnership agreements.
- The impact of foreign exchange.
- Bad debt provision.
- Higher current year loss activity.

Including the impact of catastrophes and net incurred losses attributable to prior years, the change in pre-tax operating income primarily reflects:

- Lower current year catastrophe losses.
- Higher prior accident year releases.
- The changes to underlying PTOI mentioned above.

Revenues for the twelve months ended December 31, 2025 were \$19.174 billion, an increase of \$802 million over the same period in 2024. The increase primarily reflects:

- Higher earned premium due to the changes to NWP mentioned above.
- Higher net investment income.

Claims and expenses for the twelve months ended December 31, 2025 were \$16.098 billion, an increase of \$411 million over the same period in 2024. The increase primarily reflects:

- Higher operating expenses driven by an increase in employee-related costs, and a shift in external partnership agreements.
- The impact of foreign exchange.
- Bad debt provision.
- Higher current year loss activity.

Partially offset by:

- Lower current year catastrophe losses.

- The impact of higher earned premium.
- Lower commissions due to a shift in external partner agreements.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the three months ended December 31, 2025 was 95.3%, an increase of 5.0 points over the same period in 2024. The increase primarily reflects:

- The changes to underlying combined ratio mentioned above.

Partially offset by:

- Favorable prior accident year activity driven by releases in Q4 2025 vs strengthening in Q4 2024.
- Lower current year catastrophes.

Year-to-date Results:

The GRS underlying combined ratio for the twelve months ended December 31, 2025 was 91.0%, an increase of 0.7 points over the same period in 2024. The increase primarily reflects:

- Higher current year loss activity.
- Higher operating expenses driven by an increase in employee-related costs, and a shift in external partnership agreements.

Partially offset by:

- Lower commissions due to a shift in external partner agreements.
- The impact of higher earned premium.

Including the impact of catastrophes and net incurred losses attributable to prior years, the total combined ratio for the twelve months ended December 31, 2025 was 91.9%, a decrease of 1.4 points from the same period in 2024. The decrease primarily reflects:

- Lower current year catastrophe losses.
- Higher prior accident year releases.

Partially offset by:

- The changes to underlying combined ratio mentioned above.

CORPORATE AND OTHER

Overview – Corporate and Other

Corporate and Other includes the following significant items:

- Certain internal discontinued operations, which comprises: the run-off of certain commercial lines business, the run-off of the California workers compensation business of Golden Eagle Insurance Corporation and certain distribution channels related to Prudential Property and Casualty Insurance Company, Prudential General Insurance Company and Prudential Commercial Insurance Company (together, “PruPac”) and Liberty Re annuity business.
- Cessions related to certain retroactive reinsurance agreements, including the NICO Reinsurance Transaction and NICO Casualty Reinsurance Transaction, which are described further in “Reinsurance”.
- Effective January 1, 2015, Corporate began assuming certain pre-2014 voluntary and involuntary workers compensation claims from the businesses. The covered business materially aligns with the workers compensation business covered by the retroactive reinsurance agreement defined as the NICO Reinsurance Transaction, which is described further in “Reinsurance”.
- Effective January 1, 2019, Corporate began assuming certain US workers compensation, commercial auto, and general liability claims from the businesses. The covered business materially aligns with the casualty business covered by the retroactive reinsurance agreement defined as the NICO Casualty Reinsurance Transaction, which is described further in “Reinsurance,” with two notable differences: 1) the internal treaty attaches at held reserves at inception and does not include a loss corridor, and 2) the internal treaty includes umbrella claims related to Small Commercial within USRM.
- Effective September 30, 2020, Corporate began assuming certain pre-2018 construction defect liabilities from GRS.
- Reserve changes on certain other casualty and property lines of business.
- Interest expense on the Company’s outstanding debt.
- Certain risks of its businesses that the Company reinsures as part of its risk management program including externally ceded catastrophe and non-catastrophe reinsurance treaties which are described further in “Reinsurance”.
- The Company reports its written premium on workers compensation contracts on the "booked as billed" method. The businesses report workers compensation written premium on the "booked at inception" method. Corporate and Other results reflect the difference between these two methods.
- Costs associated with certain long-term compensation plans and other corporate costs not fully allocated to the businesses.
- Property and casualty operations’ investment income is allocated to the businesses based on planned ordinary investment income returns by investment category. The difference between allocated net investment income and actual net investment income is included in Corporate and Other.
- Investment-related realized gains (losses), real estate impairments and sale of immaterial business segments.
- Income related to limited partnership investments.

Corporate and Other NWP by line of business was as follows:

NM = Not Meaningful

Fourth Quarter Results:

NWP for the three months ended December 31, 2025 was (\$19) million, versus \$7 million for the same period in 2024. The decrease primarily reflects:

- Reinstatement premium adjustments on the California Wildfire recoveries.
- The workers compensation booked as billed adjustment.

Year-to-date Results:

NWP for the twelve months ended December 31, 2025 was (\$88) million, versus \$268 million for the same period in 2024. The decrease primarily reflects:

- Transfer on external ceded treaties that did not reoccur in 2025.
- Lower internal assumed on internal reinsurance treaties.

Partially offset by:

- Non-renewal of the external ceded treaties and associated internal placements.
- Lower spend on external treaties.

Fourth Quarter Results:

Revenues for the three months ended December 31, 2025 were \$605 million, an increase of \$510 million over the same period in 2024. The major components of revenues are net premium earned, net investment income (including limited partnerships income), net realized gains (losses), and fee and other revenues.

Pre-tax operating loss for the three months ended December 31, 2025 was (\$367) million, a decrease of \$280 million from the same period in 2024.

Underlying pre-tax operating loss before limited partnerships income was (\$870) million, an increase of \$790 million over the same period in 2024. The increase in underlying pre-tax operating loss primarily reflects:

- Liberty Mutual Foundation contributions.
- Higher employee related costs.
- Lower net investment income.

Including the impact of catastrophes, net incurred losses attributable to prior years, and limited partnerships income, the decrease in pre-tax operating loss primarily reflects:

- Incurred losses attributable to prior years were unfavorable (\$357) million due to A&E strengthening from the annual review process as compared to (\$947) million overall strengthening in 2024.
- High limited partnerships income.

Partially offset by:

- The changes to underlying PTOL mentioned above.

Net premium earned for the three months ended December 31, 2025 was (\$25) million, a decrease of \$24 million from the same period in 2024.

Net investment income including limited partnerships income for the three months ended December 31, 2025 was \$928 million, an increase of \$370 million over the same period in 2024. The increase primarily reflects:

- Taxable fixed maturity investments as a result of improving market conditions.
- Favorable other investment income.

Net realized losses for the three months ended December 31, 2025 were (\$331) million, a decrease of \$163 million from the same period in 2024. The net realized losses in the current period were primarily impacted by:

- \$217 million impairment losses on natural resources, property and software.
- \$207 million of net losses on fixed maturity sales.
- \$25 million net change in equity unrealized loss.

Partially offsetting losses was:

- \$42 million of net gains on equities sales.
- \$18 million net change in unrealized gains on energy holdings.
- \$8 million of net gains on derivatives.

The prior period was impacted by:

- \$580 million of net losses on fixed maturity sales.
- \$127 million impairments from the Safeco trade name intangible assets.
- \$61 million of net losses on derivatives.

Claims and expenses for the three months ended December 31, 2025 were \$1.303 billion, an increase of \$67 million over the same period in 2024. The increase primarily reflects the previously noted drivers of underlying losses, catastrophes, net incurred losses attributed to prior years and expenses.

Year-to-date Results:

Revenues for the twelve months ended December 31, 2025 were \$1.878 billion, an increase of \$937 million over the same period in 2024. The major components of revenues are net premium earned, net investment income (including limited partnerships income), net realized gains (losses), and fee and other revenues.

Pre-tax operating income (loss) for the twelve months ended December 31, 2025 was \$372 million, versus (\$125) million for the same period in 2024.

Underlying pre-tax operating loss before limited partnerships income was (\$1.410) billion, an increase of \$928 million over the same period in 2024. The increase in underlying pre-tax operating loss primarily reflects:

- Liberty Mutual Foundation contributions.
- Higher employee related costs.
- Lower net investment income.

Including the impact of catastrophes, net incurred losses attributable to prior years, and limited partnerships income, the increase in pre-tax operating income primarily reflects:

- High limited partnerships income.
- Incurred losses attributable to prior years were unfavorable (\$323) million due to A&E strengthening from the annual review process as compared to (\$948) million overall strengthening in 2024.

Partially offset by:

- The changes to underlying PTOI mentioned above

Net premium earned for the twelve months ended December 31, 2025 was (\$56) million, an increase of \$59 million over the same period in 2024.

Net investment income including limited partnerships income for the twelve months ended December 31, 2025 was \$2.609 billion, an increase of \$798 million over the same period in 2024. The increase primarily reflects:

- Taxable fixed maturity investments as a result of improving market conditions.
- Favorable other investment income.

Net realized losses for the twelve months ended December 31, 2025 were (\$789) million, a decrease of \$117 million from the same period in 2024. The net realized losses in the current period were primarily impacted by:

- \$648 million of net losses on fixed maturity sales.
- \$229 million of impairment losses on natural resources, property and software.
- \$173 million net change in unrealized losses on energy holdings.

Partially offsetting losses was:

- \$54 million net gains on other investments.
- \$35 million of net gains on derivatives.
- \$32 million net change in equity unrealized gain.

The prior period was impacted by:

- \$971 million net losses on fixed maturity sales.
- \$176 million impairments on the Safeco trade name intangible asset, software, and real estate.
- \$125 million net losses on other investments.

Partially offsetting losses were:

- \$81 million net change in unrealized gains on energy holdings.
- \$80 million net gains on derivatives.
- \$45 million net change in equity unrealized gains.

Claims and expenses for the twelve months ended December 31, 2025 were \$2.295 billion, an increase of \$323 million over the same period in 2024. The increase primarily reflects the previously noted drivers of underlying losses, catastrophes, net incurred losses attributed to prior years and expenses.

INVESTMENTS

General

The Company's investment strategy seeks long-term returns through disciplined security selection, portfolio diversity and an integrated approach to risk management. The Company selects and monitors investments to balance the goals of safety, stability, liquidity, growth and after-tax total return with its need to comply with regulatory investment requirements. A relatively safe and stable income stream is achieved by maintaining a broadly-based portfolio of investment grade bonds. These holdings are supplemented by investments in additional asset types with the objective of further enhancing the portfolio's diversification and expected returns. These additional asset types include commercial mortgages and other real estate financing investments, non-investment grade bonds, including leveraged loans, common and preferred stock, private equity and direct investments in natural resource ventures. Risk management is accomplished through asset liability management (including both interest rate risk and foreign currency risk), diversification, credit limits and a careful analytical review of each investment decision.

The Company's investment policy and strategy are reviewed and approved by the Investment Committee of its Board of Directors, which meets on a regular basis to review and consider investment activities, tactics and new investment classes. In addition, the Company predominantly uses a subsidiary investment advisor for managing and administering the investment portfolios of its domestic and foreign insurance operations.

Invested Assets (including cash and cash equivalents)

The following table summarizes the Company's invested assets by asset category as of December 31, 2025 and December 31, 2024:

Invested Assets by Type \$ in Millions	As of December 31, 2025		As of December 31, 2024

Total invested assets	\$121,426	100.0%	\$110,466	100.0%

Total invested assets as of December 31, 2025 were \$121.426 billion, an increase of \$10.960 billion or 9.9% over December 31, 2024. The increase was primarily related to an increase in fixed maturities, limited partnership investments, cash and cash equivalents, partially offset by a decrease in mortgage loans.

Fixed maturities as of December 31, 2025 were \$73.761 billion, an increase of \$3.002 billion or 4.2% over December 31, 2024. The increase was primarily driven by additional investments in treasury, corporate bonds, US state and municipal bonds, partially offset by agency RMBS securities. As of December 31, 2025, the Company did not have commitments to purchase various residential mortgage backed securities.

Equity securities as of December 31, 2025 were \$1.576 billion (\$1.576 billion common stock) versus \$1.326 billion as of December 31, 2024 (\$1.326 billion common stock), an increase of \$250 million or 18.9% over December 31, 2024. The increase in equity holdings is being driven by an increase in Exchange Traded Funds (ETF).

Unrealized losses for fixed maturity securities decreased from \$2.853 billion as of December 31, 2024 to \$950 million as of December 31, 2025. The Company monitors the difference between the amortized cost and estimated fair value of fixed maturity securities to ascertain whether declines in value are temporary in nature. The Company currently does not have the intent to sell these securities and has determined it is not more likely than not that it would be required to sell these fixed maturity securities before they recover their fair value. The Company has concluded that the gross unrealized losses of fixed maturity securities as of December 31, 2025 are temporary.

As of December 31, 2025, investments in the energy sector accounted for \$2.676 billion or 2.2% of total invested assets. The energy sector is comprised of investments in the following sub-sectors: independent energy, integrated energy, midstream, oil field services, and refining (*classification per Bloomberg Barclays Industry Groups*). Energy investments consist of investment grade bonds of \$2.062 billion, bonds that were rated below investment grade of \$546 million, publicly traded equity securities of \$2 million, and natural resources partnerships and other equity method investments of \$66 million. Agriculture and timber investments consist of natural resource partnerships of \$18 million. In addition, the Company has direct investments in agriculture and timber of \$52 million and oil and gas wells of \$2 million which are included in other assets on the Consolidated Balance Sheets.

The following table summarizes the Company's unfunded commitments as of December 31, 2025 and December 31, 2024:

Other	456	3.4	372	3.3
Total unfunded commitments	\$13,256	100%	\$11,264	100%

Unfunded commitments as of December 31, 2025 were \$13.256 billion, an increase of \$1.992 billion over December 31, 2024. The increase is primarily driven by new commitments net of contributions related to real estate, private credit and traditional private equity investments. The unfunded energy investment commitments at December 31, 2025 were \$12 million and December 31, 2024 were \$15 million related to energy partnerships.

The Company holds unfunded commitments related to commercial mortgage loans. The liability for expected credit losses related to these unfunded commitments is reported in Other Liabilities and is measured in a manner consistent with the approach of the funded mortgage loan portfolio. As of December 31, 2025 the amount of the liability for expected credit losses of unfunded commitments was \$32 million.

LIQUIDITY AND CAPITAL RESOURCES

The liquidity requirements of the insurance subsidiaries are met primarily by funds generated from operations, asset maturities and income received on investments. Cash provided from these sources is used primarily for claims, claim adjustment expenses and operating expenses (underwriting and corporate benefit costs). There are certain cash outflows such as catastrophes and continued settlements of asbestos reserves that are unpredictable in nature and could create increased liquidity needs. The Company believes that the insurance subsidiaries' future business liquidity needs will be met from all the above sources. However, the Company maintains back-up borrowing facilities as an additional contingent source of funds. These include:

On November 5, 2024, the Company entered into a 30-year facility agreement with Beacon Funding Trust, a Delaware trust, in connection with the sale by the trust of \$1.250 billion of pre-capitalized trust securities in a Rule 144A private placement. The trust invested the proceeds from the sale of the trust securities in a portfolio of principal and/or interest strips of US Treasury securities. The facility agreement provides the Company the right to issue and sell to the trust from time to time, up to \$1.250 billion of the Company's 6.266% Senior Notes due August 15, 2054 in exchange for a corresponding amount of US Treasury securities held by the trust. In return, the Company agreed to pay a semiannual facility fee to the trust at a rate of 1.7787% per annum applied to the maximum amount of senior notes that the Company could issue and sell to the trust. The Company will not issue the senior notes unless and until it exercises its issuance right under such facility agreement. For more information, see Note 7 of the "Notes to Consolidated Financial Statements" contained herein in Item 8 for further discussion of this agreement.

Liberty Mutual Insurance Company ("LMIC"), Peerless Insurance Company ("PIC"), Liberty Mutual Fire Insurance Company ("LMFIC"), Employers Insurance Company of Wausau ("EICOW"), Safeco Insurance Company of America ("SICOA"), Ohio Casualty Insurance Company ("OCIC") are members of the Federal Home Loan Bank ("FHLB"). The Company has \$300 million of FHLB borrowings with maturity dates through 2032. As of December 31, 2025 the outstanding FHLB borrowings are fully collateralized.

State Auto Mutual Insurance Company ("SAM"), State Auto Property & Casualty Insurance Company ("SPC") and Rockhill Insurance Company ("RIC") memberships were cancelled on August 25, 2023. Final cancellation of FHLB memberships have a five-year waiting period, so final membership expiration dates are August 25, 2028. Ironshore Indemnity Insurance ("III") and Ironshore Specialty Insurance Company ("ISIC") memberships were cancelled on February 24th and 25th, 2020, respectively. III's five-year waiting period was waived by FHLB, so final membership cancellation was effective on February 9, 2022. For ISIC, the effective date of its final membership cancellation was February 25, 2025.

Net cash flows are generally invested in marketable securities while keeping a certain amount in cash and short-term investments to meet unpredictable cash obligations. The Company monitors the duration of these investments, and purchases and sales are executed with the objective of having adequate cash available to satisfy its maturing liabilities. As the Company's investment strategy focuses on overall asset and liability durations, and not specific cash flows, asset sales may be required to satisfy obligations or rebalance asset portfolios. The Company's invested assets as of December 31, 2025 (including cash and cash equivalents) totaled \$121.426 billion.

Interest Expense

Consolidated interest expense for the three and twelve months ended December 31, 2025 was \$129 million and \$508 million, and respectively, an increase of \$4 million and \$4 million over the same periods in 2024.

Holding Company Liquidity and Capital Resources

The Company conducts substantially all of its operations through its wholly owned insurance and service company subsidiaries, and therefore is primarily dependent on dividends, distributions, loans or other payments of funds from these entities to meet its current and future obligations. However, the subsidiaries are separate and distinct legal entities and have no obligation to make funds available to the Company, whether in the form of loans, dividends, or other distributions. As of December 31, 2025, the Company, through its downstream subsidiary LMGI had \$8.7 billion of debt outstanding, excluding discount and issuance costs.

The insurance subsidiaries' ability to pay dividends is restricted under applicable insurance law and regulations and may only be paid from unassigned surplus. Under the insurance laws of the domiciliary states of the insurance subsidiaries, an insurer may make an ordinary dividend payment if its surplus as regards to policyholders, following such dividend, is reasonable in relation to its outstanding liabilities, is adequate to its financial needs and does not exceed the insurer's unassigned surplus. However, no insurer may pay an extraordinary dividend without the approval or non disapproval of the domiciliary insurance regulatory authority. Insurance subsidiaries owned directly by LMGI are LMIC, Liberty Mutual Personal Insurance Company ("LMPICO"), LMFIC, EICOW and SAM. Under the insurance laws of Massachusetts, the domiciliary state of LMIC, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer's surplus as regards policyholders as of the preceding December 31, or the insurer's net income for the 12-month period ending on the preceding December 31. Under the insurance laws of New Hampshire, the domiciliary state of LMPICO, an extraordinary dividend is defined as (1) a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of (a) 10% of the insurer's surplus as regards policyholders as of the preceding December 31, or (b) the insurer's net income, excluding realized capital gains, for the calendar year preceding the date of the dividend, but not including pro rata distributions of any class of the insurer's own securities, or (2) the aggregate of the insurer's net income from the previous two calendar years that has not already been paid out as dividends, excluding realized capital gains and any dividends paid in the previous two calendar years. Under the insurance laws of Wisconsin, the domiciliary state of LMFIC and EICOW, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of (a) 10% of the insurer's surplus with regard to policyholders as of the preceding December 31, or (b) the greater of (1) the insurer's net income for the calendar year preceding the date of the dividend, minus realized capital gains for that calendar year, or (2) the aggregate of the insurer's net income for the three calendar years preceding the date of the dividend, minus realized capital gains for those calendar years and minus dividends paid within the first two of the preceding three calendar years. Under the insurance laws of Ohio, the domiciliary state of SAM, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer's surplus as regards policyholders as of the preceding December 31 or the insurer's net income for the 12-month period ending on the preceding December 31. Changes in the extraordinary dividend regulation of the domiciliary states of LMIC, LMPICO, LMFIC, EICOW and SAM could negatively affect LMGI's ability to pay principal and interest on its debt, as could a redomestication or merger of LMIC, LMPICO, LMFIC, EICOW or SAM to a different domiciliary state. The authorized control level risk-based capital (as of December 31, 2025) and 2026 available dividend capacity prior to needing regulatory approval for LMIC, LMFIC, EICOW and SAM were as follows:

\$ in Millions	RBC Ratio¹		Dividend Capacity²	Dividends Paid³
	2025	2024	2026	2025
RBC Ratios and Dividend Capacity				
LMIC	542%	488%	\$2,907	\$65
LMFIC	460%	398%	\$233	\$15
EICOW	482%	413%	\$268	\$-
SAM	1,040%	3,247%	\$54	\$-

1 Authorized control level risk-based capital as defined by the NAIC.

2 Represents the estimated maximum allowable dividend without prior regulatory approval in the state of domicile.

- 3 Dividends paid represent amounts paid during the twelve months ended December 31, 2025. Available dividend capacity as of December 31, 2025 is calculated as 2026 dividend capacity less dividends paid for the preceding 12 months. Dividends paid January 1, 2025 through December 31, 2025 for LMIC, LMFIC, EICOW and SAM were \$65 million, \$15 million, zero and zero respectively.

LMGI also has access to the following sources of funding:

- An unsecured revolving credit facility of \$1 billion with an expiration date of April 18, 2027. To date, no funds have been borrowed under the facility.
- A management services agreement with LMIC pursuant to which LMGI is entitled to collect certain costs plus a management fee for services rendered by LMGI employees.
- Investment management agreements with affiliated entities pursuant to which an LMGI subsidiary investment advisor is entitled to recover annual expenses for investment management services performed by its employees.
- Liberty Corporate Services LLC (“LCS”), which through its subsidiaries collects fees and other revenues, primarily for claims administration, independent policy sales commissions, agency and IT services rendered for affiliated and non-affiliated entities. For the three and twelve months ended December 31, 2025, LCS recorded \$117 million and \$476 million, respectively, in pre-tax income.
- Approximately \$80 million of annual dividends related to non-redeemable perpetual preferred stock issuances by LMIC and LMFIC.

\$ in Millions	As of December 31, 2025	As of December 31, 2024
Total long-term debt	\$8,812	\$8,856

Total capital excluding accumulated other comprehensive income (loss) ¹	\$50,649	\$43,889
Debt-to-capital capitalization excluding accumulated other comprehensive income (loss) ¹	18.3%	21.2%
Statutory surplus	\$38,892	\$32,208

¹ Excludes unamortized discount and debt issuance costs

The total debt-to-capital capitalization ratio excluding accumulated other comprehensive loss is calculated by dividing (a) total debt excluding unamortized discount and debt issuance costs by (b) total capital excluding accumulated other comprehensive (loss) income. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company’s management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company’s financial leverage position. The Company’s ratio of debt-to-capital (excluding accumulated other comprehensive income (loss) of 18.3% at December 31, 2025 was within the Company’s target range.

REINSURANCE

Reinsurance Recoverables

The Company reported reinsurance recoverables of \$20.359 billion and \$19.212 billion at December 31, 2025 and December 31, 2024, respectively, net of allowance for credit losses of \$151 million and \$155 million, respectively. Included in these balances are \$1.350 billion and \$1.423 billion of paid recoverables and \$19.160 billion and \$17.944 billion of unpaid recoverables (including retroactive reinsurance), respectively.

The year-to-date \$1.147 billion increase in the reported reinsurance recoverables, net of allowance for doubtful accounts, primarily reflects increasing recoveries on inforce reinsurance protection for the casualty lines portfolios and cessions of catastrophe related loss activity on our core property catastrophe covers, driven by the impacts of the California Wildfires.

1 Reinsurance Groups are defined as all reinsurance subsidiaries owned by a common parent.

2 Gross recoverables are defined as paid and unpaid claims and claim adjustment expense including IBNR and before both bad debt reserve set aside for potential uncollectible reinsurance and consideration of collateral.

3 Collateral refers to letters of credit, trust accounts, and funds held against outstanding and potential future claims and claim adjustment expenses related to reinsurance recoverable balances.

4 Net recoverables are defined as the difference between the amount of gross recoverables and collateral held for each reinsurer at the ceding entity level. If the collateral held for a reinsurer at a ceding entity level is greater than the gross recoverable, net recoverables are reported as \$0.

Approximately 95% and 94% of the Company's reinsurance recoverable balance, net of collateral held and including voluntary and involuntary pools and associations, was from reinsurers rated A- or better from A.M. Best and Standard & Poor's, respectively, at December 31, 2025. Collateral held against outstanding gross reinsurance recoverable balances was \$14.432 billion at December 31, 2025.

The remaining 5% and 6% of the Company's net reinsurance recoverable balance is well diversified. No single reinsurer rated below A- or not rated by A.M. Best or Standard & Poor's accounts for more than 1% of GAAP equity. In addition, the average net reinsurance recoverable balance from individual reinsurers rated below A- or not rated by A.M. Best and Standard & Poor's was approximately \$1 million as of December 31, 2025.

The reinsurance recoverables from state mandated involuntary pools and associations primarily represent the Company's servicing carrier business. As a servicing carrier, the Company retains no direct underwriting risk but instead cedes 100% of the involuntary market premium and losses back to the pool. Payment of losses is shared by the pool participants in proportion to their pool participation. Reinsurer credit risk with respect to any such involuntary pool or association is a function of the creditworthiness of all the pool participants.

The Company's reinsurance recoverables from Nationwide Indemnity Company have been fully guaranteed by its parent, Nationwide Mutual Insurance Company, which has a financial strength rating of A+ from Standard & Poor's and A from A.M. Best.

Adverse Development Reinsurance

On November 5, 2019, LMIC entered into a reinsurance transaction with National Indemnity Company (“NICO”), a subsidiary of Berkshire Hathaway Inc, on a combined aggregate excess of loss agreement for certain US Retail Markets Small Commercial and Global Risk Solutions National Insurance workers compensation, commercial auto liability and general liability excluding umbrella and warranty liabilities. The first layer of the contract attaches at \$300 million below applicable held reserves at inception of \$8.342 billion of combined aggregate reserves. The second layer of the contract provides adverse development coverage for \$1.000 billion above a retention equal to \$8.742 billion. The contract includes a sublimit of \$100 million for certain general liability liabilities. At the closing of the NICO Casualty Reinsurance Transaction, but effective as of January 1, 2019, the Company ceded \$300 million of existing undiscounted liabilities, paid NICO total consideration of \$462 million and recorded a pre-tax loss of \$173 million. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2018 development for US Retail Markets Small Commercial and Global Risks Solutions National Insurance segment on: (1) certain workers compensation liabilities arising under policies on the books as of December 31, 2018 as respects injuries or accidents occurring after December 31, 2013 and prior to January 1, 2019; (2) commercial auto liabilities arising under policies on the books as of December 31, 2018 as respects injuries or accidents occurring prior to January 1, 2019; and (3) general liability excluding umbrella and warranty arising under policies as of December 31, 2018 as respects injuries or accidents occurring prior to January 1, 2019.

Since the NICO Casualty Reinsurance Transaction is accounted for as retroactive reinsurance in the Company’s GAAP Consolidated Financial Statements, to the extent there is unfavorable development of losses covered by this reinsurance, an additional reinsurance benefit is recognized in the Consolidated Statements of Operations until those benefits exceed the loss on the transaction. Reinsurance benefits will be deferred and are amortized into earnings over the period when underlying claims are settled.

As the aggregate development on the contract has exceeded the original pre-tax loss of \$173 million, deferred gains are now being recorded. The Company reported deferred gain amortization of \$25 million and \$21 million for the twelve months ended December 31, 2025 and December 31, 2024, respectively. As of December 31, 2025 and December 31, 2024, deferred gains were \$186 million and \$212 million. Limits remaining on the contract as of December 31, 2025 were \$517 million.

In conjunction with the Ironshore acquisition and effective May 1, 2017, the Company entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement providing coverage for substantially all of Ironshore’s reserves related to losses occurring prior to January 1, 2017. The first layer of the contract transfers \$400 million of held reserves at inception, for which the Company established reinsurance recoverables on the Consolidated Balance Sheet. The second layer of the contract provides adverse development coverage for 95% of \$500 million above a retention equal to \$3.006 billion, minus paid losses between January 1, 2017 and May 1, 2017, which retention approximates the total held reserves on the covered business on Ironshore’s opening balance sheet. The contract includes a sublimit of \$277 million for certain construction liability liabilities. The Company paid NICO consideration of \$550 million, including interest accrued at the time of the settlement. The contract is accounted for on a prospective basis. Limits remaining on the contracts in total, and for construction liability liabilities, respectively, were \$387 million and zero as of December 31, 2025.

On July 17, 2014, LMIC entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement for substantially all of the Company’s US workers compensation, asbestos and environmental liabilities, attaching at \$12.522 billion of combined aggregate reserves, with an aggregate limit of \$6.500 billion and sublimits of \$3.100 billion for asbestos and environmental liabilities and \$4.507 billion for certain workers compensation liabilities. At the closing of the NICO Reinsurance Transaction, but effective as of January 1, 2014, the Company ceded \$3.320 billion of existing undiscounted liabilities under this retroactive reinsurance agreement. NICO will provide \$3.180 billion of additional aggregate adverse development reinsurance. The Company paid NICO total consideration of \$3.046 billion and recorded a pre-tax loss of \$128 million. With respect to the ceded asbestos and environmental business, NICO has been given authority to handle claims, subject to the Company’s oversight and control. With respect to the ceded workers compensation business, the Company will continue to handle claims. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2013 development on: (1) asbestos and environmental liabilities arising under policies of insurance and reinsurance with effective dates prior to January 1, 2005; and (2) workers compensation liabilities arising out of policies on the books of the Company's former Commercial Insurance Strategic Business Unit as of December 31, 2013, as respects injuries or accidents occurring prior to January 1, 2014.

The Company reported the net position of the contract as a loss of \$793 million and zero as of December 31, 2025 and December 31, 2024, respectively. Limits remaining on the contract in total, and for asbestos and environmental liabilities, respectively, were \$4.042 billion and \$0 as of December 31, 2025.

Non Catastrophe Reinsurance

The Company purchases facultative and treaty reinsurance protection on a per risk, per policy, per loss and/or per occurrence basis. Treaty coverage is provided on a pro rata and excess of loss basis for portions of the Company's property, marine, terrorism, energy, third party motor, cyber, financial risk, surety, aviation and casualty lines portfolios.

Catastrophe Reinsurance

For 2025, the Company has property catastrophe reinsurance coverage for its domestic business and certain specialty operations including: 1) hurricanes and earthquake reinsurance covering a substantial portion of \$2.8 billion of loss in excess of \$1.0 billion of retained loss in the United States, Canada, and the Caribbean, excluding certain reinsurance exposures (the initial \$1.5 billion of this limit is largely available on an All Perils basis); 2) aggregate excess of loss coverage for \$500 million in excess of \$2.4 billion of losses, subject to a \$100 million per event deductible, covering all natural perils; 3) per occurrence excess of loss coverage targeting our reinsurance exposures; and 4) quota share reinsurance coverage. These programs are structured to meet the Company's established tolerances under its Enterprise Risk Management Program.

The Company purchases property catastrophe reinsurance coverage for the international property books to protect against international catastrophe events.

The Company purchases workers compensation catastrophe reinsurance, including coverage for its domestic commercial operations and certain specialty operations' US exposures. This program provides significant reinsurance protection in excess of \$100 million per occurrence retention, including coverage for terrorism events and/or losses for a single event at a single insured location in excess of \$75 million.

Catastrophe Bond Reinsurance

On December 18, 2025, the Company entered into two multi-year property catastrophe reinsurance agreements, effective January 1, 2026, with Mystic Re IV Ltd. ("Mystic IV"), a Bermuda domiciled reinsurer, to provide a total of \$150 million of reinsurance coverage for the Company and its affiliates for named storms, earthquakes, severe weather, and fire covering the US, Canada, and Caribbean. The reinsurance agreements are fully collateralized. Such collateral is provided by Mystic IV using proceeds from issuance of certain catastrophe bonds. Both of the reinsurance agreements provide per occurrence indemnity coverage for the aforementioned perils. The Company has not recorded any recoveries under this program.

On December 23, 2024, the Company entered into three multi-year property catastrophe reinsurance agreements, effective January 1, 2025, with Mystic IV, to provide a total of \$325 million of reinsurance coverage for the Company and its affiliates for named storms covering the US, Canada, and Caribbean, and earthquakes covering the US, Canada, and Caribbean. The reinsurance agreements are fully collateralized. Such collateral is provided by Mystic IV using proceeds from issuance of certain catastrophe bonds. Two of the reinsurance agreements provide per occurrence indemnity coverage (with Severe Weather and Fire excluded), and one of the reinsurance agreements provides annual aggregate indemnity coverage (inclusive of Severe Weather and Fire). The Company has not recorded any recoveries under this program.

On December 19, 2023, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2024, with Mystic IV, to provide a total of \$300 million of reinsurance coverage for the Company and its affiliates for named storms covering the US, Puerto Rico and US Virgin Islands, and earthquakes covering the US, Puerto Rico, US Virgin Islands and Canada. The reinsurance agreement is fully collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence coverage based on a weighted industry insured loss index. The Company has not recorded any recoveries under this program.

On December 16, 2022, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2023, with Mystic IV to provide a total of \$150 million of reinsurance coverage for the Company and its affiliates for named storms and earthquakes covering US, Caribbean, and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence indemnity coverage. The Company has not recorded any recoveries under this program.

Florida Hurricane Catastrophe Fund

The Company participates in the Florida Hurricane Catastrophe Fund (“FHCF”), a state-mandated catastrophe fund that provides reimbursement to insurers for a portion of their Florida hurricane losses. FHCF resources may be insufficient to meet the obligations of FHCF. Limits, premium and reimbursements from FHCF apply on a per company basis. If losses fall disproportionately on one insurance entity within the Company, recovery from FHCF could be less than anticipated. On June 1, 2025, the Company renewed coverage for 90% of approximately \$54 million excess of \$30 million. Recoveries from FHCF inure to the sole benefit of the Company. If the Company fails to recover as anticipated from FHCF there could be an adverse effect on the Company’s business, financial condition or results of operations.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company's principal estimates include (1) unpaid claims and claim adjustment expense reserves, (2) reinsurance recoverables and associated credit loss allowance, (3) fair value determination of the investment portfolio, (4) impairment assessments of goodwill and intangible assets, (5) deferred income tax valuation allowance, and (6) pension and postretirement benefit obligations.

While the amounts included in the Consolidated Financial Statements reflect management's best estimates and assumptions, these amounts ultimately could vary.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2024 Audited Consolidated Financial Statements and footnote 1 in the Company's December 31, 2025 Unaudited Consolidated Financial Statements.

Unpaid Claims and Claim Adjustment Expenses

Property and casualty insurance unpaid claims and claim adjustment expenses represent the Company's best estimate of amounts necessary to settle all outstanding claims, including claims that are incurred but not reported as of the reporting date. The Company's reserve projections are based primarily on detailed analysis of the facts in each case, experience with similar cases and various historical development patterns. Consideration is given to such historical patterns as field reserving trends and claims settlement practices, loss payments, pending levels of unpaid claims and product mix, as well as court decisions, economic conditions and public attitudes. All of these factors can affect the estimation of reserves.

Establishing loss reserves, including loss reserves for catastrophic events that have occurred, is an estimation process. Many factors can ultimately affect the final settlement of a claim and, therefore, the necessary reserve.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2024 Audited Consolidated Financial Statements and footnote 6 in the Company's December 31, 2025 Unaudited Consolidated Financial Statements.

Asbestos and Environmental

As a result of the significant uncertainty inherent in determining a company's asbestos and environmental liabilities and establishing related reserves, the amount of reserves required to adequately fund the Company's asbestos and environmental claims cannot be accurately estimated using conventional reserving methodologies based on historical data and trends. As a result, the use of conventional reserving methodologies frequently has to be supplemented by subjective considerations including managerial judgment. In that regard, the estimation of asbestos claims and associated liabilities and the analysis of environmental claims considered prevailing applicable law and certain inconsistencies of court decisions as to coverage, plaintiffs' expanded theories of liability, and the risks inherent in major litigation and other uncertainties. The Company believes that in future periods it is possible that the outcome of the continued uncertainties regarding asbestos and environmental related claims could result in an aggregate liability that differs from current reserves and would be covered under the NICO Reinsurance Transaction subject to treaty terms and conditions.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2024 Audited Consolidated Financial Statements and footnote 6 in the Company's December 31, 2025 Unaudited Consolidated Financial Statements.

Reinsurance Recoverables

Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured business. The Company evaluates and monitors the financial condition of its reinsurers under voluntary

reinsurance arrangements to minimize its exposure to significant losses from reinsurer insolvencies. The Company reports its reinsurance recoverables net of an allowance for credit losses. The allowance is based upon the Company's ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors, including information relating to past events, current conditions, and reasonable and supportable forecasts. The Company assesses allowance for credit losses by individual reinsurers and uses a probability-of-default method. Write-offs of reinsurance recoverable are recorded in the period in which they are deemed uncollectible and are recorded against allowance for credit losses. The establishment of reinsurance recoverables and the related allowance for credit losses is also an inherently uncertain process involving estimates. Changes in these estimates could result in additional charges to the accompanying Consolidated Statements of Operations.

Ceded transactions that transfer risk but are retroactive are included in reinsurance recoverables. The excess of estimated liabilities for claims and claim costs over the consideration paid net of experience adjustments is established as a deferred credit at inception. The deferred amounts are subsequently amortized using the effective interest method over the expected settlement period. The periodic amortization is reflected in the accompanying Consolidated Statements of Operations through benefits, claims and claim adjustment expenses. In transactions where the consideration paid exceeds the estimated liabilities for claims and claim costs a loss is recognized. If the adverse development net of experience adjustments exceeds the original loss, deferred gains are recorded. The deferred gains are subsequently recognized into earnings over the expected settlement period of the reserves.

For additional discussion, please refer to footnote 5 in the Company's December 31, 2024 Audited Consolidated Financial Statements and footnote 5 in the Company's December 31, 2025 Unaudited Consolidated Financial Statements.

Fair Value Determination

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach, which generally utilizes market transaction data for identical or similar instruments.

The hierarchy level assigned to each security in the Company's investments portfolio is based on the Company's assessment of the transparency and reliability of the inputs used in the valuation of each instrument at the measurement date. Securities are classified into three hierarchy levels: Level 1, Level 2 or Level 3.

Regarding fair value measurements, as of December 31, 2025, excluding other assets, the Company reflected \$11.102 billion (14.2%) as level 1 (quoted prices in active markets) primarily consisting of U.S. Treasuries and common equity securities. The majority of the Company's invested assets are reported as level 2 (quoted prices from other observable inputs). As of December 31, 2025, the Company reported \$63.372 billion (81.0%) as level 2, consisting primarily of fixed maturity securities. Finally, the Company reported \$3.782 billion (4.8%) as level 3 (unobservable inputs), primarily consisting of international and privately held securities for which a market price is not readily observable.

For additional discussion, please refer to footnote 10 in the Company's December 31, 2025 Audited Consolidated Financial Statements.

Impairment Losses on Investments

The Company reviews fixed maturity securities and other investments which include limited partnership and other equity method investments (primarily traditional private equity, natural resource and real estate) for impairment on a quarterly basis. (primarily traditional private equity, natural resource and real estate) for impairment on a quarterly basis. These investments are reviewed for both quantitative and qualitative considerations including, but not limited to: (a) the extent of the decline in fair value below book value, (b) the duration of the decline, (c) significant adverse changes in the financial condition or near term prospects of the investment or issuer, (d) significant change in the business climate or credit ratings of the issuer, (e) general market conditions and volatility, (f) industry factors, (g) the past impairment of the security holding or the issuer, and (h) impact of foreign exchange rates on foreign currency denominated securities.

In accordance with ASC 326, if the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the Company utilizes both qualitative and quantitative inputs to determine if a credit loss is expected.

The Company is required to review its natural resource and other equity method investments when facts and circumstances indicate that carrying values may not be recoverable. In performing a quarterly review, the fair value of the Company's investment is estimated using indicators including, but not limited to, market comparable and analyses, commodity prices, and discounted cash flows and a realized loss is recognized for the excess, if any, of the investment's carrying value over its estimated fair value.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2025 Audited Consolidated Financial Statements.

Impairment Assessments of Goodwill and Intangible Assets

Goodwill is tested for impairment at least annually using either a qualitative or a quantitative process. Election of the approach can be made at the reporting unit level. The reporting unit has the option to skip the qualitative test and move directly to completion of the quantitative process. As of December 31, 2025, the Company has two reporting units – USRM and GRS.

Indefinite-lived intangible assets held by the Company are reviewed for impairment on at least an annual basis using a qualitative process. The classification of the asset as indefinite-lived is reassessed, and an impairment is recognized if the carrying amount of the asset exceeds its fair value.

The Company recognized no goodwill or intangible impairments in 2025. In Q4 2024, the Safeco trade name intangible asset was reclassified from an indefinite-lived asset to a definite-lived asset, resulting in an impairment charge of (\$127).

For additional discussion, please refer to footnote 1 in the Company's December 31, 2025 Audited Consolidated Financial Statements.

Deferred Income Taxes

The income tax provision is calculated under the liability method of accounting. Deferred income tax assets and liabilities are recorded based upon the difference between the financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences are insurance loss reserves, unearned premiums, employee benefits, net unrealized gains and losses on investments, and deferred policy acquisition costs.

For additional discussion, please refer to footnote 8 in the Company's December 31, 2025 Audited Consolidated Financial Statements.

Pension and Postretirement Benefit Obligations

On an annual basis, the Company reviews the discount rate assumption used to determine the benefit obligations and the composition of various yield curves to ensure that the assumed discount rate reflects the Company's best estimate of the rate of return inherent in a portfolio of high-quality debt instruments that would provide the cash flows necessary to settle the Company's projected benefit payments.

The discount rate assumption used to determine the benefit obligations was based on a yield curve approach where the cash flows related to the benefit plans' liability stream were discounted at an interest rate specifically applicable to the timing of the cash flows. The service cost is calculated by discounting the future cash flows attributable to the current year of service using spot rates specifically applicable to the timing of the cash flows. Interest cost is determined by multiplying each benefit obligation cash flow by the spot rate applicable to that timing of the cash flow.

In choosing the expected long-term rate of return on plan assets, the Company's Retirement Committee considered the historical returns of equity and fixed income markets in conjunction with current economic and financial market conditions.
