## ***Management's Discussion & Analysis of Financial Condition and Results of Operations***

The following discussion highlights significant factors influencing results of operations and changes in financial position of Liberty Mutual Holding Company Inc., the parent corporation of the Liberty Mutual Insurance group of entities (the "Company" or "LMHC"), for the six months ended June 30, 2023 and 2022. This Management's Discussion & Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Company's December 31, 2022 Audited Consolidated Financial Statements and June 30, 2023 Unaudited Consolidated Financial Statements located on the Company's Investor Relations website at [www.libertymutualgroup.com/investors](http://www.libertymutualgroup.com/investors). The Company's discussions related to net income are presented in conformity with U.S. generally accepted accounting principles ("GAAP") on an after-tax basis. All other discussions are presented on a pre-tax GAAP basis, unless otherwise noted. Further, the Company notes that it may make material information regarding the Company available to the public, from time to time, via the Company's Investor Relations website at [www.libertymutualgroup.com/investors](http://www.libertymutualgroup.com/investors) (or any successor site).

## Cautionary Statement Regarding Forward Looking Statements

This report contains forward looking statements that are intended to enhance the reader's ability to assess the Company's future financial and business performance. Forward looking statements include, but are not limited to, statements that represent the Company's beliefs concerning future operations, strategies, financial results or other developments, and contain words and phrases such as "may," "expects," "should," "believes," "anticipates," "estimates," "intends" or similar expressions. Because these forward-looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond the Company's control or are subject to change, actual results could be materially different.

Some of the factors that could cause actual results to differ include, but are not limited to the following: the occurrence of catastrophic events (including terrorist acts, war or conflicts, civil unrest, hurricanes, hail, tornados, tsunamis, earthquakes, floods, snowfall and winter conditions); inadequacy of loss reserves; adverse developments involving asbestos, environmental or toxic tort claims and litigation; adverse developments in the cost, availability or ability to collect reinsurance; disruptions to the Company's relationships with its independent agents and brokers; financial disruption or a prolonged economic downturn; prolonged epidemic or pandemic in countries in which we operate; the performance of the Company's investment portfolios; a rise in interest rates; risks inherent in the Company's alternative investments in private limited partnerships ("LP"), limited liability companies ("LLC"), commercial mortgages and direct investments in natural resources; difficulty in valuing certain of the Company's investments; subjectivity in the determination of the amount of impairments taken on the Company's investments; unfavorable outcomes from litigation and other legal proceedings, including the effects of emerging claim and coverage issues and investigations by state and federal authorities; the Company's exposure to credit risk in certain of its business operations; the Company's inability to obtain price increases or maintain market share due to competition or otherwise; inadequacy of the Company's pricing models; changes to insurance laws and regulations; changes in the amount of statutory capital that the Company must hold to maintain its financial strength and credit ratings; regulatory restrictions on the Company's ability to change its methods of marketing and underwriting in certain areas; assessments for guaranty funds and mandatory pooling arrangements; a downgrade in the Company's claims-paying and financial strength ratings; the ability of the Company's subsidiaries to pay dividends to the Company; inflation, including inflation in medical costs and automobile and home repair costs; the cyclical nature of the property and casualty insurance industry; political, legal, operational and other risks faced by the Company's international business; potentially high severity losses involving the Company's surety products; loss or significant restriction on the Company's ability to use credit scoring in the pricing and underwriting of personal lines policies; inadequacy of the Company's controls to ensure compliance with legal and regulatory standards; changes in U.S. federal, foreign or state tax laws; risks arising out of the Company's securities lending program; the Company's utilization of information technology systems and its implementation of technology innovations; difficulties with technology or data security; insufficiency of the Company's business continuity plan in the event of a disaster; the Company's ability to successfully integrate operations, personnel and technology from its acquisitions; insufficiency of the Company's enterprise risk management models and modeling techniques; the Company's ability to identify and accurately assess complex and emerging risks, and changing climate conditions; and disruptions to the banking system.

The Company may also describe estimated impacts as a result of dispositions and acquisitions on the Company's financial results and condition, including to GAAP equity, which are deemed forward-looking statements and represent the Company's best estimates based on information available to us at this time. However, because these estimates involve making assumptions, including about future events, they are subject to business, economic and competitive uncertainties, many of which are beyond the Company's control, and are subject to change based on closing adjustments. Consequently, the actual impact on the Company's results could be materially different from those described herein. Some of the important factors that could cause actual results and outcomes to differ materially from those indicated in the forward-looking statements include, among others, the following: (i) the occurrence of any event, change, or other circumstances that could give rise to the termination of the signed transaction agreements; (ii) the inability of the parties to complete the proposed transaction, including due to failure to obtain certain regulatory approvals, or satisfy other conditions to closing the agreements; (iii) the possibility that the expected benefits of the sales are not realized when expected or at all; and (iv) any of the aforementioned risk factors listed in the above paragraphs that may also result in variability in possible outcomes.

The Company's forward-looking statements speak only as of the date of this report or as of the date they are made and should be regarded solely as the Company's current plans, estimates and beliefs. For a detailed discussion of

these and other cautionary statements, visit the Company's Investor Relations website at [www.libertymutualgroup.com/investors](http://www.libertymutualgroup.com/investors). The Company undertakes no obligation to update these forward-looking statements.

## EXECUTIVE SUMMARY

Underlying combined ratio <sup>1</sup>	93.5%	96.8%	(3.3)	94.0%	94.3%	(0.3)
Combined ratio <sup>2</sup>	109.4%	105.6%	3.8	106.5%	101.9%	4.6

1 The underlying combined ratio is computed as the combined ratio excluding the impact of catastrophes and prior accident year development. Catastrophes are defined as a natural catastrophe, civil unrest, terror event, war or conflict exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums. Net incurred losses attributable to prior years is defined as incurred losses attributable to prior years (including prior year losses related to catastrophes, prior year catastrophe reinstatement premium, and prior year commission expense) including earned premium attributable to prior years.

2 The combined ratio, expressed as a percentage, is a measure of underwriting profitability. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company's competitors. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company's involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and acquisition and integration costs are not included in the combined ratio.

### **Subsequent Events**

Management has assessed material subsequent events through August 9, 2023, the date the financial statements were available to be issued.

## CONSOLIDATED RESULTS OF OPERATIONS

The Company has identified consolidated pre-tax operating income (“PTOI”), and PTOI before limited partnerships income as non-GAAP financial measures. PTOI is defined by the Company as pre-tax income excluding net realized gains (losses), unit linked life insurance, loss on extinguishment of debt, discontinued operations, integration, other acquisition and restructuring related costs and cumulative effects of changes in accounting principles. Underlying PTOI is defined as PTOI excluding the impact of catastrophes and prior accident year development. Catastrophes are defined as a natural catastrophe, civil unrest, terror event, war or conflict exceeding \$25 million in estimated ultimate losses, net of reinsurance, and before taxes. Catastrophe losses, where applicable, include the impact of accelerated earned catastrophe premiums and earned reinstatement premiums. Net incurred losses attributable to prior years is defined as incurred losses attributable to prior years (including prior year losses related to catastrophes, prior year catastrophe reinstatement premium, and prior year commission expense) including earned premium attributable to prior years. PTOI before limited partnerships income is defined as PTOI excluding LP and LLC results recognized on the equity method and revenue and expenses from direct investments in natural resources. PTOI before limited partnerships income and PTOI are considered by the Company to be appropriate indicators of underwriting and operating results and are consistent with the way the Company internally evaluates performance. Net realized gains/(losses) and limited partnerships income results are significantly impacted by both discretionary and economic factors and are not necessarily indicative of operating results, and the timing and amount of integration, other acquisition and restructuring related costs and the extinguishment of debt are not connected to the management of the insurance and underwriting aspects of the Company’s business. Income taxes are impacted by permanent differences. References to Net Written Premium (“NWP”) represent the amount of premium recorded for policies issued during a fiscal period including audits, retrospectively rated premium related to loss sensitive policies, and assumed premium, less ceded premium. Assumed and ceded reinsurance premiums include premium adjustments for reinstatement of coverage when a loss has used some portion of the reinsurance provided, generally under catastrophe treaties (“reinstatement premium”), and changes in estimated premium. In addition, the majority of workers compensation premium is adjusted to the “booked as billed” method through the Corporate and Other segment. The Company believes that NWP is a performance measure useful to investors as it generally reflects current trends in the Company’s sale of its insurance products. The combined ratio is computed as the sum of the following property and casualty ratios: the ratio of claims and claim adjustment expense less managed care income to earned premium; the ratio of insurance operating costs plus amortization of deferred policy acquisition costs less third-party administration income and fee income (primarily related to the Company’s involuntary market servicing carrier operations) and installment charges to earned premium; and the ratio of policyholder dividends to earned premium. Provisions for uncollectible premium and reinsurance are not included in the combined ratio unless related to an asbestos and environmental commutation and certain other run off. Restructuring and acquisition and integration costs are not included in the combined ratio. The combined ratio, expressed as a percentage, is a measure of underwriting profitability. The underlying combined ratio is computed as the combined ratio excluding the impact of catastrophes and prior accident year development. This measure should only be used in conjunction with, and not in lieu of, underwriting income and may not be comparable to other performance measures used by the Company’s competitors.

The Company’s discussions related to net income are presented on an after-tax GAAP basis. All other discussions are presented on a pre-tax GAAP basis, unless otherwise noted.

On June 15, 2023, \$547 million of LMGI 4.25% Notes were paid at maturity.

On December 2, 2022, Liberty Mutual Group, Inc. (“LMGI”) issued €500 million of Senior Notes, due 2030 (“the 2030 Notes”). Interest is payable annually at a fixed rate of 4.625%. The 2030 Notes mature on December 2, 2030.

On July 28, 2022, the Company completed its acquisition of Malaysian insurer AmGeneral. Liberty Insurance Berhad acquired 100% shares of AmGeneral, and AmBank Group’s share of the sale proceeds were in the form of cash and consideration shares, which resulted in AmBank Group retaining a 30% interest in the Liberty Insurance Berhad and AmGeneral businesses. On March 31, 2023, the AmGeneral and Liberty Insurance Berhad operations were formally merged.

On June 6, 2022, LMGI issued \$1.000 billion of Senior Notes, due 2052 (the “2052 Notes”). Interest is payable semi-annually at a fixed rate of 5.50%. The 2052 Notes mature on June 15, 2052.

On May 2, 2022, \$473 million of LMGI 4.95% Notes were paid at maturity.

On March 1, 2022, the Company completed its merger with State Automobile Mutual Insurance Company (“SAM”), a super-regional insurance company headquartered in Columbus, Ohio. Under the terms of the agreement, members of SAM became mutual members of the Company. The Company acquired all of the publicly held shares of common stock of SAM’s subsidiary, State Auto Financial Corporation (“STFC”), for \$52 per share in cash, totaling approximately \$980 million. Direct costs related to the acquisition were expensed as incurred. Integration and acquisition costs principally consisting of non-recurring banking, legal, tax and accounting services, retention and severance costs are reflected separately on the Consolidated Statements of Operations. Financial results post acquisition date are included in the MD&A and Unaudited Consolidated Financial Statements.

The Company’s two businesses are as follows:

- Global Retail Markets (“GRM”) combines the Company’s local expertise in growth markets outside the U.S. with strong and scalable U.S. capabilities in order to take advantage of opportunities to grow its business globally. Global Retail Markets is organized into the following segments: U.S., East, and Global Retail Markets Other.
- Global Risk Solutions (“GRS”) offers a wide array of property, casualty, specialty and reinsurance products distributed through brokers and independent agents globally. Global Risk Solutions is organized into the following market segments: Liberty Specialty Markets, Liberty Mutual Reinsurance, North America, Global Surety, and Other Global Risk Solutions.

On June 15, 2023, the Company announced the sale of the Liberty Seguros operations known as WEM (Ireland, Northern Ireland, Portugal and Spain), the personal lines and small commercial insurance business headquartered in Madrid, Spain to Assicurazioni Generali S.P.A..

On May 27, 2023, the Company announced the sale of the personal and small commercials business of Liberty Seguros in Brazil and Andes MCM (Chile, Colombia, and Ecuador) to HDI International (of the Talanx Group). This includes the GRS Liberty Specialty Markets direct insurance business operations.

The Company expects to close on all transactions by the second quarter of 2024, pending regulatory approvals and other customary closing conditions. The results of the businesses held for sale are presented as discontinued operations in the accompanying Consolidated Statements of Operations and are no longer included within the financial results of GRM, GRS or Investments. Former GRM West operations remaining with the Company after the sale (primarily Hughes and Surety) have been combined with the GRM reinsurance business into a new subsegment named GRM Other in the MD&A. The prior periods have been restated to reflect this change.

The aforementioned agreements for the sale of our Latin American and Western European retail businesses are expected to generate proceeds of approximately \$4 billion. Upon close of the three transactions, the Company expects to realize approximately a \$300 million net realized gain and an estimated \$1.1 billion increase to GAAP equity.

Refer back to the additional risk factors that may impact the Company’s financial results and condition are discussed in the section entitled “Cautionary Statement Regarding Forward Looking Statements”. We undertake no obligation to update the estimated impact of these transactions after the date hereof. The Company does not obligate itself generally to make any other forward-looking statements in the future.

NWP for the three months ended June 30, 2023 was \$11.836 billion, an increase of \$15 million over the same period in 2022.

Significant changes by major line of business for the three months ended June 30, 2023 include:

- Private passenger automobile NWP decreased \$179 million. The decrease reflects targeted actions in U.S. personal lines and U.S. business lines to reduce new business growth to address unfavorable severity and frequency trends.
- Homeowners NWP increased \$18 million. The increase reflects an increase in average written premium due to rate actions to offset rising personal lines severity and frequency trends.
- Global Risk Solutions specialty insurance NWP increased \$99 million. The increase reflects renewal rate increases.
- Global Risk Solutions casualty NWP decreased \$135 million. The decrease reflects lower premium from de-risking of the portfolio in unprofitable and economically challenging products.

- Global Risk Solutions other reinsurance NWP decreased \$62 million. The decrease reflects an increase in reinsurance costs and more coverage being purchased.

NWP for the six months ended June 30, 2023 was \$22.992 billion, an increase of \$225 million over the same period in 2022.

Significant changes by major line of business for the six months ended June 30, 2023 include:

- Private passenger automobile NWP decreased \$244 million. The decrease reflects higher ceded net written premium and targeted actions to reduce new business growth to address unfavorable severity and frequency trends.
- Homeowners NWP increased \$179 million. The increase reflects an increase in average written premium due to rate actions to offset rising personal lines severity and frequency trends and the acquisition of SAM.
- Global Risk Solutions reinsurance NWP increased \$318 million. The increase reflects renewal rate increases.
- Commercial automobile NWP increased \$143 million. The increase reflects the acquisition of SAM and renewal rate increases.
- Global Risk Solutions casualty NWP decreased \$261 million. The decrease reflects lower premium from de-risking of the portfolio in unprofitable and economically challenging products.
- Global Risk Solutions other reinsurance NWP decreased \$265 million. The decrease reflects higher cessions due to higher volume on direct written business, increase in reinsurance costs and more coverage being purchased.

## Second Quarter Results:

Pre-tax operating (loss) income before limited partnerships income for the three months ended June 30, 2023 was (\$610) million, an increase of \$295 million over the same period in 2022. Underlying pre-tax operating income before limited partnerships income was \$1.197 billion, an increase of \$549 million over the same period in 2022. The acquisition of AmGeneral on July 28, 2022 resulted in three months of additional loss exposure, earned premium, and expenses in East compared to the same period last year. The increase in underlying pre-tax operating income primarily reflects:

- Higher net investment income.
- Higher average written premium from rate actions to offset rising personal lines frequency and severity trends.

Partially offset by:

- Higher employee related costs.
- Unfavorable foreign exchange in Global Risk Solutions.
- Elevated non-catastrophe losses in the U.S. driven by personal auto due to increased severity and frequency and personal property due to higher severity in Global Retail Markets.

Including the impact of catastrophes, net incurred losses attributable to prior years, and current year re-estimation, the increase in pre-tax operating loss before limited partnerships income primarily reflects:

- Higher-than-expected catastrophe losses primarily in the U.S. driven by several hail-related events that resulted in significantly elevated severity in Q2 2023 versus Q2 2022.
- Higher current accident year re-estimation from adverse development on long-tail lines, primarily in U.S. personal lines.
- Lower limited partnerships income.

Partially offset by:

- The changes to underlying PTOI mentioned above.
- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed primarily in Global Retail Markets.
- Favorable prior accident year activity due to releases in Q2 2023 vs strengthening in Q2 2022 in Global Risk Solutions.

Limited partnerships income, including operating income from direct investments in natural resources, for the three months ended June 30, 2023 was \$107 million, a decrease of \$361 million from the same period in 2022. The decrease primarily reflects:

- Less favorable valuations across the limited partnership investments, primarily driven by private capital and energy investments.

Revenues for the three months ended June 30, 2023 were \$12.354 billion, an increase of \$774 million over the same period in 2022. The major components of revenues are net premium earned, net investment income, net realized gains (losses), and fee and other revenues.

Net premium earned for the three months ended June 30, 2023 was \$11.351 billion, an increase of \$320 million over the same period in 2022. The increase primarily reflects the premium earned associated with the changes in NWP previously discussed.

Net investment income for the three months ended June 30, 2023 was \$797 million, a decrease of \$141 million from the same period in 2022. The decrease primarily reflects:

- Less favorable valuations across the limited partnership investments, primarily driven by private capital investments.
- Partially offset by an increase in taxable interest income.

Net realized losses for the three months ended June 30, 2023 were \$63 million, a decrease of \$520 million from the same period in 2022. The net realized losses in the current quarter primarily reflects:

- \$86 million of net losses on fixed maturity sales.
- \$26 million of net change in unrealized losses on energy holdings.

Partially offsetting losses was:

- \$56 million net gain on real estate.

The prior period was impacted by:

- \$324 million net change in equity unrealized losses.
- \$77 million of net losses on equity sales.
- \$182 million of net change in unrealized losses on energy holdings.

Fee and other revenues for the three months ended June 30, 2023 were \$269 million, an increase of \$75 million over the same period in 2022.

Claims, benefits and expenses for the three months ended June 30, 2023 were \$12.920 billion, an increase of \$912 billion over the same period in 2022. The increase primarily reflects:

- Higher-than-expected catastrophe losses primarily in the U.S. driven by elevated severity and frequency of events in Q2 2023 versus Q2 2022.
- Higher U.S. personal lines non-catastrophe losses driven by elevated frequency and severity trends.
- Higher employee related costs.

Partially offset by:

- Lower advertising spend as we take actions to limit new business production in Global Retail Markets.
- Favorable prior year accident year activity.
- Favorable current year loss activity in Global Risk Solutions.
- Lower commissions.

Income tax (benefit) on continuing operations for the three months ended June 30, 2023, was (\$150) million, versus (\$100) million for the same period in 2022. The Company's effective tax rate for the three months ended June 30, 2023, was 24% compared to 21% for the same period in 2022. The increase in the effective tax rate, representative of a tax benefit on a pre-tax loss for both periods, primarily reflects:

- The impact of non-U.S. operations, partially offset by tax-exempt investment income.

Discontinued operations, net of tax, for the three months ended June 30, 2023 were (\$115) million, versus \$32 million for the same period in 2022.

Net (loss) income attributable to LMHC for the three months ended June 30, 2023 was (\$585) million, an increase of \$242 million over the same period in 2022.

Cash flow provided by continuing operations for the three months ended June 30, 2023 was \$444 million, a decrease of \$559 million from the same period in 2022. The decrease reflects reinsurance payments, unfavorable paid loss activity and premium collections, partially offset by expenses paid.

#### Year-to-date Results:

Pre-tax operating (loss) income before limited partnerships income for the six months ended June 30, 2023 was (\$698) million, versus \$63 million for the same period in 2022. Underlying pre-tax operating income before limited partnerships income was \$2.125 billion, an increase of \$433 million over the same period in 2022. The acquisition of SAM on March 1, 2022 resulted in two additional months of non-catastrophe loss exposure, earned premium, and expenses for U.S. personal lines and U.S. business lines in 2023 compared to the same period last year. Additionally, the acquisition of AmGeneral on July 28, 2022 resulted in six months of additional loss exposure, earned premium, and expenses in East compared to the same period last year. The increase in underlying pre-tax operating income primarily reflects:

- Higher net investment income.
- Higher average written premium from rate actions to offset rising personal lines frequency and severity trends.

Partially offset by:

- Higher employee related costs.
- Elevated non-catastrophe losses in the U.S. driven by personal auto due to increased severity and frequency and personal property due to higher severity in Global Retail Markets.

Including the impact of catastrophes, net incurred losses attributable to prior years, the decrease in pre-tax operating income before limited partnerships income primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in the first half of 2023.
- Additional catastrophe loss exposure from the previously mentioned SAM acquisition.
- Lower limited partnerships income.

Partially offset by:

- The changes to underlying PTOI mentioned above.
- Favorable net incurred losses attributed to prior years driven by US catastrophe losses that have favorably developed.
- Favorable prior accident year activity due to releases in 2023 vs strengthening in 2022 in Global Risk Solutions.

Limited partnerships income, including operating income from direct investments in natural resources, for the six months ended June 30, 2023 was \$23 million, a decrease of \$809 million from the same period in 2022. The decrease primarily reflects:

- Less favorable valuations across the limited partnership investments, primarily driven by private capital and energy investments.

Revenues for the six months ended June 30, 2023 were \$24.281 billion, an increase of \$1.482 billion over the same period in 2022. The major components of revenues are net premium earned, net investment income, net realized gains (losses), and fee and other revenues.

Net premium earned for the six months ended June 30, 2023 was \$22.529 billion, an increase of \$1.195 billion over the same period in 2022. The increase primarily reflects the premium earned associated with the changes in NWP previously discussed.

Net investment income for the six months ended June 30, 2023 was \$1.381 billion, a decrease of \$340 million from the same period in 2022. The decrease primarily reflects:

- Less favorable valuations across the limited partnership investments, primarily driven by private capital investments.
- Partially offset by an increase in taxable interest income.

Net realized losses for the six months ended June 30, 2023 were \$112 million, a decrease of \$561 million from the same period in 2022. The net realized losses in the current period primarily reflect:

- \$123 million net losses on fixed maturities.
- \$12 million impairments on fixed maturity holdings.

Partially offsetting losses were:

- \$30 million net gains on derivatives.

The prior period was impacted by:

- \$482 million net change in equity unrealized losses.
- \$180 million of net losses on fixed maturity sales.

Fee and other revenues for the six months ended June 30, 2023 were \$483 million, an increase of \$66 million over the same period in 2022.

Claims, benefits and expenses for the six months ended June 30, 2023 were \$25.068 billion, an increase of \$2.491 billion over the same period in 2022. The increase primarily reflects:

- Additional claims, benefits, and expenses from the previously mentioned acquisitions of SAM and AmGeneral.
- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in Q2 2023 versus Q2 2022.
- Higher U.S. personal lines non-catastrophe losses driven by elevated frequency and severity trends.
- Higher employee related costs.

Partially offset by:

- Lower advertising spend as we take actions to limit new business production in Global Retail Markets.
- Favorable prior year accident year activity.
- Favorable current year loss activity in Global Risk Solutions.
- Lower commissions.

Income tax (benefit) expense on continuing operations for the six months ended June 30, 2023, was (\$200) million, versus \$49 million for the same period in 2022. The Company's effective tax rate for the six months ended June 30, 2023, was 24% compared to 29% for the same period in 2022. The decrease in the effective tax rate primarily reflects:

- The tax impact of permanent book-to-tax differences and non-U.S. operations as compared to the pre-tax income (loss) in the relevant period.

Discontinued operations, net of tax, for the six months ended June 30, 2023 were \$2 million, a decrease of \$36 million over the same period in 2022.

Net (loss) income attributable to LMHC for the six months ended June 30, 2023 was (\$660) million, versus income of \$155 million for the same period in 2022.

Cash flow provided by continuing operations for the six months ended June 30, 2023 was \$424 million, a decrease of \$1.309 billion from the same period in 2022. The decrease reflects reinsurance payments, unfavorable paid loss activity and premium collections, partially offset by expenses paid.

#### Second Quarter Results:

The consolidated underlying combined ratio for the three months ended June 30, 2023 was 93.5%, a decrease of 3.3 points from the same period in 2022. The decrease primarily reflects:

- Decrease in claims and claim adjustment expense ratio primarily driven by earned premium growth from rate actions and a decrease in small catastrophe losses compared to the same period in 2022 in Global Retail Markets.
- Lower commissions in Global Risk Solutions.

Partially offset by:

- Higher expenses due to an increase in employee related costs.

Including the impact of catastrophes, net incurred losses attributable to prior years, and current year re-estimation, the total combined ratio for the three months ended June 30, 2023 was 109.4%, an increase of 3.8 points over the same period in 2022. The increase primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity of events in Q2 2023 versus Q2 2022.
- Higher current accident year re-estimation from adverse development on long-tail lines, primarily in U.S. personal lines.

Partially offset by:

- Previously mentioned decrease in underlying combined ratio.
- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed in Global Retail Markets.
- Favorable prior accident year activity due to releases in Q2 2023 vs strengthening in Q2 2022 in Global Risk Solutions.

#### Year-to-date Results:

The consolidated underlying combined ratio for the six months ended June 30, 2023 was 94.0%, a decrease of 0.3 points from the same period in 2022. The decrease primarily reflects:

- Decrease in claims and claim adjustment expense ratio primarily driven by earned premium growth from rate driven actions in Global Retail Markets.
- Decrease in the underwriting expense ratio driven by scale benefits of earned rate actions and reduced advertising spend in Global Retail Markets.
- Lower commissions.

Partially offset by:

- Higher expenses due to an increase in employee related costs.

Including the impact of catastrophes, net incurred losses attributable to prior years, the total combined ratio for the six months ended June 30, 2023 was 106.5%, an increase of 4.6 points over the same period in 2022. The increase primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in the first half of 2023.

Partially offset by:

- Previously mentioned decrease in underlying combined ratio.
- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed in Global Retail Markets.
- Favorable prior accident year activity due to releases in 2023 vs strengthening in 2022 in Global Risk Solutions.

## GLOBAL RETAIL MARKETS

### *Overview – Global Retail Markets*

Global Retail Markets combines the Company’s local expertise in growth markets outside the U.S. with strong and scalable U.S. capabilities to take advantage of opportunities to grow its business globally. Global Retail Markets is comprised of three segments: U.S., East, and GRM Other.

U.S. consists of Personal Lines and Business Lines. U.S. Personal Lines sells automobile, homeowners and other types of property and casualty insurance coverage to individuals in the United States. These products are distributed through approximately 1,600 licensed employee Comparison agents, 830 licensed telesales counselors, independent agents, third-party producers, online, and sponsored affinity groups. U.S. Business Lines serves small commercial customers through an operating model that combines local underwriting, market knowledge and service with the scale advantages of a national company. Starting in March 2022, U.S. began including U.S. Personal and Business Lines coverages sold under our newly acquired SAM brand.

East sells property and casualty, health and life insurance products and services to individuals and businesses in the Asia Market (Thailand, Singapore, Hong Kong, Vietnam), Malaysia, India, and China. Private passenger automobile insurance is the single largest line of business. Starting in July 2022, Malaysia began including the coverages sold under our newly acquired AmGeneral brand.

Global Retail Markets Other consists of certain internal reinsurance programs and remaining GRM West activity (Hughes Insurance Services Limited (“Hughes”), Surety and some stranded costs).

On March 1, 2022, the Company completed the acquisition of SAM, a super-regional insurance holding company headquartered in Columbus, Ohio.

On July 28, 2022, the Company completed its acquisition of Malaysian insurer AmGeneral. Liberty Insurance Berhad acquired 100% shares of AmGeneral, and AmBank Group’s share of the sale proceeds were in the form of cash and consideration shares, which resulted in AmBank Group holding a 30% interest in the Liberty Insurance Berhad and AmGeneral businesses. On March 31, 2023, the AmGeneral and Liberty Insurance Berhad operations were formally merged.

#### Second Quarter Results:

NWP for the three months ended June 30, 2023 was \$8.176 billion, an increase of \$14 million over the same period in 2022. The increase primarily reflects:

- The acquisition of AmGeneral on July 28, 2022 resulted in three months of additional production in East compared to the same period last year.

Partially offset by:

- Targeted actions in U.S. personal lines and U.S. business lines to reduce new business growth to address unfavorable severity and frequency trends.

#### Year-to-date Results:

NWP for the six months ended June 30, 2023 was \$15.550 billion, an increase of \$293 million over the same period in 2022. The acquisition of SAM on March 1, 2022 resulted in two additional months of topline production for U.S. personal lines and U.S. business lines in 2023 compared to the same period last year. Additionally, the acquisition of AmGeneral on July 28, 2022 provided six months of additional production in East compared to the same period last year. The remaining increase primarily reflects:

- The East region driven by favorable results in India over the same period last year.

Partially offset by

- Increased ceded net written premium in U.S. personal lines.
- Targeted actions in U.S. personal lines and U.S. business lines to reduce new business growth to address unfavorable severity and frequency trends.

#### Second Quarter Results:

Pre-tax operating (loss) income for the three months ended June 30, 2023 was (\$1.000) billion, an increase of \$331 million over the same period in 2022. Underlying pre-tax operating income was \$663 million, an increase of \$425 million over the same period in 2022. The acquisition of AmGeneral on July 28, 2022 resulted in three months of additional loss exposure, earned premium, and expenses in East compared to the same period last year. The remaining change in underlying pre-tax operating income primarily reflects:

- Higher earned premium driven by increased average written premium from rate actions to offset rising personal lines frequency and severity trends.

Partially offset by:

- Elevated non-catastrophe losses in the U.S. driven by personal auto due to increased severity and frequency and personal property due to higher severity.

Including the impact of catastrophes, net incurred losses attributable to prior years, and current accident year re-estimation, the decrease in pre-tax operating (loss) income primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by several hail-related events that resulted in significantly elevated severity in Q2 2023 versus Q2 2022.
- Higher current accident year re-estimation from adverse development on long-tail lines, primarily in U.S. personal lines.

Partially offset by:

- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed.

Revenues for the three months ended June 30, 2023 were \$8.129 billion, an increase of \$338 million over the same period in 2022. The increase primarily reflects:

- Higher earned premium in U.S. driven by increases in average written premium to offset adverse loss trends.
- Higher net investment income than the same period last year.

Claims, benefits, and expenses for the three months ended June 30, 2023 were \$9.081 billion, an increase of \$634 million over the same period in 2022. The increase primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in Q2 2023 versus Q2 2022.
- Higher U.S. personal lines non-catastrophe losses driven by elevated frequency and severity trends.

Partially offset by:

- Lower advertising spend as we take actions to limit new business production.

#### Year-to-date Results:

Pre-tax operating loss for the six months ended June 30, 2023 was (\$1.371) billion versus (\$413) million for the same period in 2022. Underlying pre-tax operating (loss) income was \$1.054 billion, an increase of \$202 million over the same period in 2022. The acquisition of SAM on March 1, 2022 resulted in two additional months of non-catastrophe loss exposure, earned premium, and expenses for U.S. personal lines and U.S. business lines in 2023 compared to the same period last year. Additionally, the acquisition of AmGeneral on July 28, 2022 resulted in two full quarters of additional loss exposure, earned premium, and expenses in East compared to the same period last year.

The remaining change in underlying pre-tax operating income primarily reflects:

- Higher average written premium from rate actions to offset rising personal lines frequency and severity trends.

Partially offset by:

- Elevated non-catastrophe losses in the U.S. driven by personal auto due to increased severity and frequency and personal property due to higher severity.

Including the impact of catastrophes and net incurred losses attributable to prior years, the decrease in pre-tax operating (loss) income primarily reflects:

- Higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in the first half of 2023.
- Additional catastrophe loss exposure from the previously mentioned SAM acquisition.

Partially offset by:

- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed.

Revenues for the six months ended June 30, 2023 were \$16.112 billion, an increase of \$1.162 billion over the same period in 2022. The increase primarily reflects:

- Additional earned premium from the previously mentioned acquisitions of SAM and AmGeneral.
- Higher earned premium due to the rate actions previously discussed.
- Higher net investment income than the same period last year.

Claims, benefits, and expenses for the six months ended June 30, 2023 were \$17.435 billion, an increase of \$2.103 billion over the same period in 2022. The increase primarily reflects:

- Additional claims, benefits, and expenses from the previously mentioned acquisitions of SAM and AmGeneral.
- Previously mentioned higher-than-expected catastrophe losses in the U.S. driven by elevated severity and frequency of events in the first half of 2023.
- Higher U.S. personal lines non-catastrophe losses driven by elevated frequency and severity trends.

Partially offset by:

- Lower advertising spend as we take actions to limit new business production.

Second Quarter Results:

The Global Retail Markets underlying combined ratio for the three months ended June 30, 2023 was 92.5%, a decrease of 4.7 points from the same period in 2022. This decrease primarily reflects:

- Decrease in claims and claim adjustment expense ratio primarily driven primarily by earned premium growth from rate driven actions and a decrease in small catastrophe losses compared to the same period in 2022.

Including the impact of catastrophes, net incurred losses attributable to prior years, and current accident year re-estimation, the total combined ratio for the three months ended June 30, 2023 was 113.9%, an increase of 4.6 points over the same period in 2022. The increase primarily reflects:

- Previously mentioned unfavorable catastrophe losses driven by elevated severity of events in Q2 2023 versus Q2 2022.
- Higher current accident year re-estimation from adverse development on long-tail lines, primarily in U.S. personal lines.

Partially offset by:

- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed.
- Previously mentioned decrease in the underlying combined ratio.

Year-to-date Results:

The Global Retail Markets underlying combined ratio for the six months ended June 30, 2023 was 94.2%, a decrease of 0.4 points from the same period in 2022. The decrease primarily reflects:

- Decrease in claims and claim adjustment expense ratio primarily driven by earned premium growth from rate driven actions.
- Decrease in the underwriting expense ratio driven by scale benefits of earned rate actions and reduced advertising spend.

Including the impact of catastrophes, net incurred losses attributable to prior years, the total combined ratio for the six months ended June 30, 2023 was 109.9%, an increase of 6.5 points over the same period in 2022. The increase primarily reflects:

- Previously mentioned unfavorable catastrophe losses driven by elevated severity and frequency of events in the first half of 2023.

Partially offset by:

- Favorable net incurred losses attributed to prior years driven by prior US catastrophe losses that have favorably developed.
- Previously mentioned decrease in the underlying combined ratio.

## GLOBAL RISK SOLUTIONS

### *Overview – Global Risk Solutions*

Global Risk Solutions (“GRS”) offers a wide array of property, casualty, specialty and reinsurance products and services distributed through brokers and independent agents globally. The segments for Global Risk Solutions are as follows:

- Liberty Specialty Markets (“LSM”) – Includes most Global Risk Solutions business outside of North America excluding Liberty Mutual Reinsurance.
- Liberty Mutual Reinsurance (“LM Re”) - Sells insurance for (Re)/insurers to transfer risk away from (Re)/insurance companies.
- North America (“NA”) – North America includes admitted and non-admitted property and casualty.
- Global Surety – A global leader providing surety guarantees to businesses ranging from multinational to local in most industry segments.
- Other Global Risk Solutions primarily consists of internal reinsurance programs, Ironshore international entities and a large global inland marine program.

Effective July 1, 2022, LM Re became a fourth segment of GRS, alongside NA, LSM and Global Surety. Previously, the business was embedded within LSM. LM Re will allow GRS to capitalize on the relative value and capital optimization between insurance and reinsurance, and strategically increase our reinsurance profile.

#### Second Quarter Results:

NWP for the three months ended June 30, 2023, was \$3.707 billion, an increase of \$18 million over the same period in 2022.

The increase primarily reflects:

- Renewal rate increases across most lines of business, totaling 9.4%
- Growth in lines with inflation-sensitive exposure bases
- Project based business impacting surety lines

Partially offset by:

- Higher cessions due to increase in reinsurance costs and more coverage being purchased
- De-risking of the portfolio in unprofitable and economically challenging products
- Lower new business premium

Additionally, internal reinsurance changes in 2023 created offsetting differences amongst segments and lines.

#### Year-to-date Results:

NWP for the six months ended June 30, 2023, was \$7.497 billion, a decrease of \$121 million from the same period in 2022.

The decrease primarily reflects:

- Higher cessions due to higher volume on direct written business, increase in reinsurance costs and more coverage being purchased
- De-risking of the portfolio in unprofitable and economically challenging products
- Unfavorable foreign exchange due to strengthening of the U.S. dollar
- Lower new business premium

Partially offset by:

- Renewal rate increases across most lines of business, totaling 10.5%
- Growth in lines with inflation-sensitive exposure bases
- Project based business impacting surety lines

Additionally, internal reinsurance changes in 2023 created offsetting differences amongst segments and lines.

### Second Quarter Results:

Pre-tax operating income for the three months ended June 30, 2023 was \$359 million, a decrease of \$55 million from the same period in 2022. Underlying pre-tax operating income for the three months ended June 30, 2023 was \$518 million, a decrease of \$3 million from the same period in 2022. The decrease in underlying pre-tax operating income primarily reflects:

- Higher expenses due to an increase in employee related costs
- Unfavorable foreign exchange

Partially offset by:

- Profit margin on higher earned premium
- Higher net investment income
- Favorable current year loss activity
- Lower commissions

Including the impact of catastrophes and net incurred losses attributable to prior years, the change in pre-tax operating income primarily reflects:

- The changes to underlying PTOI mentioned above
- Higher current year catastrophe losses due to unfavorable catastrophe loss development on events occurring earlier in the year and several U.S. severe storms

Partially offset by:

- Favorable prior accident year activity due to releases in Q2 2023 vs strengthening in Q2 2022

Revenues for the three months ended June 30, 2023 were \$3.930 billion, an increase of \$58 million over the same period in 2022. The increase primarily reflects:

Underlying pre-tax operating income for the six months ended June 30, 2023 was \$1.071 billion, an increase of \$9 million over the same period in 2022. The increase in underlying pre-tax operating income primarily reflects:

- Profit margin on higher earned premium
- Favorable current year loss activity
- Higher net investment income
- Lower commissions

Partially offset by:

- Higher expenses due to an increase in employee related costs
- Unfavorable foreign exchange
- A worker's compensation surplus refund from the state of Minnesota in 2022 that did not recur

Including the impact of catastrophes and net incurred losses attributable to prior years, the change in pre-tax operating income primarily reflects:

- Favorable prior accident year activity due to releases in 2023 vs strengthening in 2022
- The changes to underlying PTOI mentioned above

Partially offset by:

- Higher current year catastrophe losses

Revenues for the six months ended June 30, 2023 were \$7.796 billion, an increase of \$151 million over the same period in 2022. The increase primarily reflects:

- Higher premium earned due to growth in the second half of last year
- Earnings from prior year writings on multi-year policies
- Higher net investment income

Claims, benefits and expenses for the six months ended June 30, 2023 were \$7.173 billion, an increase of \$143 million over the same period in 2022. The increase primarily reflects:

## CORPORATE AND OTHER

### *Overview – Corporate and Other*

Corporate and Other includes the following significant items:

- Certain internal discontinued operations, which comprises: the run-off of certain commercial lines business, the run-off of the California workers compensation business of Golden Eagle Insurance Corporation and certain distribution channels related to Prudential Property and Casualty Insurance Company, Prudential General Insurance Company and Prudential Commercial Insurance Company (together, “PruPac”) and Liberty Re annuity business.
- Cessions related to certain retroactive reinsurance agreements, including the NICO Reinsurance Transaction and NICO Casualty Reinsurance Transaction, which are described further in “Reinsurance”.
- Effective January 1, 2015, Corporate began assuming certain pre-2014 voluntary and involuntary workers compensation claims from the businesses. The covered business materially aligns with the workers compensation business covered by the retroactive reinsurance agreement defined as the NICO Reinsurance Transaction, which is described further in “Reinsurance”.
- Effective January 1, 2019, Corporate began assuming certain U.S. workers compensation, commercial auto, and general liability claims from the businesses. The covered business materially aligns with the casualty business covered by the retroactive reinsurance agreement defined as the NICO Casualty Reinsurance Transaction, which is described further in “Reinsurance,” with two notable differences: 1) the internal treaty attaches at held reserves at inception and does not include a loss corridor, and 2) the internal treaty includes umbrella claims related to Business Lines within Global Retail Markets.
- Effective September 30, 2020, Corporate began assuming certain pre-2018 construction defect liabilities from Global Risk Solutions.
- Reserve changes on certain other casualty and property lines of business.
- Interest expense on the Company’s outstanding debt.
- Certain risks of its businesses that the Company reinsures as part of its risk management program, post-2023 risks on U.S. homeowners business covered by externally ceded homeowners’ quota share reinsurance treaties, and other externally ceded catastrophe and non-catastrophe reinsurance treaties which are described further in “Reinsurance”.
- The Company reports its written premium on workers compensation contracts on the "booked as billed" method. The businesses report workers compensation written premium on the "booked at inception" method. Corporate and Other results reflect the difference between these two methods.
- Costs associated with certain long-term compensation plans and other corporate costs not fully allocated to the businesses.
- Property and casualty operations’ investment income is allocated to the businesses based on planned ordinary investment income returns by investment category. The difference between allocated net investment income and actual net investment income is included in Corporate and Other.
- Investment-related realized gains (losses) and real estate impairments.
- Income related to limited partnership investments.

- Fee and other revenues include revenues from certain non-insurance subsidiaries, including Liberty Energy, Liberty Metals and Mining and Liberty Mutual Agriculture and Timber. These subsidiaries generate revenue from the production and sale of oil, gas, and other natural resources and related limited partnership investments.

## INVESTMENTS

### *General*

The Company's investment strategy seeks long-term returns through disciplined security selection, portfolio diversity and an integrated approach to risk management. The Company selects and monitors investments to balance the goals of safety, stability, liquidity, growth and after-tax total return with its need to comply with regulatory investment requirements. A relatively safe and stable income stream is achieved by maintaining a broadly-based portfolio of investment grade bonds. These holdings are supplemented by investments in additional asset types with the objective of further enhancing the portfolio's diversification and expected returns. These additional asset types include commercial mortgages and other real estate financing investments, non-investment grade bonds, including leveraged loans, common and preferred stock, private equity and direct investments in natural resource ventures. Risk management is accomplished through asset liability management (including both interest rate risk and foreign currency risk), diversification, credit limits and a careful analytical review of each investment decision.

The Company's investment policy and strategy are reviewed and approved by the Investment Committee of its Board of Directors, which meets on a regular basis to review and consider investment activities, tactics and new investment classes. In addition, the Company predominantly uses a subsidiary investment advisor for managing and administering the investment portfolios of its domestic and foreign insurance operations.

### *Invested Assets (including cash and cash equivalents)*

Total invested assets as of June 30, 2023 were \$96.049 billion, an increase of \$127 million or 0.1% over December 31, 2022. The increase was primarily related to an increase in fixed maturities, short-term investments and other investments, offset by a decrease in cash and cash equivalents.

Fixed maturities as of June 30, 2023 were \$65.750 billion, an increase of \$2.890 billion or 4.6% over December 31, 2022. The increase was primarily related to additional investments in U.S. treasuries and corporate bonds, partially offset by unfavorable impact of an increase in treasury rates. As of June 30, 2023, included in fixed maturities are commitments to purchase various residential mortgage-backed securities at a cost and fair value of \$83 million and \$82 million, respectively.

Equity securities as of June 30, 2023 were \$1.050 billion (\$1.050 billion common stock) versus \$1.099 billion as of December 31, 2022 (\$1.098 billion common stock and \$1 million preferred stock), a decrease of \$49 million or 4.5% over December 31, 2022.

Unrealized losses for fixed maturity securities decreased from \$6.386 billion as of December 31, 2022 to \$5.807 billion as of June 30, 2023. The Company monitors the difference between the amortized cost and estimated fair value of fixed maturity securities to ascertain whether declines in value are temporary in nature. The Company currently does not have the intent to sell these securities and has determined it is not more likely than not that it would be required to sell these fixed maturity securities before they recover their fair value. The Company adopted ASC 326 on January 1, 2023. In accordance with ASC 326, if the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the Company utilizes both qualitative and quantitative inputs to determine if a credit loss is expected.

As of June 30, 2023, investments in the energy sector accounted for \$2.994 billion or 3.1% of total invested assets. The energy sector is comprised of investments in the following sub-sectors: independent energy, integrated energy, midstream, oil field services, and refining (*classification per Bloomberg Barclays Industry Groups*). Energy investments consist of investment grade bonds of \$1.877 billion, bonds that were rated below investment grade of \$380 million, publicly traded equity securities of \$2 million, and natural resources partnerships and other equity method investments of \$735 million. Agriculture and timber investments consist of natural resource partnerships of \$22 million. In addition, the Company has direct investments in agriculture and timber of \$207 million and oil and gas wells of \$2 million which are included in other assets on the Consolidated Balance Sheets.

The following table summarizes the Company's unfunded commitments as of June 30, 2023 and December 31, 2022:

Other	145	1.5	80	0.9
Total unfunded commitments	\$9,590	100%	\$8,541	100%

Unfunded commitments as of June 30, 2023 were \$9.590 billion, an increase of \$1.049 billion over December 31, 2022. The increase is primarily reflects new commitments net of contributions related to private credit, energy transition and infrastructure, and traditional private equity. The unfunded energy investment commitments at June 30, 2023 and December 31, 2022 of \$17 million and \$33 million, respectively, related to energy partnerships.

The Company holds unfunded commitments related to commercial mortgage loans. The liability for expected credit losses related to these unfunded commitments is reported in Other Liabilities and is measured in a manner consistent with the approach of the funded mortgage loan portfolio. As of June 30, 2023 the amount of the liability for expected credit losses of unfunded commitments was \$9 million.

## LIQUIDITY AND CAPITAL RESOURCES

The liquidity requirements of the insurance subsidiaries are met primarily by funds generated from operations, asset maturities and income received on investments. Cash provided from these sources is used primarily for claims, claim adjustment expenses and operating expenses (underwriting and corporate benefit costs). There are certain cash outflows such as catastrophes and continued settlements of asbestos reserves that are unpredictable in nature and could create increased liquidity needs. The Company believes that the insurance subsidiaries' future business liquidity needs will be met from all the above sources. However, the Company maintains back up borrowing facilities as an additional contingent source of funds. These include:

- LMIC, Peerless Insurance Company ("PIC"), Liberty Mutual Fire Insurance Company ("LMFIC"), Employers Insurance Company of Wausau ("EICOW"), SAM, State Auto Property & Casualty Insurance Company ("SPC") and Rockhill Insurance Company ("RIC") are members of the Federal Home Loan Bank ("FHLB"). On December 29, 2022, Safeco Insurance Company of America ("SICOA") and Ohio Casualty Insurance Company ("OCIC"), became members of FHLB Boston. The Company has \$300 million of Federal Home Loan Bank borrowings with maturity dates through 2032. As of June 30, 2023, the outstanding Federal Home Loan Bank borrowings are fully collateralized. Ironshore Indemnity Insurance ("III") and Ironshore Specialty Insurance Company ("ISIC") memberships were cancelled on February 24th and 25th, 2020, respectively. Final cancellation of membership has a five-year waiting period. III's waiting period was waived by FHLB, so final membership cancellation was effective on February 9, 2022. For ISIC, the effective date of its final membership cancellation will be February 2025.

Net cash flows are generally invested in marketable securities while keeping a certain amount in cash and short-term investments to meet unpredictable cash obligations. The Company monitors the duration of these investments, and purchases and sales are executed with the objective of having adequate cash available to satisfy its maturing liabilities. As the Company's investment strategy focuses on overall asset and liability durations, and not specific cash flows, asset sales may be required to satisfy obligations or rebalance asset portfolios. The Company's invested assets as of June 30, 2023 (including cash and cash equivalents) totaled \$96.049 billion.

As part of its overall capital strategy, the Company previously announced that it may issue, repurchase or exchange debt depending on market conditions. Debt repurchases may be executed through open market or other appropriate transactions. The Company continues to evaluate market conditions and may periodically affect transactions in its debt, subject to applicable limitations.

### ***Debt Transactions***

On June 15, 2023, \$547 million of LMGI 4.25% Notes were paid at maturity.

On December 15, 2022, \$40 million of Rockhill Holding Company (“RHC”) Notes were redeemed.

On December 2, 2022, LMGI issued €500 million of Senior Notes, due 2030 (“the 2030 Notes”). Interest is payable annually at a fixed rate of 4.625%. The 2030 Notes mature on December 2, 2030.

On November 23, 2022, \$15 million of STFC Notes were redeemed.

On November 3, 2022, \$96 million of SPC Federal Home Loan Bank (FHLB) borrowings were paid.

On September 21, 2022, \$19 million of SAM and \$21 million of SPC FHLB borrowings were paid.

On September 2, 2022, \$11 million of SAM FHLB borrowings were paid.

On June 6, 2022, LMGI issued \$1.000 billion of Senior Notes, due 2052 (the “2052 Notes”). Interest is payable semi-annually at a fixed rate of 5.50%. The 2052 Notes mature on June 15, 2052.

On May 2, 2022, \$473 million of LMGI 4.95% Notes were paid at maturity.

### ***Interest Expense***

Consolidated interest expense for the three and six months ended June 30, 2023 was \$136 million and \$271 million, respectively, an increase of \$16 million and \$29 million over the same periods in 2022.

### ***Holding Company Liquidity and Capital Resources***

The Company conducts substantially all of its operations through its wholly owned insurance and service company subsidiaries, and therefore is primarily dependent on dividends, distributions, loans or other payments of funds from these entities to meet its current and future obligations. However, the subsidiaries are separate and distinct legal entities and have no obligation to make funds available to the Company, whether in the form of loans, dividends, or other distributions. As of June 30, 2023, the Company, through its downstream subsidiaries LMGI and LMFE, had \$9.1 billion and \$546 million, respectively, of debt outstanding, excluding discount and issuance costs.

The insurance subsidiaries’ ability to pay dividends is restricted under applicable insurance law and regulations and may only be paid from unassigned surplus. Under the insurance laws of the domiciliary states of the insurance subsidiaries, an insurer may make an ordinary dividend payment if its surplus as regards to policyholders, following such dividend, is reasonable in relation to its outstanding liabilities, is adequate to its financial needs and does not exceed the insurer’s unassigned surplus. However, no insurer may pay an extraordinary dividend without the approval or non disapproval of the domiciliary insurance regulatory authority. Insurance subsidiaries owned directly by LMGI are LMIC, Liberty Mutual Personal Insurance Company (“LMPICO”), LMFIC, EICOW and SAM. Under the insurance laws of Massachusetts, the domiciliary state of LMIC, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer’s surplus as regards policyholders as of the preceding December 31, or the insurer’s net income for the 12-month period ending on the preceding December 31. Under the insurance laws of New Hampshire, the domiciliary state of LMPICO, an extraordinary dividend is defined as (1) a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of (a) 10% of the insurer’s surplus as regards policyholders as of the preceding December 31, or (b) the insurer’s net income, excluding realized capital gains, for the calendar year preceding the date of the dividend, but not including pro rata distributions of any class of the insurer’s own securities, or (2) the aggregate of the insurer’s net income from the previous two calendar years that has not already been paid out as dividends, excluding realized capital gains and any dividends paid in the previous two calendar years. Under the insurance laws of Wisconsin, the domiciliary state of LMFIC and EICOW, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends paid within the preceding 12 months, exceeds the lesser of (a) 10% of the insurer’s surplus with regard to policyholders as of the preceding December 31, or (b) the greater of (1) the insurer’s net income for the calendar year preceding the date of the dividend, minus realized capital gains for that calendar year, or (2) the aggregate of the insurer’s net income for the three calendar years preceding the date of the dividend, minus realized capital gains for those calendar years and minus dividends paid within the first two of the preceding three calendar years. Under the insurance laws of Ohio, the domiciliary state of SAM, an extraordinary dividend is defined as a dividend whose fair market value, together with other dividends made within the preceding 12 months, exceeds the greater of 10% of the insurer’s surplus as regards policyholders as of the preceding December 31 or the insurer’s net income for the 12-month period ending on the preceding December 31. Changes in the extraordinary dividend regulation of the domiciliary states of LMIC, LMPICO, LMFIC, EICOW and SAM could negatively affect LMGI’s ability to pay principal and interest on its debt, as could a redomestication or merger of LMIC, LMPICO, LMFIC, EICOW or SAM to a different domiciliary state. The authorized control level risk-based capital (as of December 31, 2022) and 2023 available dividend capacity prior to needing regulatory approval for LMIC, LMFIC, EICOW and SAM were as follows:

<b>\$ in Millions</b>	<b>RBC Ratio<sup>1</sup></b>		<b>Dividend Capacity<sup>2</sup></b>	<b>Dividends Paid<sup>3</sup></b>
<b>RBC Ratios and Dividend Capacity</b>	<b>2022</b>	<b>2021</b>	<b>2023</b>	<b>2023</b>
LMIC	361%	389%	\$2,090	\$32
LMFIC	397%	560%	\$-	\$8
EICOW	400%	531%	\$-	\$-
SAM	2,178%	414%	\$113	\$-

1 Authorized control level risk-based capital as defined by the NAIC.

2 Represents the estimated maximum allowable dividend without prior regulatory approval in the state of domicile.

3 Dividends paid represent amounts paid during the six months ended June 30, 2023. Available dividend capacity as of June 30, 2023 is calculated as 2023 dividend capacity less dividends paid for the preceding 12 months. Dividends paid July 1, 2022 through June 30, 2023 for LMIC, LMFIC, EICOW and SAM were \$65 million, \$385 million, \$330 million and zero respectively

LMGI also has access to the following sources of funding:

- An unsecured revolving credit facility of \$1 billion with an expiration date of April 18, 2027. To date, no funds have been borrowed under the facility.
- A management services agreement with LMIC pursuant to which LMGI is entitled to collect certain costs plus a management fee for services rendered by LMGI employees.
- Investment management agreements with affiliated entities pursuant to which an LMGI subsidiary investment advisor is entitled to recover annual expenses for investment management services performed by its employees.
- Liberty Corporate Services LLC (“LCS”), which through its subsidiaries collects fees and other revenues, primarily for claims administration, agency and IT services rendered for affiliated and non-affiliated entities. For the three and six months ended June 30, 2023, LCS recorded \$145 million and \$267 million, respectively, in pre-tax income.
- Approximately \$80 million of annual dividends related to non-redeemable perpetual preferred stock issuances by LMIC and LMFIC.

<b>\$ in Millions</b>	<b>As of June 30, 2023</b>	<b>As of December 31, 2022</b>
Total long-term debt	\$9,572	\$10,053

Statutory surplus	\$25,922	\$26,739

<sup>1</sup> Excludes unamortized discount and debt issuance costs

The total debt-to-capital capitalization ratio excluding accumulated other comprehensive loss is calculated by dividing (a) total debt excluding unamortized discount and debt issuance costs by (b) total capital excluding accumulated other comprehensive (loss) income. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company’s management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company’s financial leverage position. The Company’s ratio of debt-to-capital (excluding accumulated other comprehensive (loss) income of 25.5% at June 30, 2023 was within the Company’s target range.

<b>REINSURANCE</b>

**Reinsurance Recoverables**

The Company reported reinsurance recoverables of \$18.903 billion and \$18.777 billion at June 30, 2023 and December 31, 2022, respectively, net of allowance for doubtful accounts of \$144 million and \$136 million, respectively. Included in these balances are \$1.270 billion and \$1.008 billion of paid recoverables and \$17.777 billion and \$17.905 billion of unpaid recoverables (including retroactive reinsurance), respectively.

1 Standard & Poor's ratings are as of December 31, 2022.

2 Gross recoverables are defined as paid and unpaid claims and claim adjustment expense including IBNR and before both bad debt reserve set aside for potential uncollectible reinsurance and consideration of collateral.

3 Collateral refers to letters of credit, trust accounts, and funds held against outstanding and potential future claims and claim adjustment expenses related to reinsurance recoverable balances.

4 Net recoverables are defined as the difference between the amount of gross recoverables and collateral held for each reinsurer at the ceding entity level. If the collateral held for a reinsurer at a ceding entity level is greater than the gross recoverable, net recoverables are reported as \$0.

1 Reinsurance Groups are defined as all reinsurance subsidiaries owned by a common parent.

2 Gross recoverables are defined as paid and unpaid claims and claim adjustment expense including IBNR and before both bad debt reserve set aside for potential uncollectible reinsurance and consideration of collateral.

3 Collateral refers to letters of credit, trust accounts, and funds held against outstanding and potential future claims and claim adjustment expenses related to reinsurance recoverable balances.

4 Net recoverables are defined as the difference between the amount of gross recoverables and collateral held for each reinsurer at the ceding entity level. If the collateral held for a reinsurer at a ceding entity level is greater than the gross recoverable, net recoverables are reported as \$0.

Approximately 94% and 93% of the Company's reinsurance recoverable balance, net of collateral held and including voluntary and involuntary pools and associations, was from reinsurers rated A- or better from A.M. Best and Standard & Poor's, respectively, at December 31, 2022. Collateral held against outstanding gross reinsurance recoverable balances was \$11.273 billion at December 31, 2022.

The remaining 6% and 7% of the Company's net reinsurance recoverable balance is well diversified. No single reinsurer rated below A- or not rated by A.M. Best or Standard & Poor's accounts for more than 1% of GAAP equity. In addition, the average net reinsurance recoverable balance from individual reinsurers rated below A- or not rated by A.M. Best and Standard & Poor's was approximately \$1 million as of December 31, 2022.

The reinsurance recoverables from state mandated involuntary pools and associations primarily represent the Company's servicing carrier business. As a servicing carrier, the Company retains no direct underwriting risk but instead cedes 100% of the involuntary market premium and losses back to the pool. Payment of losses is shared by the pool participants in proportion to their pool participation. Reinsurer credit risk with respect to any such involuntary pool or association is a function of the creditworthiness of all the pool participants.

The Company's reinsurance recoverables from Nationwide Indemnity Company have been fully guaranteed by its parent, Nationwide Mutual Insurance Company, which has a financial strength rating of A+ from Standard & Poor's and A+ from A.M. Best.

### ***Adverse Development Reinsurance***

On November 5, 2019, LMIC entered into a reinsurance transaction with NICO, a subsidiary of Berkshire Hathaway Inc, on a combined aggregate excess of loss agreement for certain GRM U.S. Business Lines and GRS National Insurance workers compensation, commercial auto liability and general liability excluding umbrella and warranty liabilities. The first layer of the contract attaches at \$300 million below applicable held reserves at inception of \$8.342 billion of combined aggregate reserves. The second layer of the contract provides adverse development coverage for \$1.000 billion above a retention equal to \$8.742 billion. The contract includes a sublimit of \$100 million for certain general liability liabilities. At the closing of the NICO Casualty Reinsurance Transaction, but effective as of January 1, 2019, the Company ceded \$300 million of existing undiscounted liabilities, paid NICO total consideration of \$462 million and recorded a pre-tax loss of \$173 million. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2018 development for Global Retail Markets U.S. Business Lines and Global Risks Solutions National Insurance segment on: (1) certain workers compensation liabilities arising under policies on the books as of December 31, 2018 as respects injuries or accidents occurring after December 31, 2013 and prior to January 1, 2019; (2) commercial auto liabilities arising under policies on the books as of December 31, 2018 as respects injuries or accidents occurring prior to January 1, 2019; and (3) general liability excluding umbrella and warranty arising under policies as of December 31, 2018 as respects injuries or accidents occurring prior to January 1, 2019.

Since the NICO Casualty Reinsurance Transaction is accounted for as retroactive reinsurance in the Company's GAAP Consolidated Financial Statements, to the extent there is unfavorable development of losses covered by this reinsurance, an additional reinsurance benefit is recognized in the Consolidated Statements of Operations until those benefits exceed the loss on the transaction. Reinsurance benefits will be deferred and are amortized into earnings over the period when underlying claims are settled.

As the aggregate development on the contract has exceeded the original pre-tax loss of \$173 million, deferred gains are now being recorded. The Company reported deferred gain amortization of \$7 million and \$5 million for the six months ended June 30, 2023 and June 30, 2022, respectively. As of June 30, 2023 and December 31, 2022, deferred gains were \$211 million and \$218 million. Limits remaining on the contract as of June 30, 2023 were \$543 million.

In conjunction with the Ironshore acquisition and effective May 1, 2017, the Company entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement providing coverage for substantially all of Ironshore's reserves related to losses occurring prior to January 1, 2017. The first layer of the contract transfers \$400 million of held reserves at inception, for which the Company established reinsurance recoverables on the Consolidated Balance Sheet. The second layer of the contract provides adverse development coverage for 95% of \$500 million above a retention equal to \$3.006 billion, minus paid losses between January 1, 2017 and May 1, 2017, which retention approximates the total held reserves on the covered business on Ironshore's opening balance sheet. The contract includes a sublimit of \$277 million for certain construction liability liabilities. The Company paid NICO consideration of \$550 million, including interest accrued at the time of the settlement. The contract is accounted for on a prospective basis. Limits remaining on the contracts in total, and for construction liability liabilities, respectively, were \$456 million and zero as of June 30, 2023.

On July 17, 2014, LMIC entered into a reinsurance transaction with NICO on a combined aggregate excess of loss agreement for substantially all of the Company's U.S. workers compensation, asbestos and environmental liabilities, attaching at \$12.522 billion of combined aggregate reserves, with an aggregate limit of \$6.500 billion and sublimits of \$3.100 billion for asbestos and environmental liabilities and \$4.507 billion for certain workers compensation liabilities. At the closing of the NICO Reinsurance Transaction, but effective as of January 1, 2014, the Company ceded \$3.320 billion of existing undiscounted liabilities under this retroactive reinsurance agreement. NICO will provide \$3.180 billion of additional aggregate adverse development reinsurance. The Company paid NICO total consideration of \$3.046 billion and recorded a pre-tax loss of \$128 million. With respect to the ceded asbestos and environmental business, NICO has been given authority to handle claims, subject to the Company's oversight and control. With respect to the ceded workers compensation business, the Company will continue to handle claims. This contract is accounted for on a retroactive basis.

In general terms, the covered business includes post December 31, 2013 development on: (1) asbestos and environmental liabilities arising under policies of insurance and reinsurance with effective dates prior to January 1, 2005; and (2) workers compensation liabilities arising out of policies on the books of the Company's former Commercial Insurance Strategic Business Unit as of December 31, 2013, as respects injuries or accidents occurring prior to January 1, 2014.

As the aggregate development on the contract has exceeded the original pre-tax loss of \$128 million, deferred gains are now being recorded. The Company reported deferred gain amortization of \$1 million and \$0 million for the six months ended June 30, 2023 and June 30, 2022, respectively. As of June 30, 2023 and December 31, 2022, deferred gains were \$20 million and \$26 million. Limits remaining on the contract in total, and for asbestos and environmental liabilities, respectively, were \$3.180 billion and \$368 million as of June 30, 2023.

### ***Non Catastrophe Reinsurance***

The Company purchases facultative and treaty reinsurance protection on a per risk, per policy, per loss and/or per occurrence basis. Treaty coverage is provided on a pro rata and excess of loss basis for portions of the Company's property, marine, terrorism, energy, third party motor, cyber, financial risk, surety, aviation and casualty lines portfolios.

### ***Catastrophe Reinsurance***

The Company has property catastrophe reinsurance coverage for its domestic business and certain specialty operations including: 1) hurricanes and earthquake reinsurance covering a substantial portion of \$3.6 billion of loss in excess of \$1.0 billion of retained loss in the United States, Canada, and the Caribbean, excluding certain reinsurance exposures; 2) per occurrence and aggregate excess of loss coverage targeting our reinsurance exposures; and 3) quota share reinsurance programs. These programs are structured to meet the Company's established tolerances under its Enterprise Risk Management Program.

The Company purchases property catastrophe reinsurance coverage for the international property books to protect against international catastrophe events.

The Company purchases workers compensation catastrophe reinsurance, including coverage for its domestic commercial operations and certain specialty operations' U.S. exposures. This program provides significant reinsurance protection in excess of \$330 million per occurrence retention, including coverage for terrorism events and/or losses for a single event at a single insured location in excess of \$75 million. These contracts generally exclude acts of terrorism which are "certified" by the U.S. government where such certified terrorism events involve the intentional use of nuclear, chemical, or biological materials.

### ***Catastrophe Bond Reinsurance***

On December 16, 2022, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2023, with Mystic Re IV Ltd. ("Mystic IV"), a Bermuda domiciled reinsurer, to provide a total of \$150 million of reinsurance coverage for the Company and its affiliates for named storms and earthquakes covering U.S., Caribbean and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence indemnity coverage. The Company has not recorded any recoveries under this program.

On June 16, 2021, the Company entered into a multi-year property catastrophe reinsurance agreement, effective July 1, 2021, with Mystic IV to provide a total of \$300 million of reinsurance coverage for the Company and its affiliates for named storms and earthquakes covering U.S., Caribbean and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence indemnity coverage. The Company has not recorded any recoveries under this program.

On December 21, 2020, the Company entered into a multi-year property catastrophe reinsurance agreement, effective January 1, 2021, with Mystic IV to provide a total of \$300 million of reinsurance coverage for the Company and its

affiliates for named storms covering U.S. and earthquakes covering U.S. and Canada. The reinsurance agreement is collateralized. Such collateral is provided by Mystic IV using proceeds from the issuance of certain catastrophe bonds. The reinsurance agreement provides per occurrence coverage based on weighted industry insured loss index. This loss index is weighted to align with the Company's assumed reinsurance portfolio. The Company has not recorded any recoveries under this program.

#### ***Florida Hurricane Catastrophe Fund***

The Company participates in the Florida Hurricane Catastrophe Fund ("FHCF"), a state-mandated catastrophe fund that provides reimbursement to insurers for a portion of their Florida hurricane losses. FHCF resources may be insufficient to meet the obligations of FHCF. Limits, premium and reimbursements from FHCF apply on a per company basis. If losses fall disproportionately on one insurance entity within the Company, recovery from FHCF could be less than anticipated. On June 1, 2022, the Company renewed coverage for 90% of approximately \$52 million excess of \$22 million. Recoveries from FHCF inure to the sole benefit of the Company. If the Company fails to recover as anticipated from FHCF there could be an adverse effect on the Company's business, financial condition or results of operations.

The Company participates in the Reinsurance to Assist Policyholders ("RAP") program, a state administered catastrophe fund that provides reimbursement to insurers for a portion of their Florida hurricane losses. Limits, premium and reimbursements from RAP apply on a per company basis. If losses fall disproportionately on one insurance entity within the Company, recovery from RAP could be less than anticipated. On July 15, 2022, the Company received coverage for 90% of approximately \$5 million excess of \$14 million.

## CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company's principal estimates include (1) unpaid claims and claim adjustment expense reserves, including asbestos and environmental liability reserves and loss sensitive premium attributable to prior years, (2) reinsurance recoverables and associated uncollectible allowance, (3) fair value determination and impairments of the investment portfolio, (4) valuation of goodwill and intangible assets, (5) deferred income tax valuation allowance, and (6) pension and postretirement benefit obligations.

While the amounts included in the Consolidated Financial Statements reflect management's best estimates and assumptions, these amounts ultimately could vary.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2022 Audited Consolidated Financial Statements and footnote 1 in the Company's June 30, 2023 Unaudited Consolidated Financial Statements.

### **Unpaid Claims and Claim Adjustment Expenses**

Property and casualty insurance unpaid claims and claim adjustment expenses represent the Company's best estimate of amounts necessary to settle all outstanding claims, including claims that are incurred but not reported as of the reporting date. The Company's reserve projections are based primarily on detailed analysis of the facts in each case, experience with similar cases and various historical development patterns. Consideration is given to such historical patterns as field reserving trends and claims settlement practices, loss payments, pending levels of unpaid claims and product mix, as well as court decisions, economic conditions and public attitudes. All of these factors can affect the estimation of reserves.

Establishing loss reserves, including loss reserves for catastrophic events that have occurred, is an estimation process. Many factors can ultimately affect the final settlement of a claim and, therefore, the necessary reserve.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2022 Audited Consolidated Financial Statements and footnote 6 in the Company's June 30, 2023 Unaudited Consolidated Financial Statements.

### **Asbestos and Environmental**

As a result of the significant uncertainty inherent in determining a company's asbestos and environmental liabilities and establishing related reserves, the amount of reserves required to adequately fund the Company's asbestos and environmental claims cannot be accurately estimated using conventional reserving methodologies based on historical data and trends. As a result, the use of conventional reserving methodologies frequently has to be supplemented by subjective considerations including managerial judgment. In that regard, the estimation of asbestos claims and associated liabilities and the analysis of environmental claims considered prevailing applicable law and certain inconsistencies of court decisions as to coverage, plaintiffs' expanded theories of liability, and the risks inherent in major litigation and other uncertainties. The Company believes that in future periods it is possible that the outcome of the continued uncertainties regarding asbestos and environmental related claims could result in an aggregate liability that differs from current reserves and would be covered under the NICO Reinsurance Transaction subject to treaty terms and conditions.

For additional discussion, please refer to footnote 6 in the Company's December 31, 2022 Audited Consolidated Financial Statements and footnote 6 in the Company's June 30, 2023 Unaudited Consolidated Financial Statements.

### **Reinsurance Recoverables**

Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured business. The Company evaluates and monitors the financial condition of its reinsurers under voluntary reinsurance arrangements to minimize its exposure to significant losses from reinsurer insolvencies. The Company reports its reinsurance recoverables net of an allowance for estimated uncollectible reinsurance recoverables. The

allowance is based upon the Company's ongoing review of amounts outstanding, length of collection periods, changes in reinsurer credit standing and other relevant factors. Accordingly, the establishment of reinsurance recoverables and the related allowance for uncollectible reinsurance recoverables is also an inherently uncertain process involving estimates. Changes in these estimates could result in additional charges to the accompanying Consolidated Statements of Operations.

Ceded transactions that transfer risk but are retroactive are included in reinsurance recoverables. The excess of estimated liabilities for claims and claim costs over the consideration paid net of experience adjustments is established as a deferred credit at inception. The deferred amounts are subsequently amortized using the effective interest method over the expected settlement period. The periodic amortization is reflected in the accompanying Consolidated Statements of Operations through benefits, claims and claim adjustment expenses. In transactions where the consideration paid exceeds the estimated liabilities for claims and claim costs a loss is recognized. If the adverse development net of experience adjustments exceeds the original loss, deferred gains are recorded. The deferred gains are subsequently recognized into earnings over the expected settlement period of the reserves.

For additional discussion, please refer to footnote 5 in the Company's December 31, 2022 Audited Consolidated Financial Statements and footnote 4 in the Company's June 30, 2023 Unaudited Consolidated Financial Statements.

### **Fair Value Determination**

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach, which generally utilizes market transaction data for identical or similar instruments.

The hierarchy level assigned to each security in the Company's investments portfolio is based on the Company's assessment of the transparency and reliability of the inputs used in the valuation of each instrument at the measurement date. Securities are classified into three hierarchy levels: Level 1, Level 2 or Level 3.

Regarding fair value measurements, as of June 30, 2023, excluding other assets, the Company reflected \$8.377 billion (12.1%) as level 1 (quoted prices in active markets) primarily consisting of U.S. Treasuries and common equity securities. The majority of the Company's invested assets are reported as level 2 (quoted prices from other observable inputs). As of June 30, 2023, the Company reported \$58.033 billion (84.0%) as level 2, consisting primarily of fixed maturity securities. Finally, the Company reported \$2.678 billion (3.9%) as level 3 (unobservable inputs), primarily consisting of international and privately held securities for which a market price is not readily observable.

### **Impairment Losses on Investments**

The Company reviews fixed maturity securities and other investments which include limited partnership and other equity method investments (primarily traditional private equity, natural resource and real estate) for impairment on a quarterly basis. These investments are reviewed for both quantitative and qualitative considerations including, but not limited to: (a) the extent of the decline in fair value below book value, (b) the duration of the decline, (c) significant adverse changes in the financial condition or near term prospects of the investment or issuer, (d) significant change in the business climate or credit ratings of the issuer, (e) general market conditions and volatility, (f) industry factors, (g) the past impairment of the security holding or the issuer, and (h) impact of foreign exchange rates on foreign currency denominated securities.

The Company adopted ASC 326 on January 1, 2023. In accordance with ASC 326, if the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the Company utilizes both qualitative and quantitative inputs to determine if a credit loss is expected.

The Company is required to review its natural resource and other equity method investments when facts and circumstances indicate that carrying values may not be recoverable. In performing a quarterly review, the fair value

of the Company's investment is estimated using indicators including, but not limited to, market comparables and analyses, commodity prices, and discounted cash flows and a realized loss is recognized for the excess, if any, of the investment's carrying value over its estimated fair value.

### **Goodwill and Intangible Assets**

Goodwill is tested for impairment at least annually using either a qualitative or a quantitative process. Election of the approach can be made at the reporting unit level. The reporting unit has the option to skip the qualitative test and move directly to completion of the quantitative process. As of June 30, 2023, the Company has two reporting units – Global Retail Markets and Global Risk Solutions.

Indefinite-lived intangible assets held by the Company are reviewed for impairment on at least an annual basis using a qualitative process. The classification of the asset as indefinite-lived is reassessed, and an impairment is recognized if the carrying amount of the asset exceeds its fair value.

The Company recognized \$21 million of intangibles impairments related to Ironshore distribution channel in 2022.

For additional discussion, please refer to footnote 1 in the Company's December 31, 2022 Audited Consolidated Financial Statements.

### **Deferred Income Taxes**

The income tax provision is calculated under the liability method of accounting. Deferred income tax assets and liabilities are recorded based upon the difference between the financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences are insurance loss reserves, unearned premiums, employee benefits, net unrealized gains and losses on investments, and deferred policy acquisition costs.

For the year ended December 31, 2022, the Company established a partial valuation allowance of \$62 million on certain deferred tax assets related to unrealized losses in the available for sale securities portfolio. For the six-month period ended June 30, 2023, changes in market conditions resulted in a partial release of the valuation allowance of \$19 million. Changes in the valuation allowance have been allocated to other comprehensive income.

For additional discussion, please refer to footnote 8 in the Company's December 31, 2022 Audited Consolidated Financial Statements and footnote 7 in the Company's June 30, 2023 Unaudited Consolidated Financial Statements.

### **Pension and Postretirement Benefit Obligations**

On an annual basis, the Company reviews the discount rate assumption used to determine the benefit obligations and the composition of various yield curves to ensure that the assumed discount rate reflects the Company's best estimate of the rate of return inherent in a portfolio of high-quality debt instruments that would provide the cash flows necessary to settle the Company's projected benefit payments.

The discount rate assumption used to determine the benefit obligations was based on a yield curve approach where the cash flows related to the benefit plans' liability stream were discounted at an interest rate specifically applicable to the timing of the cash flows. The service cost is calculated by discounting the future cash flows attributable to the current year of service using spot rates specifically applicable to the timing of the cash flows. Interest cost is determined by multiplying each benefit obligation cash flow by the spot rate applicable to that timing of the cash flow.

In choosing the expected long-term rate of return on plan assets, the Company's Retirement Committee considered the historical returns of equity and fixed income markets in conjunction with current economic and financial market conditions.

## **ABOUT THE COMPANY**

Boston-based LMHC, the parent corporation of the Liberty Mutual Insurance group of entities, is a diversified global insurer and fifth largest global property and casualty insurer based on 2022 gross written premium. The Company also ranks 86<sup>th</sup> on the Fortune 100 list of largest corporations in the U.S. based on 2022 revenue. As of December 31, 2022, LMHC had \$160.316 billion in consolidated assets, \$138.108 billion in consolidated liabilities, and \$50.0 billion in annual consolidated revenue.

LMHC, through its subsidiaries and affiliated companies, offers a wide range of property and casualty insurance products and services to individuals and businesses alike. In 2001 and 2002, the Company formed a mutual holding company structure, whereby the three principal mutual insurance companies, LMIC, LMFIC and EICOW, each became separate stock insurance companies under the ownership of LMHC. In 2022, SAM, formerly a mutual insurance company, also became a stock insurance company under the ownership of LMHC.

Functionally, the Company conducts substantially all of its insurance business through two business units, with each operating independently of the other in certain areas such as sales, underwriting, and claims, but, as appropriate, collaborating in other areas such as actuarial and financial. Management believes this structure provides increased synergy to the Company and permits each business unit to execute its business strategy and/or to make acquisitions without impacting or disrupting the operations of the other business unit.

LMHC employs over 50,000 people in 29 countries and economies around the world.
